

NEWS of SOCIETY

The second of a series of Junior country club dances to be given during the month of August will take place at the club house Monday evening, August 17. The Star Novelty orchestra has been engaged for the dance and many plans are being made to make it one of the best of the season.

The members of the committee in charge are: Mr. and Mrs. G. L. Jackson, Mr. and Mrs. R. J. Kitchin, Mr. and Mrs. John Thomas, Mr. and Mrs. J. G. Snodgrass, Mr. and Mrs. P. S. Robinson and George Hopkins.

COVE (Special)—The Ladies' Guild spent a delightful afternoon in the Absorption Grove Thursday. During the afternoon "500" was played, after which refreshments were served. Mrs. A. G. Conklin was high honors.

Those present were: Mrs. J. J. Conley, Mrs. Ray Goodenough, Mrs. L. B. Carter, Mrs. Edna Conklin, Mrs. A. H. Orton, Mrs. A. G. Conklin, Mrs. Chris Bertsch, Mrs. T. E. Conklin, Miss Boss Kelly, Mrs. C. Heryford, Mrs. J. Fletcher, Miss Marion Conklin, Mrs. J. P. Down, Miss Florence Stevens, Mrs. L. E. Lay, Mrs. William Murray Headman, Mrs. L. M. Laird and Miss Mary Madden of Prosser, Ill.

Cove (Special)—Mrs. A. G. Conklin was hostess at a small dinner recently. Covers were laid for eleven. The guests were: Mr. and Mrs. J. E. Stearns and Miss Mae Stearns, of La Grande; Mrs. Edna Conklin, Misses Marian and Clarice Conklin, Mr. and Mrs. T. E. Conklin and A. G. Conklin.

Oakland Street Cars Adopt Pay-As-You-Leave System
OAKLAND, Cal. (AP)—The Key System Transit company here has adopted a pay-as-you-leave plan on its local cars to avoid congestion in downtown streets. Passengers are requested to find seats or standing room quickly when they enter and to hand over their fares on leaving.

The method is proving popular with women passengers, especially those burdened with parcels and children. The new system is being used only on outbound cars, passengers on inbound cars continuing to pay as they enter.

The money you make doesn't do you half as much good as the money you save.

Even if wealth is a burden fact of it is more so.

FARMERS BUSY AT THRESHING

WALLOWA, Ore. (Special)—Threshing of the fall wheat crops in this end of the valley are commencing this week. Harry Heidler of Lostine, started his threshing machine at the James Reed ranch a few miles east of here Friday afternoon. He expects to be able to continue a steady run until the threshing is finished. Giles Plass who recently finished binding a crop of fall wheat on his farm in the hills has also started his machine. Reports as to the yield of these harvests is expected to be very good, as they fields were very heavy and the appearance of a bumper crop. Grain is in fine condition for threshing at this time as much of it has been bound only a short time, although perfectly dried out.

Ram Meek finished binding grain for H. C. Rogers the latter part of the week.

Many people from this section of the county attended the afternoon performance of the A. G. Barnes circus at Enterprise Friday. The show is said to have been very good, and was a great treat to many people of this county who seldom have the opportunity of seeing a good circus, without one during the afternoon was very large. Persons from all parts of the county being present.

Eugene Gastin went to Powhatan Ridge the latter part of the week. He expects to remain there a few days before returning home.

L. V. Lathrop of Leap, has been busy the past few days combining a crop of fall barley, he finished this field the last of the week, and reports a very satisfactory yield. He expects to commence cutting his fall wheat crop soon.

Wert McGinnis of Powhatan section was here the last of the week, he also attended the circus at Enterprise while out.

Mrs. John Couch of Leap, was among the Wallowa visitors. She finished this field the last of the week.

Iroy Gastin and George Condon finished binding their spring grain the latter part of the week. Mr. Gastin expects to be able to start his threshing machine early next week, his first job will be for John McDonald on the hill a couple of miles east of town.

James Bright, hauled wood from the Meek ranch for Homer Bechtel the latter part of the week.

G. L. Martin and family were Enterprise visitors the latter part of the week.

The sky over this section of the country has been overcast with a heavy smoke during the past several days. No fires have been reported in the county yet this season, but every precaution is being taken at this time to prevent the start of destructive fires as the vegetation is rapidly becoming very dry.

Sister Mary Says:

Breakfast—Grape fruit, broiled bacon, bread crumbs omelet, hot muffins, milk, coffee.

Luncheon—Macaroni baked with tomatoes and cheese, broiled lean lamb chops, apple snow, molasses cake, milk tea.

Dinner—Pot roast of beef, vegetable salad with meat, cabbage with sour cream dressing, cottage cheese pie, Graham bread, apple jelly, milk, coffee.

When making muffins it's well worth while to make enough to last for a second meal. It is such a simple matter to split the cold muffins and toast and butter them and the result is so good that the mixture and baking of extra batter is not a hardship.

Apple Snow

Four large sour apples, 3 eggs, 1/2 teaspoon salt, one half cup of sugar.

Wash and bake apples. Scrape fruit from skin and core and rub through a fine sieve. Beat in sugar. Beat whites of eggs until stiff and dry on a plate, using a wire whisk. Slowly and steadily add apple pulp beating constantly. Chill and serve with boiled custard made with the yolks of the eggs.

Boiled Custard

One and one-half cups hot milk, 1/2 teaspoon salt, one half cup sugar, yolks 3 eggs, one-half teaspoon vanilla.

Beat egg yolks with sugar and salt. Slowly heat in hot milk, being sure the sugar and egg mixture dissolves in the hot milk. Pour into top of double boiler and cook over hot water, stirring to keep smooth until mixture coats the spoon. Remove from the heat and when cool stir in vanilla. Chill before serving.

BEAR INVADERS CABIN
SWEET HOME, Ore.—A good sized bear made his appearance recently at the John Hines cabin near the ranger station. Several times Hines came home to find his table tampered with, but upon the last time the bear was found while he stood eating from the bear ket-tle. His attention was drawn toward the owner and in an instant he had grabbed the bear pot and made for the woods, while sticks were flying at his head. He finally settled down and ate his meal. He never noticed a bear from the kitchen on his run.

John has now sent to Sweet Home for his gun.

Canada is to have a flag of its own soon. A red ensign bearing the Canadian arms is at present flown over Canadian buildings abroad. Although it has never with a population of 25,000,000 there were only 71 murders last year, while almost five times that number occurred in New York city.

Radio Chats
 (By Powell Crowley Jr.)

Much has been written about the advantages of super-power broadcasting. It is pretty well known that when super-power is used and when the station is remotely controlled, that is, is located a way from the centers of population, summer interference is overcome. And it has been said that another advantage of super-broadcasting is that the additional power used is a help to the man with a one-tube set.

Well, that is very true, but the idea that the man with a one-tube set gets only local stations is all wrong. There are one-tube sets on the market, within the reach of every home, that assure excellent long distance reception, as well as local.

It was a one-tube set which brought MacMillan's North Pole message in to Leonard Weeks, at Minot, N. D. when all others failed though they cost ten times as much.

One tube sets have been known to get stations from coast to coast. Using the ordinary radio frequency and detector circuit, signals pass straight through three tubes, for example, without extraordinary increase in their strength. Using another circuit with one tube, the signals are passed several times through the single tube, each time increasing their strength and giving results greater than what can be obtained with three tubes. In other words, or even better results are obtained than with three tubes.

Andie Edmondson at Stella, Mo., with a one tube set heard 330, American, Scotland; Paul J. Hall, at Onicola, with a one-tube set heard 21.0, London, England; Eugene Harbouse, at Brookfield, Mo., with a one-tube set, hears Winnipeg and Montreal.

Just because a family is content with a one-tube set is no reason why that family isn't getting the best that radio has to offer.

BERLIN (AP)—The first London bus has arrived in Berlin. It is introduced as an experiment and should it prove satisfactory, 200 of them will be put in operation.

Gets Million

Maude Torton, 21, a Los Angeles milliner, has just learned she is a millionaire. A great uncle died in England and she gets a third of his \$3,000,000 estate.

EVER ENTER A SACK RACE? They are full of action and tumbles, and anticipations and such. Well, here are four Scotch lassies, ready for the fun at the Scotch Society Field Meet in San Francisco. They may dread the consequences, but can pride in urging them on.

Radio

WEDNESDAY, AUGUST 12.

Travel Between Mexico and U. S. Is Balanced

CALEXICO, Cal. (AP)—Figures released by the United States immigration office here showed that 9,836,768 persons passed through the Calexico-Mexican international port during the fiscal year of 1924-1925.

Of 4,999,661 persons who traveled from the United States into Mexico, 3,427,882 were aliens and 1,571,778 were Americans. Statistics for the travel into the United States for the Central American country were 3,529,277 aliens and 1,281,716 Americans.

The heaviest travel through the port was recorded during the summer months of June and July and the minimum movement in February.

Compliments of the United States Customs office here revealed that the total imports into the United States at the port during the last fiscal year amounted to \$6,165,601 of which \$1,447,249 were dutiable and \$4,718,352 were free.

Exports to Mexico during the period of July 1, 1924, to July 1, 1925 aggregated \$4,063,621 and collections at the port were \$215,639.
