

MANY TAKING VACATION NOW

MEDICAL SPRINGS, Ore.—(Special.)—Mr. and Mrs. Guy Duncan, of Baker, are spending their vacation at Medical Springs visiting relatives.

Several from here attended the funeral of Grant Wellington at Baker Saturday.

Mr. and Mrs. J. G. Kinnaman and daughters Ruth and Yen, of Hillsboro, Ore., were visiting relatives here the first of the week.

George Melroy, of the Park, was a business visitor at the creek Monday.

Mr. and Mrs. P. Kelly were shopping at Baker Tuesday.

Mr. and Mrs. George Heller and family spent Monday at Baker shopping.

Mr. and Mrs. John Vanorster and daughter Lois have returned from a trip to the mountains.

Mrs. Joe Lay has returned home after helping care for her grand-son.

Mr. and Mrs. H. Baker, of Oswego, are at the cottage where Mr. Baker is taking the hot baths. Mrs. Baker is a sister of J. H. Wankler and has many friends here who are glad to see her.

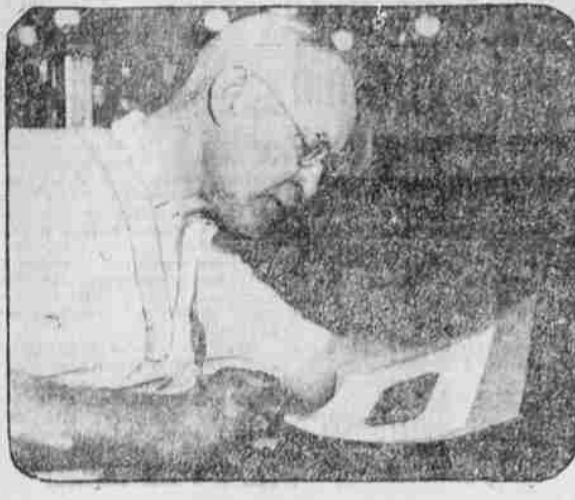

Another rain storm Sunday morning stopped threshing until Monday afternoon. Frost Monday morning did some damage to garden.

Mrs. Vernon Love was an over night guest of her parents, Mr. and Mrs. George South, Monday.

A merry camping party—Mr. and Mrs. O. Bloom, Mr. and Mrs. Leo Wilson, Mr. and Mrs. F. Whitten and Miss Jessie Cassidy—expect to leave this week for a ten-day vacation in the mountains.

Mrs. George South is on the sick list.

MADE BILLIONS OF DOLLARS

In the 25 years that he has been employed in the government printing plant in Washington, D. C., Edward Meyer has made more money than any other man in the world. He believes he has made more than 50 billion dollars, but has received only a very small share of it for his own use.

Foreign Trade Shows Increase in Korea

TOKYO, (AP)—Following up last year's advantage of nearly a 25,000,000 yen export surplus, the trend in Korea's foreign trade continued to show remarkable improvement during the first five months of the year. Statistics show that Korea shipped abroad and to the mainland merchandise valued at 142,000,000 yen as against imports of 129,000,000 yen.

The favorable condition is reflected in the trend of the money and finance markets where plenty of credit is available for legitimate requirements. The statement of the clearing house banks in the territory shows deposits are over the mark, standing at 120,000,000 yen at the end of May, an increase of more than 15,000,000 yen over a year ago.

A study of the details disclosed that, while there was a slight decline in current deposits, there were notable increases in fixed accounts, which were larger by more than 7,000,000 yen than a year ago.

On the other hand, advances were down to 125,000,000 yen at the end of May as against 157,000,000 at the end of January this year.

HE CAPTURED THE HEARTS OF THE COLDS at the Oregon Agriculture College. He's Rowan Robert Wheldon. He is 27 months old, and more than 100 upper class crows have mothered him since he was brought to the college at the age of two months, as an inmate of the home management house.

Phonetic Similarity Causes Confusion of Two Towns

AMSTERDAM, (AP)—Confusion of the town names, Bayreuth, in Germany, with Beirut in Asia Minor, which led recently to erroneous reports that the Dutch government had decided to establish a consulate in Bayreuth instead of Beirut, recalled that the two names had been confused once before, in 1876.

On the latter occasion, the Oriental city was somewhat surprised to receive at the time a specially equipped machine which had been hurried to Beirut in a steamer in the Szigfried performance of "The Thing." In the first Wagner festival at Bayreuth, the machine had been made by an English firm and as Bayreuth was a small and little-known town a shipping clerk thought an error had been made in the spelling and that such a complicated bit of machinery could only be intended for Beirut.

Canada Held Political Power in British Empire

WINNIPEG, Man. (AP)—In the opinion of J. M. MacIntosh, professor of colonial and economic history at the University of Bristol, Eng., nothing can stop the North American continent from becoming eventually the chief influence of the future. He expressed that view when he stopped here recently on his way to Calgary, his birth place.

As to Canada's future he said: "I feel that in the years to come there is every likelihood of Canada becoming the center of the British Commonwealth of Nations, with the necessary political power transferred to her."

"There may be some who would advocate that Canada should go forward as an independent nation, outside the British Commonwealth, I fail to see this line of reasoning, for the fact that Canada is within the empire, appears to me one of the chief reasons of her strength."

Prof. MacIntosh lost the sight of both eyes as a result of wounds received in the World war.

Tokyo's Lower Classes Suffer From Industrial Depression

TOKYO, (AP)—The condition of the school children in the slum quarters of Tokyo recently has been attracting the attention of the newspapers. Owing to the industrial depression, the poverty of the lower house classes is becoming more pronounced. It is said that hundreds of children attend Hayashi primary schools have been going without lunch daily because of lack of funds. The teachers, learning of this situation, have been soliciting funds to provide the youngsters with food.

BLAZE BIRTHDAY EVENT THE DALLIES, Ore. (Special)

With fire razing in the roof of an annex and members of the nurses' staff hurriedly conveying patients to safety, a baby girl was born at the Hamilton Morse hospital to Mr. and Mrs. Charles A. Miller of Coquille.

The infant was at once taken to a neighboring house until danger of the fire spreading to the main hospital had passed. The mother did not see her baby until the infant was returned and Green had checked the blaze. Damage to the roof of the hospital annex was estimated at \$1000.

Klan Divides on Need of Secrecy; Unmasked Parades Are Questioned

HUCKEY LAKE, Ohio, (AP)—The Ku Klux Klan must revert to its original intention of keeping its membership secret if it is to achieve the object to which it is designated. Glenn Carter, grand dragon of Nebraska, asserted Tuesday before the national meeting of state and regional heads of the organization here.

He denounced the growing practice of unmasking of appearing in public unmasked. "This has done more to prevent men who might be inclined to join than any other thing," he said.

"If our membership is known," he declared, "many men sympathetic towards the Klan may be deterred from joining for business, political and social reasons."

Carter's stand was opposed by several of the grand dragons and Klans. No definite action was taken.

MAN ARRESTS HIMSELF

SALEM, Ore. (Special)—Edward Williams, 27, walked into the police station here and informed the officers that he was wanted at Newark, N. J., on a charge of violating the probation act of that state. Williams told the police that he was arrested at Newark for non-support, but was released with the understanding that he would pay his wife \$25 a month and not leave the state.

Telegrams were sent to the police at Newark advising them of Williams' presence in this city. Pending a reply to the message Williams will remain in the city jail here. He has agreed to waive extradition.

Copper Carbonate Dust Good Remedy For Smut

Copper carbonate dust for wheat smut control, introduced into Oregon by the experiment station and carried to the farm by apothecists and county agents of the extension service, is just the experimental stage and fast coming into general use. Wheat for 20,000 acres was dusted last year, and enough for a half million acres will be for next year's crop, thinks E. R. Jackson, extension specialist—about half the total Oregon wheat acreage.

A saving of one-fourth of the seed is one big advantage of the dust treatment. This will save about 250,000 bushels annually—\$250,000 or more for the growers' pockets. The seed germinates more quickly and surely and the plants are more vigorous from the start. Low cost of treatment, keeping power of treated grain, and effective smut control are other big advantages.

Failure of growers to allow for the added thickness of stand by reducing amount of seed sown caused too thick stands in some fields. The better germination of the dust method justifies reducing the common rate of sowing from 16 to 75 pounds per acre to 14 to 25 pounds.

Control of smut has been shown by field and nursery tests to be about the same with the dust rightly applied as with the liquid limestone treatment. Every grain must be dusted, which is best accomplished by running the machine at the prescribed speed according to directions. When run too fast the machine holds the grain against the drum instead of tumbling it over the lattice boards to get the share of dust.

Two ounces of fine, good quality copper carbonate dust to each bushel of clean grain, or three ounces for badly smutted grain, are recommended by the station. The wheat is rebagged and smut built removed before treatment. Care is taken not to breathe the dust either in treating or sowing the grain.

BANK JOBS HAZARDOUS

SALEM, Ore. (Special)—Bank positions are classified as hazardous occupations and employees of these institutions are entitled to protection under the workmen's compensation act, according to an announcement made here by the state industrial accident commission, following receipt of letters from a number of the smaller banks of the state requesting protection for their employees because of the many holdups and robberies that have occurred in recent months.

A schedule of rates is now being prepared by the commission for distribution among the banks of the state.

Cost of Living in Rumania Rises

BUCHAREST, (AP)—There is a conspicuous rise in the cost of living in Rumania as compared with last year. The Argon points out that food has risen 18 points over the level of August last year, nearly 50 points and such articles as soap, firewood, paper, petroleum, 10 points.

The average of prices in 1925, the Argon points out, is about 45 percent higher than a year ago.

FARMER ENDS OWN LIFE

MOLALA, Ore. (Special)—Tack Austin, farmer, residing three miles east of here, committed suicide by shooting himself. Ill health and worry over sickness in his family were believed responsible for the act.

"BETTER LIGHTING BETTER BUSINESS"

SPORTSMEN, SPORTS WRITERS and, sometimes poets, rave over a yacht race. Here's a good picture of one. It is being staged by the Larchmont Yacht Club off Long Island.

BACK FROM HONOLULU, MADAME GALLI-CUREI AND HER PARTY posed for this picture. From left to right they are—Jack Salter, business manager for Madame; Manuel Berringer, flutist; Madame Galli-Curei, and H. Homer Samuels, husband of Madame Galli-Curei, and accompanist.

Modern Family Life Bitterly Denounced By Colorado Bishop

NEW YORK, (AP)—Just when it had been conceded that the word "obey" is objectionable to many thinking brides, would be stricken from the Episcopal marriage ceremony with little or no debate, a protest coupled with a scathing denunciation of modern family life is voiced by the Bishop of Colorado.

The Right Rev. Irving Peake Johnson, D. D., is described as one of the most brilliant thinkers and orators of the Episcopal church. His dissent scintillates with bitter aphorisms. Representatives of the church said Monday that the publication of his opinion would provoke lively discussion throughout the church.

The Right Rev. Charles L. Statler, bishop coadjutor of Massachusetts, is chairman of the joint committee on prayer book revision which sponsored the elimination of the word "obey" at the general convention of the church in Portland, Ore., in September, 1922. The convention, virtually unanimously, voted for the elimination but under the laws of the church an amendment must be approved by two succeeding

conventions and, accordingly, the matter will come up for final determination at the triennial general conference that is to open at New Orleans on October 7.

Bishop Johnson's said to be the first notable leader of the church to come out openly against the proposed change. He is also the editor of The Witness, a church publication, in a forthcoming issue of which his statement will appear in full.

MRS. McBRIDE DIES.
ST. HELENS, Ore. (Special)—Mary E. McBride, wife of Thomas A. McBride, chief justice of the Oregon supreme court, died in the hospital here. She had been ill for several months with a malady which two operations failed to relieve. Mr. McBride was at the bedside.

Mrs. McBride was the daughter of George and Anna Merrill, and was born August 10, 1854, in Columbia county, Oregon. She was married to Justice McBride in 1875 and was the mother of George McBride of Portland and Mrs. May McBride of Newton, who lived with her parents at Deer Island.

Mrs. McBride became a member of the Christian church at St. Helens in 1875. She resided with her husband in Oregon City until 1886 when the family removed

They give your life new ease

What would your life be without advertised products.

Imagine your home stripped of curtains, glass, paint, magazines, telephones, phonographs. Your table set without pepper, salt, sugar—everything except home-prepared foods.

Your life would seem both hard and drab. You would have little comfort or convenience; know nothing of the means to secure them. Unhelped, your own ingenuities would tend to limit your pace. You would progress by limps instead of leaps. You might not progress at all.

Advertisements sweep you on to enjoyments. Read them. Know about advertised products. They give your life new ease.

Pin your faith to advertised products — they are worthy of your confidence.
