AUTO KILLS CANBY MAN.

CANBY, Ore. (Special)—Norman Eid was killed almost instantly and Fred Lent seriously injured when the steering apparatus on the latter's car broke and it went into a ditch between here and Oregon City. Mr. Eid was hurried to the hospital in Oregon City, where he died a few minutes later. Full particulars in the case have not been learned. Mr. Lent is not yet able to talk much and can give no details. It is known that the steering gear is broken and it is believed that this was the direct cause of the accident.

Mr. Lent is associated with his brother, Joe Lent, in the garage business here and Mr. Eid, a son of Mr. and Mrs. John Eid of Canby, had been employed in the Lent Brothers' garage. Only a few weeks ago he was injured when a piece of steel penetrated the flesh just above one eye and he had not been employed since.

GOVERNOR AIDS BETTER ROADS

BISMARCK, N. D., (AP)—Governor A. G. Sorlie, who was a salesman before he organized a business of his own and which he deserted for the executive chair, has put some of his advertising practices into state use.

In the state highway bulletin, which hopes to aid in developing popular support for a statewide better roads campaign, a whole page is devoted to what is labeled "An ad by the Governor." Another title says "A. G. writes to the boys."

The advertisement is a letter which the governor has sent to every employe of the state in which he said in part:

"We are in the public service business—you and I—let's do our part to put our products on the millers' market and [illegible] wheat. We have an exclusive wheat that is raised here only, 'The Best of the West.' It makes the best flour in the world.

"The people of North Dakota have created a state laboratory called the Mill and Elevator. It is a research bureau that makes tests on a large scale and therefore must be conducted as a commercial enterprise in order to fully function. For the economic welfare of the agricultural sections it is essential that the laboratory succeed.

"You and I are state employes who get our living from the same people who have provided this laboratory and who must defray the costs of these experiments not met by its commercial earnings.

"Dakota Maid, the product of our state laboratory, is the best flour from the best wheat. If North Dakota is to [illegible] North Dakotans must use its products first and all the time. As state employes we owe it greater loyalty than the average citizen."

The state mill and elevator to which the governor refers was one of the enterprises into which the state plunged following the rise to political power of the Nonpartisan league. It has failed to show profit to date but one of the governor's campaign promises was that he would put the $1,000,000 concern on its feet and make it pay. He is the manager of the institution, its direction having been placed in his hands by the last legislature. Gov. Sorlie was elected as a Nonpartisan.

INSURANCE CHIEF TOURS

SALEM, Ore., (Special) — Will Moore, state insurance commissioner, left for San Antonio, Tex., where on September 14 he will attend the national convention of state insurance commissioners. While in Texas, Mr. Moore also will take part in the annual convention of fire marshals of North America.

Mr. Moore said he would return home by way of Seattle, where on September 21 he will attend the annual convention of Pacific coast fire chiefs. En route to San Antonio, he will stop off in Nevada, where he has business matters requiring his attention.

HIS BEST ORIENTAL SHIRT

Men's Wear

Taking Care of Your Clothes

No man can ever be well dressed who does not take proper care of his clothes. Even the man who prefers to wear them hard and replace them often will find he cannot be well groomed without giving a certain amount of attention to the upkeep of his apparel.

The average man, however, buys his clothes with a view to getting good service and having them look well during their entire reign. For this reason he buys good materials, conservative styles. The dash of color and the note of originality can be secured in the accessories—socks, ties and hats that can be discarded when out of style.

Plenty of changes is an asset of getting full returns from your clothing investment. It is poor economy to put on an everyday suit and wear it constantly and the same applies to shoes, hat and gloves.

The suit that has been worn all day is as much entitled to a good night's rest as is the owner. It should be put on hangers and, if possible, hung out in the open and not shut up in some airless closet. Shoe trees take only a second or two to slip in and are excellent in preserving the shape of the shoe.

The value of frequent cleaning and pressing cannot be overemphasized. Dirt is one of the greatest menaces to the wearing qualities of materials. Some men have a standing order with the cleaner to pick up a suit or overcoat a week at the same time that he returns one. In this way, one's wardrobe is kept constantly in condition. A bottle of cleaning fluid kept on the bathroom shelf is a necessity. A spot of grease or simple stain should never be allowed to stand overnight. A major action stain, however, should not be tampered with. It is best to take the garment to the cleaners for expert attention.

Fashion Experts Predict Men Will Go in for Dazzling Dress

HOLLYWOOD, Cal. (AP) — A prediction that in the future men will bedeck themselves in more colorful raiment than women was made here by Romain de Tirtoff Erte, late of Paris, who is designing sets and costumes for Hollywood motion picture studios.

Once the step is taken, the [illegible] between men will wear vividly colored garments, gradually, and the "lead" suit or shirt will hardly be noticed in the street, while after dinner the conservative black evening clothes will change to vie with the elaborate gowns of the women.

As authority for the prediction, Erte declared: "The male birds are plumed much more gaily than the female. Male animals are more beautifully coated — the Indian [illegible] is drably clothed compared with the brightness of her mate's feathers and trappings. And back in the prehistoric days the male dress was more elaborate than that of the female."

MINE TO BE DEVELOPED

BAKER, Ore. (Special)—The expenditure of $100,000 in development work is proposed by the Paddy Lode Copper company, owner of the Upper Ore property on Goose creek, it was announced here by D. W. C. Nelson, general manager. The company has just completed its organization.

The company owns 12 claims on Goose creek and adjoining property, and the district is one of the most promising of the [illegible] copper belt.
