PITTSBURG (AP)—Pittsburg slumped Brooklyn Monday, 9 to 4, in the opener of the series, snapping a losing streak of four games, which tagged the Pirates' disastrous western trip. The victory extended to the Corsair's lead over New York to 4 1/2 games.

Cantrell was shelved out of the box in the second and was succeeded by Ehrhardt, whose wildness permitted the Pirates to sew up the game in the third with a two-run advantage. Five hits in the eighth gave Pittsburg three more runs. Aldridge turned in his seventh consecutive victory. R. H. H. Holt, late of the Jersey City International league team, made the only honest blow off Jones, a single in the seventh. Jones' failure to cover first in the sixth allowed Cochran to receive credit for a safe hit.

As a result of the victory, the Yankees split even in the six-game series with the Mackmen. R. H. E. New York 3 6 1 Philadelphia 1 2 4 Batteries: Jones and Benough; Baumgartner, Quinn, Walberg and Cochran.

PHILADELPHIA (AP)—Sam Jones was in rare form Monday and held the Athletics to singles, while New York won the final game of the series, 3 to 1. Red Holt, late of the Jersey City International league team, made the only honest blow off Jones, a single in the seventh. Jones' failure to cover first in the sixth allowed Cochran to receive credit for a safe hit.

THIRD-PLACE RACE. While the Nationals and Athletics are fighting it out for first place honors in the American league, don't overlook the battle being waged between three clubs for third money.

At this writing the White Sox, Browns and Tigers are in the thick of a merry battle. Only a few points separate the three teams. After having clung to the third round post virtually from the opening of the season, it now appears as though the Pale Horse brigade would have a tough time finishing this year.

During the last few weeks of play both the Browns and Tigers have been playing top-notch ball. So much so, in fact, that they must be considered in the reckoning.

Against the eastern clubs, recently, the Siders and Cobblers enjoyed remarkable success while the Collins entourage didn't do nearly so well.

IN NATIONAL LEAGUE. In the other circuit, Brooklyn and the Cardinals are battling it out for a place in the first division. And a slice of the world series coin. These two clubs have been alternating at the fourth place rung almost all season. The clash for supremacy should be interesting down the stretch.

The Braves, Cubs and Phillies are putting on quite a fight to keep out of the cellar berth. There's but a game or so difference between the sixth and eighth place teams. For a while the Phils appeared to have the sixth post secured. But just when it looked fairly secure the Fletcher team hit a slump, putting the other two outfits in the hunt.

All in all, there are quite a few secondary battles on in both leagues for position places.

Health Regulation May Deplete Liverpool of U. S. Hams and Bacon
LIVERPOOL (AP)—Trade in bacon and ham between this town and North America is said to be in grave danger from the regulations issued by the ministry of health prohibiting the use of borax preservative in food, says the Daily Post.

Members of the Liverpool Produce Exchange declare that without the use of borax, all the supplies of bacon and ham from America, and the greater part of Canadian supplies which together form 45 per cent of the total consumption of Great Britain will be stopped. The only alternative to borax is the hard salt cure, which is not popular with the British people.

UNION TENNIS PLAYERS WIN

UNION, Ore. (Special)—Sunday morning Mr. and Mrs. Fred N. Fox and Mr. and Mrs. Earl Garrison, the latter couple from North Powder, went to Pendleton to play tennis with the players who were here for the recent Eastern Oregon tournament.

Inasmuch as the tourney was "called off before being finished," this was not official although Mr. and Mrs. Fox claim the Eastern Oregon championship in the mixed doubles class not having been defeated.

Mr. and Mrs. Fox defeated Mr. Withwell and Miss Bell 11-9, 6-2, and Mrs. Fox won a set of singles from Miss Bell and tied her in a part of a second set. Fox and Garrison also played several sets with Pendleton players, winning most of the sets.

Miss Bell and Mrs. Fox plan to play together in the state tournament next year.

WANER, O'DOOL TIED FOR TOP

SAN FRANCISCO (By the Associated Press).—"Lefty" O'Dool went into a slump last week and the Pacific Coast league is without a batter who is hitting over the 400 mark. The Salt Lake outfit dropped 11 points and is now tied with Paul Waner for the top place with an average of .356, unofficial figures show.

Frank Braull of the Seattle Indians is next with a .330 average, and Tolmer of Portland, batting .351 trails Braull.

"Hack" Miller of the Daks is setting the pace for his club with .347 and Hood tops the Angels with .340. An average of .321 gives M. Shea the honors of the Sacramento team and Griffin with .307 leads the Tigers.

Tony Lazzar, Lee shortstop, is in a class by himself for home runs, with a total of 44. Kowser is his closest competitor with 23.

Hunnell of Portland leads in the stolen base department with 23, and Lazzar is a close second with 17.

Brazil Has Many Illiterates.
RIO DE JANEIRO (AP)—Of Brazil's entire population of 30,000,000 a fraction more than 75 per cent cannot read or write. This was disclosed recently when the government published statistics on illiteracy when the 1920 census was taken.

Illiteracy in Brazil decreased from 84.2 per cent in 1872 to 75.5 per cent in 1908. In the latter year there were 11,401,715 illiterates over 14 years of age.

Your Allure

Don't imperil it . . . some days
This NEW way solves women's oldest hygienic problem so never a day's charm is lost

BEING fresh and charming every day has ever been the average woman's problem. But today . . . the modern woman meets it with a smile. Science has supplanted the uncertainty of the old-time sanitary pad with protection that is absolute. You wear your finest frocks, your summery things in confidence. You motor for hours, you dance, you dine; you come in contact with others without a second thought. The name is Kotex . . . a method scientifically right. It absorbs 5 times the moisture of the ordinary cotton pad. And that means great protection. It is as easily disposed of as a piece of tissue—ending an old-time embarrassment. It is deodorized. And that prevents danger of offense. You get it at any department store or drug store, just by saying "Kotex." And that banishes the embarrassment of asking for a "sanitary pad." 8 in every 10 women in the better walks of life have adopted it. Which proves its benefits. It will mean much to you in health, in daintiness and protection. It proves old ways a needless folly.

KOTEX

PROTECTS—DEODORIZES
1 Protection: 5 times as absorbent as cotton pads. Absorb 14 times its own weight in moisture—and scientifically deodorized.
2 No laundry. Discard as easily as a piece of tissue.
3 Easy to buy, anywhere. You ask for them by name. Many stores keep them ready-wrapped—help yourself, pay the clerk, that is all.
No laundry—discard as easily as a piece of tissue.

When you admire the handsome appearance of U.S. Royal Balloons—remember also they are True Low-Pressure Balloons

If you are one of the thousands of car owners who have been attracted by the handsome appearance of the all black U. S. Royal Balloons, it will please you to know this—

These tires hold their good looks during the full period of their long service life. They do not show finger marks, mud or grease stains.

The beauty of U. S. Royal Balloons is in addition to those characteristics which have made these tires famous. They are distinctive in being true Low-Pressure balloons.

Their construction and design positively avoid the necessity of over-inflating the tires to insure long service. You can run them at genuine low air pressures and get the comfort that balloon tires are intended to give.

Their "Low-Pressure Tread" is flat. It provides much greater area of road contact than a round tread, thereby distributing the weight evenly to every tread block. That is why the tread wears slowly and evenly.

The continuous flexing of a balloon tire on the road calls for great strength and flexibility of construction. Latex-treated Web Cord, the patented process developed and patented by the United States Rubber Company, meets this flexing perfectly and accounts for the exceptional mileage of U. S. Royal Balloons.

So U. S. Royal Balloons make a real contribution to the beauty and the comfort of the modern car. Start now enjoying the advantages of true Low-Pressure balloons.
