Persons under 18, unless properly chaperoned, will not be allowed to attend. Mr. Haynes says.

Martians Find Home Brew Necessity, Says Scientist

PASADENA, Cal. (AP).—Home brew is a necessity on the planet Mars, provided there is life there and also provided that life requires moisture to live, in the opinion of Dr. Charles E. St. John, astronomer and physicist of the Mount Wilson observatory near here.

The water supply on Mars, as revealed by a series of tests just completed by Dr. St. John, is about one-twentieth that found on the tops of the semi-arid mountains of Southern California. Besides being on perpetual emergency rations of water the Martians, if there are any such creatures, also are short of what this planet calls air. The oxygen supply there is only 50 per cent of that on the heights of Mount Everest in the Himalayas, and on Mount Everest explorers must use oxygen tanks to keep alive.

In the matter of heat Mars is better off than was formerly supposed. In fact, says Dr. St. John, the Mars temperature, often described as excessively cold, may be nearly the same as that of this earth, since Mars absorbs all but about 15 per cent of the light and heat reaching it from the sun. As a basis of comparison, it is stated that this planet absorbs only one-half the light and heat reaching from the sun, and reflects the remainder.

full line of meats and fish greet the shopper on the left of the entrance; fresh fruits and vegetables are on the right. Behind them are arranged staple groceries and canned goods in tempting array. A woman's lounge and lavatory will occupy the attractive balcony at the rear of the store. Both self-serve and clerk service prevail.

Four thousand dollars worth of improvements, including up-to-date display windows, showcases, shelving and lighting effects, will be revealed at the Toggery when the pine-board protection shell is removed about Nov. 1.

father-in-law died terrible death, the county prosecutor was delighted with letters demanding an investigation. Exhumation of their bodies revealed enough arsenic to "kill a dozen men," according to the prosecutor.

The trial in 1922 resulted in a second degree murder conviction and a life sentence. Apparently the motive of the "feminine Bluebeard" was to obtain the petty fortunes of her two husbands.

TAXES LOWER IN PAST YEAR

payments of Oregon for the fiscal year ending September 30, 1924, amounted to \$9,193,381, or 211.04 per capita. This includes \$430,426 appropriations for education to the minor civil divisions of the state. In 1923 the comparative per capita for maintenance and operation of general departments was \$12.94 and in 1917, \$5.90. The expenses of public service enterprises amounted to \$11,926; interest on debt, \$2,675,500; and outlays for

HEAVY BREADSTUFF CROP IN SWEDEN TO CUT U. S. FLOUR

STOCKHOLM, (AP).—The breadstuff crop in Sweden this year is more than twice as large as that of last year and the requirements for imports of American wheat flour will be correspondingly reduced. Not since 1921 has there been such a harvest. The greatest gains have been made in rye and wheat sown last fall. The unusually mild winter has helped to have been chiefly responsible.

SUMPTER PIONEER DEAD

BAKER, Ore.—A. J. Denny, 60, dropped dead as he stepped out of a pump house on his ranch half a mile south of Post station, near Meridian, Idaho. He had been working in the pump house with a spray. William McBratney, Ada county coroner, pronounced death due to heart disease. There will be no inquest. Besides the widow, there is one son surviving, E. J. Denny.

Mr. Denny was owner of the Capital hotel, in which the fire started that burned the town of Sumpter, August 19, 1917. He was a resident of Sumpter up to the time of the fire.

OREGON TO BAN HAZING

UNIVERSITY OF OREGON, Eugene.—Presidents have distanced off the chair for their president. The position in past years has been such that freshmen classes have had three or four presidents before one who could stand the hazing and the honor, too, could be found. Ofttimes the class was not organized at all.

Curtailed of all hazing will be demanded of the sophomore this year, it has been announced. This together with the placing of the freshmen president on the student council as a non-voting member is expected to destroy the old tradition.

Arthur Anderson of Portland was elected president early last week. He is a pledge to the Phi Delta Theta fraternity.

GEORGE JOSEPH ASPIRES

SALZM, Ore.—George Joseph, state senator of Multnomah county, probably will announce his candidacy for the office of United States senator next week, he said while in Salem. Mr. Joseph is a republican.

testified he was asleep when the submarine was rammed. He was the last to leave the submarine and only two others preceded him. He said he was afloat 45 minutes before he was picked up.

Kille said he saw no life preservers while in the water and that no searchlights were playing from the City of Rome.

The submarine's lights, he testified, were burning when he left the battery room to mount the bridge.

BANK WINS VERDICT OF \$13,241.44

(Continued from Page One.)

To citizens of the Grande Ronde valley the case involves more than a controversy over the payment of notes and interest due the bank by Miller.

Last February the bank attached a claim to the interests of Miller in land inherited by him from his grandfather, the late A. B. Conley, one of the early day settlers and a freighter from the valley in pioneer days. There was a time when the Conley holding stretched as far as eye could see across the acres of the fertile Grande Ronde valley. It is Miller's undivided one-fifth interest in 1600 acres of that land that was ordered sold in the judgment rendered yesterday. Action will be stayed now by the defendant's appeal.

Receipts from business licenses consist chiefly of taxes exacted from insurance and other incorporated companies and from sales tax on gasoline, while those from non-business licenses comprise chiefly taxes on motor vehicles and amounts paid for hunting and fishing privileges.

Indebtedness—The net indebtedness (funded debt less sinking fund assets) of Oregon on September 30, 1924, was \$41,552,377, or \$49.94 per capita. In 1923 the per capita debt was \$40.82 and in 1917, \$6.66.

Oregon's bonded debt, was incurred for agricultural purposes, state aid to world war veterans and construction of highways.

Assessed Valuations and Tax Levies—For 1924 the assessed valuation of property in Oregon subject to ad valorem taxation was \$1,042,410,619; the amount of state taxes levied was \$7,460,170; and the per capita levy, \$8.97.

LEVENS ASSISTING HELM IN PROSECUTING ZEEK, SPAIN

William S. Levens of Baker, state prohibition commissioner, is assisting Carl Helm district attorney, in the prosecution of E. O. Zeek and Fred Spain, of Union, charged by the state illegal transportation of intoxicating liquor. The case opened this morning under Judge C. H. McCulloch. Spain and Zeek were arrested May 31, 1925, by H. O. Klinghamer, deputy sheriff, and G. M. Perce, prohibition officer, at the gate of the Union stock show grounds. Two gallon jugs of moonshine whiskey reported by the officers to have been found in the Union men's car is on exhibition as evidence. F. S. Ivanhoe is transportation of intoxicating liquor. The grounds that the liquor found was not theirs and that they had no knowledge of its existence there.
