Johnson, of the State Council of Holiness Education, for a Sunday school institute similar to the one conducted here last Monday. Mrs. Esson announced that Mrs. Johnson will probably return to La Grande in about a month to assist with the organization of the county unit, for which the way was paved at the institute.

Saghalien Island Source
All Japanese Coal Needs

TOKYO (AP).—The northern part of the Island Saghalien could supply all the coal needed by the factories of Japan if mining was carried on according to plans drawn up by experts, said Mr. Holukoff, chief of the Russian investigation commission, just returned from there.

"The coal deposits are great and almost immeasurable," he said. "Veins are so numerous that mines can be established readily in almost any part of the northern territory. The quality is also so good that the best of coal can be obtained from it."

Duck Calls Broadcast
OAKLAND, Calif. (AP).—A device for broadcasting duck calls has been invented by J. V. O'Hara, president of the Vallejo Gun club. Radio apparatus has been installed in the club's preserves, and with the opening of the shooting season in October, an ailing "quack, quack" was scattered among the duck flocks.

Vacuum Bottles

Handy for every automobilist and camper; also useful in the home to keep baby's milk warm for the early morning feeding. The Vacuum Bottle is made of heavy, strong metal parts; it has a large cap suitable for use as a drinking cup; the fillers are strong and sets in a patented metallic spring base for protection. A fine bottle for every day use. We recommend it.

KNOWN AS "POVERTY STREET" IN MOVIES—NAME IS MISNOMER

HOLLYWOOD, Cal. (AP).—More than 50 small independent movie companies, located principally on West Sunset Boulevard, are clustered in what is known as "Poverty row". But that classification frequently is a misnomer.

Because in this section, where students are quarried in cramped store rooms and small, bare-bare frame buildings, are produced at great profit most of the two and three reel films that are seen in theatres on the main streets of many communities. "Poverty Row" also is a two-way stepping stone for stars and directors. Here many of the favorite screen stars of today started their careers. Here, too, are employed many of the film industry who once sat on the throne of popularity.

Whether past or present, the graduates of "Poverty Row" were schooled in a program of economy. Economy is the keynote of production, for seldom does the cost of a feature picture, five reels in length, exceed \$7,000. The profits are unusually large, sometimes amounting to as much as 700 per cent. A relatively good \$7,000 picture may net as much as \$25,000, or if it is exceptionally good, it may command up to \$30,000.

Many of these companies fail, but there are always others to step into their places.

Because of the high cost of interior settings the photoplays are mostly Westerners, filled with action and breath-taking thrills, taken with rugged scenery as their background. Very few of the productions are of subtle picturization.

Often players of good names, glad to pick up a few hundred dollars for a day's work between engagements at larger studios on a day off, are obtained by the studios to work for one day; thus getting box office names in the cast at relatively small expense. The scenes in which these players appear are all shot in the one day.

Small casts are employed. The producer often is versatile, writing, producing and directing a story. He often is the business man, in addition to all else and sometimes, if necessary, stars in the picture.

MANUFACTURER DIES.
LOS ANGELES (AP).—Elmer Freestone of the Freestone Rubber company, brother of Harvey S. Freestone, head of the corporation, died suddenly at his home here Tuesday night.

This Wire Was Good Medicine

George Campbell Carson, San Francisco laborer, was a happy hospital patient after the arrival of the telegraph which the picture shows him reading. For it related that a U. S. supreme court decision had just opened the way for him to collect millions in royalties from 15 big American copper companies. Carson sued for infringement of a smelting patent.

Boy of 12 Amazes Art Critics

Hollywood presents this youthful prodigy, Charles de Ravenne, 12. His oil paintings have attracted the attention of several art critics. Without any training, he has shown remarkable aptitude in copying famous works of the old masters.

Anti-Divorce Crusader

Virginia Gorham, 21, pretty New York telephone operator, met three men, loved and married them, all in 20 months. She and her first husband disagreed and separated without divorce formalities. Then she met two other men, fell in love with them in turn and married again. Never has she entered a divorce court. Now poor little Mrs. Gorham-Adams-Schmidt-Rosenberg faces a charge of bigamy. It's a case of two husbands too many. And in court Virginia avers that she loves them all, and can't see why any girl should be an old maid.

4 COUNTIES TO JOIN ON NOVEMBER 11

(continued from Page One.)

inflow promises the best parade that has been seen in La Grande along patriotic lines. Ray Williams is also the drum major of the La Grande drum corps, and he promises that the full organization will be out with new equipment.

The free dinner at noon for all ex-service men is being handled by the Legion Auxiliary. Mrs. Harvey Richardson, president of the local unit, has new plans for this year. The dinner will be served cafeteria style, feeling that with the big crowd expected they can feed the men faster and with much less labor. The Union County Chamber of Commerce is assisting in the furnishing of fuel.

Pendleton to Play Here.
The football game between Pendleton high school and La Grande is under the direction of E. D. Towler, principal. This game will be one of the best seen here this year. It is believed, as both teams are evenly matched, that with the big crowd expected they can feed the men faster and with much less labor.

For the past several years the American Legion has staged more elaborate and better planned fireworks from the hill west of town, and this year is expected to be no exception. The program selected under the direction of Lynn Holmquist and C. V. Sabat will uphold the precedent of former years. This display is unique in that it can be seen from almost every house in La Grande, as well as being visible all over the valley.

Dancing to End Day.
The dancing which will wind up the day, will be the usual gala event that the dancers of Eastern Oregon always enjoy. Under the direction of Roy Curvey and his assistants, C. L. Thompson, Jess Andrews, Harry Mason and J. Halcup, many new and novel features will be featured, it is said. There will be room for all who care to attend the dances.

The La Grande post is one of the very few in the state that owns its street decorations. Provisions were made last year for purchasing these, thus eliminating the expense of hiring outsiders to decorate the streets. Harvey Richardson and his helpers, Calhoun Corbett and Emory Ford, are looking after the details of the street decorations. The flags which were sold the merchants of the city will be an added feature of the decorations this year.

Stunt Committee Named.
A special committee on stunts has been appointed and they are working on several ideas that will add to the parade, which will be started promptly at 11 o'clock on Armistice day. The chairman of this committee is Oscar Cutler, assisted by Archie Clark, E. G. Jensen, C. P. Holbrook, and H. O. Hagen.

The publicity end of the celebration is being handled by Harvey Matthews and Otto Palmer. The local post and ladies' auxiliary and the Baker organization owns its street decorations. Ethics in Capture of Liquor Smugglers Taught in School

SPRINGFIELD, Ill. (AP).—Ethics in catching bootleggers are being taught here in a school for prohibition agents.

Recognizing that the crude tactics of agents in enforcement work have brought both the officers and the law into disrepute the government established the school in an effort to teach the dry agent "how to gain respect, not only for himself but also the prohibition law."

The school is under the tutelage of Thomas Williamson, United States attorney, and John H. Madden, deputy prohibition administrator of Illinois.

Find Only Two Per Cent of U. S. Children Are Truants

DULUTH (AP).—Only two per cent of school children are truants, but in this two per cent are 50 per cent of delinquents, said James A. Starkweather, assistant supervisor of Duluth schools. He spoke before the meeting of the National League of Compulsory Education and Child Welfare.

Delinquent girls rarely steal, Mr. Starkweather declared, but when they do steal they steal alone. When boys steal they pile in groups of four or more, the speaker said.
