SELF DENIAL.—Whoever will come after me, let him deny himself, and take up his cross, and follow me. For whoever will save his life shall lose it; but whoever shall lose his life for my sake and the gospel's, the same shall save it.—Mark 8:34, 35.

Another reason the radio will never take the place of the newspaper is that you can't hide behind a radio set at the breakfast table when you don't want to talk to your wife.

They sat together on the sofa and admired the new engagement ring. She looked at the diamond set and whispered: "My, John, isn't it clear?" "Only two more payments, dear," he replied.

Can't study in the spring. Gotta play baseball.
Can't study in the summer. Gotta play golf.

After six or eight months, we understand, the proud new home owner quits using his handkerchief to dust the floor and wood-work after each meal, and lets his wife do it with a duster.

"Am I descended from a monkey, Jim?"
"I dare say, but I'm not sure. I've never met any of your father's people."

PARCE!
Me and Ma and Pa came to town last year an' as we was trappin' down the main street, Paw he sees somethin' bright in the middle o' the road. He says, 'Pa, look at that! It's a new kind o' tractor, an' it's got a tail to switch in (fly time).

of the road. Paw says it looks like a tractor, an' Ma says it's a tractor, an' Ma says it's a tractor, an' Ma says it's a tractor.

astoplin' for pick it up, a big truck run over and killed him. Ma and me just laffed and laffed 'cause it warn't no quarter, it was just a tin cap off a pop bottle.

It takes a lot of funny people to complete the world. Yesterday I saw a man, of his own free will and accord, purchase a piece of rhubarb pie. Yes, we don't like rhubarb pie.

HE DID.

MAY WITHDRAW PUPILS FROM IRISH SCHOOLS

DUBLIN (AP)—The technical committee of County Mayo has reduced from 670 to 460 pounds the money provided for the teaching of the Irish language and forecasts a further reduction next year.

Monsieur Dalton, who introduced the motion, said that he knows mothers who threaten to withdraw their children from school if the teaching of Irish is not dropped. He declared that the spoken language is losing ground, even in districts where it was generally spoken until comparatively recently.

The government recognizes this, but thinks it regrettable, and is taking steps in all directions to remedy it. Irish is now made a compulsory subject in the primary schools all over the country, and the government has appointed a commission which is taking evidence as to the condition of the language in the Irish speaking districts and the reason for its decay. The chief reason is economic.

Employment's Slack Season Is Approaching

SPOKANE (Special)—With pine sawmilling nearing the end of the season, as is evidenced by a number of night shifts being closed, and with general construction and other seasonal industries tapering off, the slack season of employment in the Inland Empire is not far away, according to George W. Young, manager of the 41 employment service office here. Young said that although it was still possible for all-able-bodied men to get work, the volume of employment offered is not so great as it was one month ago.

Summer wedding operations are still running, Young said, and woods crews are at present stable, men not changing jobs to any extent. Farmers are calling for a few men, but the volume of orders is small.

820,000 GARAGE RISING

COTTAGE GROVE, Ore.—Work has been started upon a building on North Ninth street, a block off Main street, that has been rented for automobile show rooms and garages. Miss Naomi Hoskins of this city will be the principal owner of the structure, which will be built with concrete foundation and the walls and roof of slow burning construction. The floor will be tinted concrete. The front will be plate glass and stucco. For the present it will be one story in height. With Miss Hoskins will be associated her father, C. P. Hoskins, and other members of the family, and an ownership corporation will be formed later.

The two show rooms with garages, in the rear on Ninth street, which is part of Pacific highway through the city, have been rented by N. J. Nelson Jr., and W. A. O'Hara of Eugene. Mr. Nelson intends to retain his present show room on Main street.

The work of construction probably will be completed within six weeks and the cost will be about \$250,000.

You Women Who Require Extra Sizes

in
Dresses and Coats

ANY woman who still fondly imagines that she is "hard to fit" is specially invited to drop in when most depressed in spirit and experience a glad awakening. We are especially proud, not so much of our ability to fit folks of standard and unstandard sizes, but more particularly on the certainty of distinctly styling the smartest modes in the large as well as small sizes.

AUSTRALIA URGED TO CONTINUE SEARCH FOR OIL

MELBOURNE (AP)—While the prospects of the discovery of oil in commercial quantities in Australia are generally unfavorable, indications in the Roma district of Queensland and the Kimberley district of western Australia justify the recommendation that further detailed geological mapping should be undertaken and drilling conducted, says a report of the federal joint committee of public accounts on oil exploration in Australia and Papua.

The prospects in Papua are generally hopeful and, the report adds, work should continue to be carried out by a private company on behalf of the federal government such as the Anglo-Persian Oil company which is now operating in Papua.

Prince's Taste for Porridge Is Akin to Other Children's

OXFORD (AP)—The Prince of Wales did not like porridge any better than thousands of other children who make wry faces over their oatmeal in spite of all the Scotch manufacturers can do to popularize it in the British Isles.

In an address before the Industrial Welfare society, Mrs. M. A. Cloudey-Brevelon told an anecdote of the prince's youth. On his last morning at home before he was to go into the naval service, when the porridge was set before him he said: "Well, thank goodness, there is something about going into the navy. I won't have to eat this beastly stuff every morning of my life!"

But to the surprise of the prince's first breakfast in the navy began with stiff porridge handed out in wooden bowls. He knew what his duty was when he saw the knowing look exchanged by two senior officers, and swallowed the inevitable oatmeal.

When a man says he'll never marry it is just because he doesn't know what kind of girls there are in the world.
