Drive in! Look for the Buick sign and the decorative electric entrance lanterns. We're always glad to see you.

SEE These New Buick Closed Cars!

Three of the most popular closed models of the new 1926 Better Buick are on display for this opening of our new garage. You owe it to yourself to see these wonderfully advanced cars. You must experience the wonderful riding and driving ease to appreciate Buick's outstanding superiority.

Our new Display Room is convenient for you to inspect these closed cars. Drop in during the evening and let us show you some of the new features. And ask about Buick's low-cost payment plan when you wish to buy a new car out of your income. Judge Buick Value for yourself.

Winter Storage

The only safe way, if you haven't a heated garage, is to arrange for winter storage now. You'll enjoy the convenience of having your car kept in this clean, new garage at moderate cost. Take no chances with cold weather—make your reservation today.

Save When You Buy A Car On Time

If all automobiles sold on time were paid for at General Motors' standard financing rates, the public would be saved many millions of dollars this year. GMAC time payment rates have always been the lowest and are now lower still.

Ask to see the official General Motors Acceptance Corporation Rate Chart and compare GMAC rates with other rates.
