BOISE LOSES BY ONE SCORE

SAINT LAKE (AP) — Playing in surprising style, the Boise high school football team held the West high school football squad to a single touchdown. The visitors calculated a game of last beyond the Red "Lakers" expectations and were through the line and around ends for most and consistent gains. The final score stood 13-0.

The kicking of Ithaca, West high team, however, offset most of the gains of the Boise men. Quinn, Arago and Davidson were chiefly responsible for Boise's difficulty.

The West touchdown came in the first quarter and neither team could get into a threatening position after that, although Boise was forced to kick from behind its own goal due to Ithaca's kicking.

Nampa High Wallops Caldwell Eleven 20-3

NAMPA, Ida. (Special) — Nampa high school team took another step towards the district championship, Friday afternoon when it defeated the Caldwell eleven, 20-3. The Caldwell men were almost outplayed although the game was closer than the score would indicate. "Zep" Harrington's men retained themselves to straight football, only trying to pass twice.

WEBFOOTERS ARE MAKING READY TO MEET AGGIE TEAM

UNIVERSITY OF OREGON, Eugene, Ore. (Special) — With the homecoming Oregon-Oregon Aggie football game less than 10 days away, Coach Smith of Oregon is putting his team through the stiffest kind of drill. Smith, three days ago, stated, "I believe the best of Oregon's main weakness is in the defense. We are trying to change the team and build up to the traditional reputation of fighting when within its own 10-yard line."

The San Francisco and Oakland newspapers, in commenting on the Oregon-Oregon Aggie game, bear and praise the contention that Oregon is beginning to get its stride on the defense. If it can improve in kicking and blocking, Oregon might again be seen as a dangerous opponent in Washington.

In spite of the showing by the Aggies this season, Oregon having played only ordinary football, the Aggies are only six-point favorites, and before the game may meet the Webfooters in even terms.
