Engagement Is Announced at Party

The engagement of Miss Fern Wells to Peter J. Henry became known last evening when Mrs. S. A. Wells, assisted by Miss Crozza Wells and Miss Viola Benham, entertained at an announcement party honoring Miss Wells, at her home at 2023 Third street. Twelve girls were present and a part of the evening was spent hemming ten towels for the bride-elect. Mrs. Irwin Hungerford and Miss Ruth Burns were awarded prizes for the neatest towels.

A beautiful pink and white color scheme was used in the decorations of the home. Chrysanthemums being used. The announcement was made by clever miniature sign boards arranged at each place, when luncheon was served at three small tables later in the evening. A large chrysanthemum was attached to the back of each little signboard. Pastries in the form of small wedding cakes, ices, coffee and minis were served.

Miss Wells and Mr. Henry's wedding will take place November 25. They expect to make their home at Weiser, where Mr. Henry is employed with the Harvey Power Advertising Company. Miss Wells is well known in La Grande having graduated from the La Grande high school in 1924.

Dr. Stella Bodmer was the principal speaker yesterday afternoon when the welfare department of the La Grande Neighborhood club met in the club rooms. She brought out the fact that the soil in this part of the country does not contain enough iodine for the system and urged all mothers to use iodized salt when cooking food. She said the lack of iodine in the body was the cause of so many colic and other throat troubles here and also skin diseases.

Mrs. H. E. Westenhaver, president of the department, presided over the business meeting and appointed a committee to have charge of the children's programs which will be given every Saturday. The committee will work in connection with the public library. Mrs. Ray Murphy is chairman.

At the next meeting of the department Dr. Ray Murphy will talk on "The Diet of Older People." Mrs. Westenhaver will begin her talks on psychology at that time.

"The claim of the right of freedom, the rule of the people, have no foundation other than the common brotherhood of man derived from the common fatherhood of God," said President Coolidge within the past fortnight. This was the idea back of our participation in the Great War, whose closing we celebrate on Armistice Day. We will observe that spirit tomorrow in our Sunday school at 9:45; in our morning worship hour at 11 at which time Mrs. A. L. Richardson will render a soprano solo: "O, Divine Redeemer" (Prayer) by Gounod and the minister will bring a message: "God's Hand in History." You will want to come with others to this gathering. Why Wait To Electrify?

Countless jobs done in the past by hand-power can be done today by small electric motors, both better and cheaper.

Carpenters now have electric saws and sanding machines—shoes are repaired by electric machinery, cleaning is done by electric machines—electricity runs adding and billing machines—drinks are mixed, coffee is ground, air is compressed, printing is done, taffy is pulled, moving pictures are run, grindstones are operated and hundreds of small tasks are done today with small motor power.

Thirteen hundred and fifty electrical horsepower is available in Eastern Oregon for any application of motor power, at rates upon which it is profitable to operate.

Perhaps there is work which you are doing by hand or some other power, which could be done better and with less cost by electric power.

We will be glad to work with you on your power problems.
