Message No. 46, From: OREGON TRAIL FOX FARM, H. W. Smith, Prop., La Grande, Ore.

If I had not petted or sold any of my silver fox since my start up to date, I could now pet 45 head and take \$100 for each pet and be making a NET PROFIT of 25% of my total investment annually. Besides I would still have 20 head left as breeding stock.

My increase has been 25% better than any other known fox farm in the west.

Two Ways Of Looking At CLEANING And PRESSING. The thoughtless person might think that it is needless expense to have one's clothing cleaned and pressed regularly. "Throwing money away" as it would seem. But the wise man knows that it is true economy to preserve the fabric and "set" of a suit by having it cleaned and pressed regularly. It is not spending—it is really saving. We know how to properly clean and press. We maintain one standard of workmanship only—The Best.
