

# Yourself and Thanksgiving

On Thanksgiving we pause and reflect the Friendships of the past.

Did it ever occur to you that others are attracted to you for the same reason that you are attracted to them?

Just as you solicit the association of the well-kept gentleman, so will he solicit you if you are well kept.

We make our own "Blessings" by our own conduct. The more attention we give to ourselves, the more "Blessings" we will have to be thankful for on Thanksgiving.

# PETTEY WORKS FOR MEMORIAL

(By Charles P. Stewart)  
WASHINGTON (NEA Special)—Why shouldn't an internal revenue bureau auditor conceive the idea of a \$5,500,000 Woodrow Wilson Memorial university? Why, having thought of it, shouldn't he go to work to raise the money and found the university? There does not seem to be any reason why not, except that raising \$5,500,000 is rather a large order for a not particularly prominent and only moderately paid government employe.

Yet the fact that such an individual—H. Moulton Pettey—is said to have been the original promoter and certainly is now the president of the Woodrow Wilson Memorial association, appears to be the only basis for a lot of none too friendly publicity the organization is receiving on the eve of its proposed nationwide drive for funds to endow an institution of learning near the capital in the war president's honor.

Nobody says a word, out and out, against Pettey. All they do say is that he is just a special auditor for the internal revenue bureau—and here he is trying to raise \$5,500,000. Having said that, they appear to think they've made out a strong case. But have they? Ask Pettey if the story is true, and his answer is: "Certainly. What of it? Does a man have to be a notability to entitle him to work for a Woodrow Wilson memorial?" Laugh that off.

Pettey isn't widely known and doesn't profess to be, but some of his association's executive committee members are. They include Secretary of the Navy Wilbur, Mayor General Hines, Mayor Walker of New York, 14 governors and half as many senators. The drive starts December 7. I can't see anything the matter with the enterprise unless somebody has something better to urge against it than that H. Moulton Pettey is a treasury department auditor.

### French Novel Losing Hold On People as Times Change

PARIS (AP)—Changed times in Europe are lessening the popularity of the French novel. People in France are studying more closely economic and social questions. Works on history, costing three times the price of the novel, have found a remarkable sale, and there also has been a revival of editions of Greek and Roman classics in the original text and in translations.

Of the \$987 books published in France last year, only 1148 were novels, while 2905 were on social and economic questions. A comparison of books on sale with those offered before the World War showed a greatly marked improvement in taste.
