Sister Mary Says:

(By Sister Mary)

Breakfast—Baked winter pears, cereal, thin cream, fried cornmeal mush, syrup, milk, coffee.
Luncheon—Tomato cream soup, baked stuffed sweet potatoes, brown bread and butter, apple sauce, molasses cookies, milk, tea.
Dinner—Smothered round steak, gravy, mashed potatoes, creamed cauliflower, endive with French dressing, canned peaches, plain cake, milk, coffee, whole wheat bread.

If canned fruit is well chilled and aerated before serving it's vastly improved. The manner of serving has much to do with the

fruit, too. Canned peaches served in dainty glasses of some sort are usually twice as popular as the same fruit served in everyday "sauce" dishes.

Makers of High-Grade Pastries "HOME OF THE GOLDEN CRUST"

Dear Mr. Merchant:

This letter deals with something that concerns you very closely--the problem of getting more customers into your store, and selling more goods.

The key to that problem is your store lighting. Bring the store lighting up to a business-getting level and you'll see astonishing results.

Enough light for MERE SEEING is common to all stores; but only three out of every ten stores as an average have enough light for selling.

The question is--is your store one of the seven that do NOT have the kind of light that attracts trade and sells goods. You can't tell--you can't be SURE until you have had your lighting tested.

Let one of our representatives come to your store and show you just what kind of illumination you NOW have, and what kind you should have.

This will cost you nothing--not obligate you in any way, and it may be the means of helping you to a mighty substantial increase in sales and profits.

You'll never have a better opportunity to get the facts about your present lighting and what BETTER lighting can do.

Yours truly,
EASTERN OREGON LIGHT AND POWER COMPANY.
