No other cigarette in the world is like Camels. Camels contain the choicest Turkish and domestic tobaccos. The Camel blend is the triumph of expert blenders. Even the Camel cigarette paper is the finest—made especially in France. Into this one brand of cigarettes is concentrated the experience and skill of the largest tobacco organization in the world.

When winter's snow is falling outside—and the noise of wind roars through the trees—when the house is dark but for the blazing logs in the fireplace—have a Camel!

WHEN it's a winter night and the day that was busy is done. And outside the snow is driving through the trees before the wind. When, inside, the crackling logs catch fire and burst into flames above the hearth—have a Camel!

For Camel is the tried and trusted friend of millions of experienced smokers. Whether your returning steps bring you home tired or jubilant, no sweeter, more mellow fragrance ever came to you from a cigarette. There's not a cigarette after-taste, not a tired taste in a whole country full of Camels. Only mild and mellow flavor, deep-down contentment in your home or any home where Camels are lighted.

So this night, before your roaring logs of oak or hickory—have a Camel. Open up the famous package of Camels and know the fragrance, the contentment that brings happiness to millions. Put a Camel between you and a light and taste the mellowest, most delectable blend ever made into a cigarette.

Have a Camel!

Our highest wish, if you do not yet know Camel quality, is that you try them. We invite you to compare Camels with any cigarette made at any price.
