

CHANGES ROAD FOR BARN SITE

WALLOWA, Ore. (Special)—Dwaine Lathrop of Parsnip Creek, has been busy the past few days building a rock wall along the creek bottom near his farm. He expects to change the old school flat road for a distance of about twenty rods where it intersects the Postine-Evans-Leap market road. The change on this short stretch will eliminate two bridges of considerable size. Mr. Lathrop is making the change in order to have a small flat on the south side of the creek bottom, where he expects to build a barn, in the spring.

T. G. Johnson, was busy the last of the week loading out a second car of potatoes, which he sold recently to the eastern buyer. Mr. Johnson reports very good prices for both crops.

L. V. Lathrop and Charles Kilgus, farmers from the Leap section were delivering fat hogs to J. L. Maxwell, here the last of the week. The stock shipments continue to be very heavy, each week from this county. The freight on Saturday carried around a dozen cars of cattle going to the market. A considerable number of fat hogs are also going on the market at this time.

The weather over this section of the country has been very damp and foggy for the past several days. A light snow fell over the country Thursday night, the snow melted nearly a foot as it fell in the valley, but laid on the ground for several days in the higher parts. Moisture of any kind is greatly welcomed by farmers at this time, as water is still very scarce in many parts of the dry farming sections, some farmers have been compelled to haul water for a distance of several miles. The moisture which fell up to this time has not been heavy enough to cause the wells and springs to raise yet. Fall sown wheat continues to make satisfactory growth, as the ground is frozen but little at this time, some farmers in the valley are still busy plowing.

Roy Gastin was busy the last of the week hauling flour from here to his ranch a few miles east of here.

Paul Rohr, of La Grande, was in this section the last of the week, gathering some horses.

Hills Snow Covered
Roy and Eugene Gastin made a trip to the E. D. L. logging camp in the north woods during the past week, they report considerable snow in the timbered sections.

Mrs. H. W. Meek and sons spent Thanksgiving day at T. G. Johnson's.

Bennie Smith who has been working for T. G. Johnson for the past few weeks, left recently for his home at Grossman.

John Bratton, who suffered a stroke of apoplexy recently, has been a patient at the hospital here for the past several days. He is reported to be slightly improved at this time.

Mrs. H. J. Martin who has been seriously ill for the past two weeks, was moved from her home in the Whiskey Creek section, to the G. J. Martin home on Diamond Street, recently, where she is being cared for. Her condition is reported to be about the same, with but very little improvement.

E. L. Rueker and family left recently for a short visit with relatives in the Willamette valley, they expect to return home some time during the coming week.

H. V. Anderson and family drove to La Grande, Saturday, taking H.

Faithful

... Chester Arthur Nelson of St. Louis didn't lose her love when she died for husband arrested for homicide, having had a wife when she married him. "If they put him in jail I'll go there and live with him," she says. She is 18 and he's 21.

W. Anderson that far on his return to his home at Payette, Idaho. Mr. Anderson has spent the past two weeks visiting with relatives here and at Enterprise.

H. G. Masterson has been trying out a new Radio set at his home in the valley a few miles east of town recently.

A number of farmers from this end of the valley have been serving jury duty at Enterprise during the past two weeks.

Mrs. Ed Bell of Whiskey Creek has been suffering the past few days from erysipelas, she is reported to be improving at this time.

Wallowa Grange 608 will hold regular meeting Saturday December 5th in the basement of the M. E. Church. Dinner will be served at noon hour by the Ladies of the Grange. A business session will be held during the afternoon at which time officers for the ensuing year will be elected. This meeting should receive the interest of all members.

A considerable number of farmers over the country have become interested in radio this fall, and as a result a number of new sets have been installed. The radio is rapidly becoming considered a "necessity" on the farm.

Marion School Census Grows
SALEM, Ore. — The Marion county school census which was completed here Saturday December 2d for the year 1925 compared with the census of a year ago, in the city of Salem the gain was 280. The census for the county was 15,796 and for Salem 5727. Check has not yet been made of the boys and girls of school age. There was a falling off of about 100 pupils in the Silverton district, while other rural districts suffered proportionate reductions.

John Bratton, who suffered a stroke of apoplexy recently, has been a patient at the hospital here for the past several days. He is reported to be slightly improved at this time.

Mrs. H. J. Martin who has been seriously ill for the past two weeks, was moved from her home in the Whiskey Creek section, to the G. J. Martin home on Diamond Street, recently, where she is being cared for. Her condition is reported to be about the same, with but very little improvement.

E. L. Rueker and family left recently for a short visit with relatives in the Willamette valley, they expect to return home some time during the coming week.

H. V. Anderson and family drove to La Grande, Saturday, taking H.

A SMALL HEATER With Much Heat.

The Westinghouse "Cozy Glow" electric heater will take the chill out of these frosty mornings. Just attach to your lamp socket—the current consumption is small and the initial cost is very low.

Skeleton of Heroine Of Mythology Is Found

NEW YORK, (AP)—The Franco-American expedition in the Sahara headed by Colonel Byron Kuba de Prorok has discovered the skeleton of a personage buried in the tomb of Tim Hnan, the legendary goddess and ancestress of the Tuareg, says a dispatch today to the New York Times from Abulassa Hoogan in the Sahara desert.

The bones of a well built person about six feet in height whose features resemble those of present day Tuareg nobles were found resting on an elaborate couch sunk in solid rock, the dispatch stated. This was surrounded by bags of grain, grapes, and dates, foods for the journey into the other world.

The scientists were unable to determine whether the bones were those of a man or woman, but the natives were convinced that they were those of Tim Hnan herself. The skull had feminine characteristics but the body bones were apparently of a masculine type. It is thought possible that the expedition has found the body of the ancient heroine, who is the root and whole structure of Tuareg mythology.

Big Mail Order Business By American Libraries

CHICAGO, (AP)—American libraries are doing a large mail order business.

Free books, delivered by parcel post, have been offered by the

Moving Up

Mrs. Ida B. Wise Smith, for the past year president of the Iowa Women's Christian Temperance Union, was elected vice president of the national organization at its annual convention.

Louis Public Library several years ago and in 1924 approximately 2,500 volumes were distributed to patrons, many of whom are blind.

In Chicago and Seattle a hor-

rower deposits a dollar to pay postage on books mailed. When the amount is nearly exhausted, the reader is notified so it may be renewed.

The Free Public Library in East Orange, N. J., delivers books by messenger at the expense of the borrower and many libraries throughout the country have instituted the "vacation privilege" system, under which a patron may keep books during the summer or have them exchanged by mail or express.

As a part of its adult education movement, the American Library Association is encouraging the development of the mail order distribution of books.

Southern College Heads Average \$6,101 Annually

GEORGETOWN, Ky. (AP)—College presidents of the South are making their contributions to education at average salaries of \$6,101 yearly.

This was learned by James Moreland, registrar of Georgetown College, after making a survey of 44 first rate Southern institutions.

His investigation also revealed that full professors averaged \$3,111, department heads \$3,099, college treasurers \$2,066, registrars \$2,237, executive secretaries \$2,684. Deans averaged \$3,634 while the lowly instructors were at the bottom with \$1,538.

Salaries of heads of departments at the University of Texas showed more than those received by presidents of several colleges. Texas was the highest paying university

in the south with \$10,000 for its president down to \$1,800 for instructors.

Spanish Queen Mingles With London Crowd While Shopping
LONDON, (AP)—When Queen Victoria Eugenie of Spain comes to London to do her shopping she thinks nothing of taking a taxi and being hustled to Kensington Palace with her arms full of bundles.

Princess Ena of Hattenburg, as she is known here, combats a tendency to plumpness by taking vigorous exercise, and on her fall shopping tour she bought many sport clothes.

On one occasion she accompanied Queen Mary of England and Queen Maud of Norway on a shopping trip, but the tour had been

pre-arranged so carefully that few persons in the busy centers were aware that three queens of so many countries were in their midst.

Remarkable Cures Without Surgical Operation

WASTING YOUR NERVE FORCE
There is no condition that will make a nervous system weaker or more irritable than a diseased colon or rectum, for such disorders occur in vital nerve centers, transmitting reflexes, or sympathetic conditions in distant parts of the body, producing other ailments, the cause of which is unsuspected.

IT WOULD ASTOUND YOU to read the testimonials of the thousands of patients in all walks of life who have been cured of Piles and other Rectal and Colon disorders by my non-surgical treatment. Nearly one hundred signed letters of appreciation from prominent business and professional men and women, farmers and workers in all trades, many of whom you may know, are contained in my new Book just off the press, which you may have FREE by writing or calling for it. This valuable Book also frankly discusses diseased Rectal and Colon conditions and fully explains my celebrated treatment, the moderate cost and my remarkable GUARANTEE.

GUARANTEE OF CURE OF PILES OR FEE REFUNDED
This GUARANTEE states in writing that I will positively cure any case of Piles, no matter how severe or of how long standing, or return the moderate fee the patient has paid me. This backs up the statements of my patients with the PROOF of the success of my method.

My method is famous the country over, patients coming or being sent to me by their physicians and friends from all over the west, in many instances when all other methods have failed. I use none of the old violent, painful or dangerous methods. No hospital operation, no cutting, burning, clamping, ligatures, or other disagreeable forms. My method is non-surgical, soothing, gentle, rapid, giving almost immediate relief and quick curing. No hospital bills to pay, no shock, and no confinement to bed or room.

THESE ARE EXCERPTS OF LETTERS FROM MY NEW FREE BOOK

Mr. Wm. Slaughter, Sacramento, Calif.: "I tell me and are entirely healed. I was a nervous case."

Mr. A. Frank, Vador, Wash.: "I don't know how to express my gratitude to you for what your treatment has done for me and those more of me. I was cured by your wonderful treatment."

Mr. J. Muehle, Portland, Ore. (a retired lumberman, 50 years old): "I had suffered with Piles over 20 years and found no relief even after a surgical operation in 1912. In 1913 Dr. Dean told me of your wonderful cure, and am thankful to say that I am sure my hemorrhoids have been cured."

Mr. L. H. Herold, Roseburg, Ore.: "Your gentle, non-surgical method of treating Rectal troubles is the one logical and the only right and rational method in practice. I know from experiment and experience that every ailer, itching, suppuration or dilatation is cured, and if any sufferer really desires a cure the cost of your treatment should be no consideration."

Mr. J. Stevenson, Seattle, Wn.: "As a result of the treatment received at your Seattle office for Piles, Hemorrhoids and Prostatitis I am well and have valued it."

Mrs. D. Lischer, Portland, Ore.: "Having suffered several years previous to your treatment and then to be so easily and quickly cured seems miraculous. My only regret is that I should have taken your treatment sooner and saved myself so much trouble for pain."

Mr. J. K. Fuchs, Payette, Idaho: "I am feeling fine after taking your treatment for Piles three years ago. I had been troubled with Piles over 15 years and was operated on twice without result."
