Exhaust Stack Found to Be Source of Fire to Planes

WASHINGTON (AP).—Army air experts believe that in the exhaust stack they have found the firing largely responsible for the tendency of crashed planes to burst into flames and which has cost many lives. The much repeated "flaming coffins" designation of certain old types of army planes by Colonel William Mitchell arose from this tendency.

An air service report said that 20 crash tests were conducted on obsolete airplanes. It was discovered that the exhaust stack was a very serious source of fire, and that if it were possible to so design an exhaust stack that it would be cool enough to prevent the self-ignition of gasoline or oil sprayed into the stack, the number of fires would be very greatly reduced.

After Effects Worse Than The Disease

In many acute febrile diseases the after effects are worse than the original disease, where the disease is allowed to run its full course. Measles, diphtheria, scarlet fever, and other diseases are quoted by medical writers as especially dangerous.

The better way is to let the Chiropractor remove the CAUSE of these diseases and thus avoid the consequences.

OUT OUR WAY — By WILLIAMS

LODGE HOLDS INSTALLATION

UNION, (Special)— According to latest reports from the hospital, G. A. Casper, who underwent an operation at Hot Lake last Monday, was recovering as rapidly as could be expected.

Virgil and Donald Wilkinson and Marjorie Hiatt, three students attending the Union high school, spent the vacation visiting with their parents in Telocaset. They returned to Union Sunday evening.

At its regular meeting Friday evening the local Odd Fellows initiated a candidate and then installed officers for the first six months of 1926. The new roll of officers is:

N. G.—Rex M. Gamble, V. G.—Morris Jones, F. Sect.—David Kleiblock.—Trustee John Scarbrough.—N. G. Supporters Vernon Allen and John Ferguson, V. G. Supporters—John Scarbrough and Harry Amell, Warden—Darrel Irwin, C. G.—H. Griggs, I. G.—Charley Cross. The Cove lodge was invited to visit Union lodge on the evening of Jan. 8 and confer the first degree.

Most of the local stores and other business houses have about finished their invoicing for the end of 1925.

A. J. Elliott is confined to his home on his ranch just west of Union on account of illness.

Roy Phillips, who recently moved to Pendleton from here, was over for the holidays visiting with relatives.

Miss Maud Spain, a former graduate of the local high school, now teaching at Condon, was back home for the holidays, returning to her work the last of the week.

Organization Grows

The Junior Campfire Girls organization having grown till it numbered over 20 members, was divided at a last meeting. Mrs. Bert Knight, the former guardian, taking one section and Mrs. Frank Sturgill the other section.

Ed Cline who was taken to Hot Lake some time ago and operated on the first part of last week for hernia, is improving nicely since the operation.

Miss Marion Quinn, who was home from Gooding College, Idaho for the Christmas vacation, left Sunday morning to resume her work in the college.

F. B. Conner, proprietor of a local store, made a business trip to Enterprise last Thursday.

The extra building at the Meeton Davis filling station is nearing completion and will soon be ready for use.

Collegians Return

James and Emerson Haggerty, Kemmis Caldwell, Max Jensen, Gatewood Callahan, Lyle and Cecil Castor, Clifford Minnick, Josephine Bliss, Marion and Marcia Phy, Elda Miller, Junia Crouter, Everett Kuhn, and several other young people from this part of the country returned to the various colleges and universities they were attending, after spending the Christmas vacation with relatives and friends here.

About twenty members of the Epworth League gathered at the home of Mrs. Myrtle Irwin last Wednesday evening for a holiday party. Light refreshments were served.

Miss Vertie Feiser, who was attending a business college in Boise, returned home just before the holidays and has her work so arranged that she can remain at home till summer and still keep up her work in the course she is taking.

R. H. Rohrig is reported as ill at his home near the city park.

Miss Thaur King is here from Seattle visiting with her mother and step-father, Mr. and Mrs. Alex Slater.

Visited Old Mexico

Word received from the Walter Cook family who are in Long Beach, California, informs us that they have visited old Mexico and many other places of interest nearer Long Beach. They expect to be back in Union before very long.

Mrs. Mary Minnick is entertaining her son and daughter-in-law, Mr. and Mrs. Will Minnick, who came in from Twin Falls, Idaho, the first of the week.

Miss Marie O'Connor, for a long time operator at the Union telephone exchange, has resigned her position to accompany her mother to the coast in the hope that a lower altitude will be of benefit to the latter's health. Mrs. Myrtle Cline has taken the position at the exchange.

—and that isn't all. We have a high-grade red, oxide barn, roof and fence paint for $1.95 a gallon. We can sell you cheaper paint for less money but what's the use in getting something you can't depend on. We are enjoying a thriving business. Winter or summer doesn't seem to make any difference around here. One continuous string of men, women, children and dogs come and go. About 9 out of 10 leave money and take something with them except the dogs, and there are no loose bones lying around. We will announce later about some bargains we expect in the building line.

BEND LIBEL SUIT LIKELY

BEND, Ore.—In order to force their opponents to prove in court the charges made in the recall petitions, Mayor Fox and the six members of the city council are considering the filing of criminal libel charges against leaders in the recall movement.

This announcement followed the decision by the Washington supreme court that charges which question an official's character are not privileged. The charges were that the mayor had caused the council to vote him an unreasonably large salary against the widespread protest of taxpayers; that the administration had been inefficient and extravagant; that it was responsible for an alleged breakdown in law enforcement, and that the officials were about to squander a large part of the $600,000 bond issue voted for a municipal water system.

Third Horseman Climbs Stairs Of Famous Shrine in Japan

TOKYO (AP).—For the third time in the history of Japanese horsemanship, a man has ridden up the long, steep stairway of the Atagoyama shrine and made a return journey without injury either to himself or his mount. The intrepid horseman was Toshi'a Iwaki. The historic shrine flight is 38 feet high and has an incline of about 60 degrees.

Every time a state passes a bill against getting, the bets are two to one that it can't be enforced.
