Japanese Royal Family Has Its Own Baseball Diamond

TOKIO (AP)—Baseball, which is rapidly becoming Japan's national sport, has invaded the Imperial Palace grounds.

A baseball diamond has been laid out near the palace and recently, for the first time in Japanese royal family history, a game was played between two nines chosen from among the Imperial Household retainers. Prince Sumi, the emperor's fourth son, started the game by pitching the first ball. The spectators were composed of members of the Imperial Household.

The youngest author on record is Winifred Sackville Stoner. At the age of three she wrote a poem which has lately been set to music. At five she wrote a book which was published in Europe, China and Japan.

Jimmy Dykes Set Record in 1925 Freak Batting Stunts

CHICAGO (AP) — Records for freak batting stunts were put in the discard last season by Jimmy Dykes, of the Philadelphia Athletics, in his phenomenal hitting agains the Yankees on Oct. 2.

Jimmy went to bat five times, and each time up he safely hit the first ball pitched. Four of the hits were off Garland Braxton and one was off Herb Pennock, and they included a home run and a three-bagger.

Five out of five isn't so rare, but when one batter gets five clean hits out of five pitched balls he has done something which the old-timers concede is mighty unusual.

The same player had another perfect day at the plate on July 12, when he collected four hits out of that many times at bat. Two months later, he made good on five out of six trips to the plate in the second game of a double-header.

Ira Flagstead, Red Sox outfielder, also had an odd record. On May 8, at Detroit, Flagstead went to the plate six times, made one hit, walked five times, and scored five times.

Between twenty and thirty saddle ponies will be broken for ski-joring that most popular of winter sports which is to be featured at the Banff Alberta, Winter Carnival, starting February 2 and continuing through February 17.

The Playground of America

IF YOU have never been to California it should be the effort of your life to go.

Representatives of the

Union Pacific

Will gladly furnish you illustrated booklets giving complete information about this land where the sun shines most of the time and where you can enjoy out-of-door life all the time.

Convenient train connections either via Portland or Salt Lake City at very reasonable round trip fares. Let us help you plan your itinerary, quote you fares, and make all your arrangements.

J. H. Keeney, La Grande, Ore.

"Trouble"

Behind your telephone service is the "plant"—a complicated mechanical equipment of poles, cables, wires, switchboards, instruments, etc., carefully adjusted and absolutely dependent on perfect construction and maintenance.

The "plant" is constantly subject to accident and outside interference. Storms, fires, the carelessness of workmen, the pranks of children, concealed defects of material — all play their part.

Your lines are constantly watched and tested. In the case of trouble we are generally the first to know it, but a notification to our Complaint Department when there is anything wrong will be appreciated.

Trip No. 4 Off on Sunday.

Effective Sunday, January 17, 1926.

Dear Folks:

You will agree with us that we have been very good in letting you have paint and varnish from $1.95 to $2.15 a gallon. Now our bankrupt stock of paint is getting pretty well exhausted. Probably won't last much longer than 10 days, so you had better hurry up and get some. We will have to have $2.35 a gallon for our regular Certain-teed weather shield paint, but that is lower than you can get it at mail order houses. Big lump coal is selling good. We also sold 4 ready-to-wear houses the last 10 days. Only 2 more left. $20 down, $20 per month. We have no copper wash boilers. You can probably get them at the hardware. We are just going to handle builders' hardware, but you can sure buy that cheap. I don't mean it is cheap stuff, either. The nails we sell are just as good nails as you ever drove. Yellow pine 16-inch wood, window glass and putty.

RADIO PIONEERS

When winter's snow is falling outside—and the wind roars through the trees—when the friendly logs blaze up in the fireplace —have a Camel!

No other cigarette in the world is like Camels. Camels contain the choicest Turkish and domestic tobaccos. The Camel blend is the triumph of expert blenders. Even the Camel cigarette paper is the finest—made especially in France. Into this one brand of cigarettes is concentrated the experience and skill of the largest tobacco organization in the world.

WHEN it's a winter night and the day that was busy is done. And outside the snow is driving through the trees before the wind. When, inside, the crackling logs catch fire and burst into flames above the hearth—*have a Camel!*

For Camel is the tried and trusted friend of millions of experienced smokers. Whether your returning steps bring you home tired or jubilant, no sweeter, more mellow fragrance ever came to you from a cigarette. There's not a cigaretty after-taste, not a tired taste in a whole county full of Camels. Only mild and mellow flavor, deep-down contentment in your home or any home where Camels are lighted.

So this night, before your roaring logs of oak or hickory—*have a Camel.* Open up the famous package of Camels and know the fragrance, the contentment that brings happiness to millions. Put a Camel between you and a light and taste the mellowest, most delectable blend ever made into a cigarette.

Have a Camel!

Our highest wish, if you do not yet know Camel quality, is that you try them. We invite you to compare Camels with any cigarette made at any price.
