WHO IS TO BLAME?

Who is to blame, parent, boy or dog, for the dogs that chase cats and even kill them? Some will say, oh, just a cat, but what about the owner? Have you no respect for their property or feelings? I have in mind a friend who has always been very kind to dogs and given many a hungry dog something to eat. Along comes a number of boys with a dog. The dog nearly killed the cat and would have if the owner had not heard them and rescued it.

Now boys the owner has treated you and your dogs fair, why not return it? Who is to blame? The dog is only a dog and does not understand that he should not do those things unless the boy teach him not to. How about the boy—some say he is only a boy. Why don't parents explain to the boy to respect other people's property, and people will respect him and his dog.

Home training lays the foundation for character in every boy and girl. Why not make this a pleasant place to live in—respect your neighbors and it will be.

DISEASE

does not have to run its course!

Under Chiropractic Adjustments many acute diseases are aborted if placed in the hands of the Chiropractor in the earlier stages. The Chiropractor does not have to wait until tomorrow, or the day after to see what develops before he is able to administer to the patient. He immediately finds the nerve impingements, releases them, and the body which is self regulative when supplied with its full nerve force, eliminates the disease through the regular channels with which it is endowed. Disease cannot exist where the life currents flow freely to all parts of the body.
