Moving of Museum Jovels Dan Cupid From Favorite Scene LONDON, (AP)— Because a museum of geology is being moved several writers of English love stories will have to change the venue of their "happy endings" and many lovers will be driven to another trying place.

For many years, the Museum of Practical Geology has been housed in Jermyn street, just back of "Cradilly." Few people ever crossed its portals to gaze on cold monoliths and ammonites of prehistoric ages, and for this reason self-absorbed young couples found it an ideal spot.

So famous did the museum become in this respect that it achieved additional fame as the scene of love episodes in many a story. Whether the romance of the old building will endure in the soberly practical museum atmosphere of South Kensington, its new home, remains to be seen.

Ducks Seek Safety of Small Lakes as Hunters Approach. LITTLE ROCK, Ark., (AP)— Southeastern Arkansas, for many years a paradise of duck hunters, this season produced poor hunting despite the fact that there are millions of the green-headed water fowl.

Whether the weather is responsible for conditions, or the ducks have gained through experience of aged birds passed on to the younger generations, sportsmen are unable to tell. Officials, however, blame the weather.

For ducks there are, literally by the million, but not where the hunters are prone to hunt. They are in the less frequented lakes and the open rivers of the rice country.

More Turkish Women Enter Ranks of Modern Industry CONSANTINOPLE, (AP)— There was not one Turkish woman among the industrial workers of this city four years ago but now there are more than 20,000. A Turkish tobacco concern, the Douhan Society, inaugurated women into industry when it opened a factory in 1921 with an employment of 850 Turkish girls.

Turkish women have proved so adept at the sorting and grading of tobacco leaves that now this society employs 6,000 women. Other companies have sprung up and increased female employment. Comfort and health of the workers has been insured.

Personality Urged as Keynote of Modern Scholarship PHILADELPHIA, (AP)— That the keynote of modern scholarship is the development of personality, is the belief of Dr. John H. Minnick, dean of the School of Education of the University of Pennsylvania.

"Modern education is rapidly doing away with the so-called 'memory grind,'" he said. "In the old days, superintendents of public schools were most impressed by the marks made by future teachers, but nowadays they are most anxious to hire living personalities for their class rooms than mere fact absorbers."

Sister Mary Says:

(By Sister Mary)
Breakfast—Baked winter pears, cereal, thin cream, soft cooked eggs, crisp whole wheat toast, milk, coffee.

Luncheon—Potato soup with cheese, croutons, baked apple dumplings, milk, tea.
Dinner—Beefsteak and oyster pie, buttered parsnips, celery and plain cake, graham bread, milk coffee.

This beefsteak and oyster pie can be put together all ready to pop into the oven when wanted or can be baked as soon as prepared. It is an excellent way to use up left-over steak or roast if necessary although the following recipe uses fresh steak.

Beefsteak and Oyster Pie
One pound beefsteak, 1 pint oysters, 1 1/2 tablespoons salt, 1/4 teaspoon pepper, 2 tablespoons butter, flour, 2 cups water or stock, 2 cups seasoned mashed potatoes. Cut steak off freshly cooked or cold into small pieces. Combine with uncooked oysters and put in a well-buttered baking dish. Sprinkle with salt and pepper. Melt butter in sauce pan, stir in flour and slowly add water or stock, stirring constantly. Cook until thick and pour over meat.

Women Outnumber Men in Larger Japanese Factories TOKYO, (AP)— Governmental investigations have developed that the number of women workers, both in factories and on farms, is steadily increasing. Figures disclose there are approximately 225,000 women workers in the employ of various manufacturing plants, not including those employed by small factories. Nagoya leads in the number of women workers, with Osaka second and Tokyo third.

Compared with the number of men workers in the large factories it is found that women are in the majority by about 123,000. The inquiry was prompted by the government's desire to insure the relief and protection of the country's feminine workers.

The denominations vary from one hundred crowns to twenty-five hundred. Physical exercise for adults of bedroom physical culture is rated at 100 crowns, while the "high jump" rather appropriately represents the most extensive stamp of the series, 2,500 crowns.

Party Compliments School Graduates

Honoring their graduation from Central school the mothers of the eighth-A students of the school entertained at a delightful party Friday evening in the gymnasium of the high school building, followed by a banquet in the domestic science department of the school. Twenty-seven students of Central school, who entered high school this morning, were the guests of honor.

Mrs. Ray Baum was in charge of the games during the early part of the evening. A fortune telling booth was a feature attraction. Miss Sally Skogist gave a Turkish dance, which was well received. At about 10 o'clock the party adjourned to the domestic science rooms, where a delicious banquet was served. The rooms and tables were beautifully decorated, Japanese lanterns lighted the tables, where pretty bouquets of flowers and Japanese dolls were used.

Mrs. Lee Warnick acted as toastmistress for the evening. Dr. W. P. McAdory spoke for the Hi-Dad organization and Wesley Brown, president of the high school student body, represented the high school students in a short talk. Stanley Zundell responded for the 27 graduates.

Mrs. Robert Newlin was general chairman in charge of the party.

ROAD SPEEDILY CLEARED GOOD RIVER, Ore.—A road was established by J. A. Lovell and J. R. Nickelson, the latter supervisor of maintenance on the Columbia highway, in removing a mass of rock that tumbled off the overhanging bluff at Ruthon hill. Mr. Lovell's home is in the cove under the bluffs and the tumble of the 50 yards of boulders as they crashed on the highway aroused him. He immediately telephoned his chief, and the two reached the scene at 10:30 o'clock. By 12:30 a one-way track was clear. Only five automobiles were delayed.

FREEWATER, Ore.—The Milton Fruitgrowers Cooperative Union held its annual meeting here and 35 of 70 members were present to hear a statement of the business for 1925. R. E. Gleason, manager, explained the system of marketing the apple crop and told of arrangements made for selling the 1926 cherries. Directors elected were Frank Elftman, Henry Groth and O. K. Goodner; Chastain and Guy Hobson.

Mrs. Reid's Memorial Plan Fails

Mrs. Wallace Reid, who built a memorial home in the Brentwood Hills near Hollywood to help artists whose drug habit killed her husband, the smiling-faced film idol, announced that her plan has failed. Residents complained they wanted no such place near their homes, and it was hard to find a physician who would give up his practice and move out to the place. Now the home is being used as a roadhouse.
