Sister Mary Says:

(By Sister Mary)
Breakfast—Grapefruit sections, cereal, thin cream, omelet with cream sauce, Graham muffins, milk, coffee.

Luncheon—Baked spaghetti with cheese, stewed tomatoes, toast, fruit, apples, cake, milk, tea.

Dinner—Chicken or chicken and rice, baked squash, cabbage and pineapple salad, whole wheat rolls, lemon meringue pie, milk, coffee.

Spill left-over muffins and toast in a very hot oven. Butter and serve hot. These toasted muffins are an delicious with afternoon tea as a "crumpet" or "scone" served in a fashionable tea room. The muffins must be toasted evenly brown and quite crisp and must be generously buttered.

Spice cakes are particularly appealing in cold weather. The following cake is an adequate dessert in itself.

Spice Cake.
Yolks 3 eggs, 1 whole egg, 1/2 cup brown sugar, 3 teaspoons baking powder, 2 cups flour, 1/2 cup butter, 1 cup sweet milk, 1 teaspoon cinnamon, 1 teaspoon salt.
Cream butter and beat in sugar. Add eggs well beaten. Mix and sift flour, baking powder, salt and cinnamon. Add about 1/3 of the dry ingredients to first mixture. Mix thoroughly and add 1-2 milk. Continue adding dry ingredients and milk alternately until all is used. Turn into an oiled and floured dripping pan and bake 25 minutes in a moderate oven. Let cool slightly after removing from the oven and cover with the following frosting.

Frosting.
White 3 eggs, 1/2 cups brown sugar.
The frosting uses the whites of the eggs left from the cake.

Roll sugar on mottled board to remove lumps. Beat whites of eggs on a large platter with a wire whisk until stiff and dry. Beat sugar into whites gradually. Pipe on cake and put into a hot oven for eight minutes to puff and brown the meringue.

A pan of cold water placed under the cake will prevent too hard baking on bottom while the meringue is browning.

Hints for the Housewife

From soup to nuts, serve crackers! This is Cracker Week when all good housekeepers may look to the cracker box for culinary inspirations.

The newest style in cracker boxes is the family size in was-wrapped form. Keep the crackers in the warming oven or near the radiator and they will stay crisp.

Crackers need no fancy touches when served with the soup, but in the interests of labor saving, crackers may be used as the foundation for olive earl or sardine canapés. Put a package of prepared pimento or green chili cheese in the pastry tube, force out on salted crackers in stars and roses and loaves and you have a quick but tempting tidbit to serve with salad or with end of the dinner coffee.

Salted crackers are the ideal background for all sorts of fancy things. Next time you have a bit of boiled icing left from a cake, use it on salted crackers, dusting the top with finely chopped nuts or fine cocoanut, and there are little frosted cakes for after school lunch and after sewing tea.

A mixture of sugar, butter and vanilla or lemon juice run through the pastry tube or spread with a spatula on crackers is quick to serve with tea cream. By coloring pink and green and yellow you can get roses and leaves nice enough to serve at your party.

Melted chocolate is quick to spread on crackers. For four layers sandwich spread melted chocolate and a half walnut and serve with tea or dessert.

Peanut butter mixed with canned milk, a pinch of salt and confectioners sugar to make a firm frosting, makes cracker sandwiches that please the children especially. These are just the thing for a tea party because a little girl can make them herself.

TRIED OIL; RETURN TO COAL

WASHINGTON, D. C., Jan. 21.—(Special News Bulletin).—Owing to the high cost of the oil-burning operation which heats the Navy, Munitions and several other government buildings in Washington, a change has just been made. The small boilers, which originally were used for coal-burning and later changed to oil, are now back in a coal-burning operation. These small boilers carry the night load. Only a small outlay of funds in material and labor was required to make this change, and it can be safely stated that only a lack of funds for capital investment delays the complete conversion of the Potomac plant to a coal-burning operation. The government is sustaining a heavy loss through the use of fuel oil. This has been determined by tests which have been reported to General Lord, director of the budget bureau.
