Westminster Society Elects Officers

Mrs. George Richardson was elected president; Mrs. A. V. Lindgren, vice president; Mrs. Richard Thomas, secretary and Mrs. H. L. Stoneking, treasurer.

Mrs. Lindgren presided over the business session and also had charge of the devotional for the evening. Mrs. O. E. Silverthorn was leader for the evening and gave an interesting review of Drummoh's book "The Greatest Thing in the World."

During the social hour following the program the hostess served dainty refreshments.

M. I. A. Hall Scene Of Stake Gathering

Andrew Haggie, high councilman and advisor of the board, of Baker, was present and gave a talk encouraging the officers present in the work they are doing. The banquet was served by Misses Ruth Black, Veda Hogenson, Ethel Harnden and Ethel Hunt.

Miss Mae Bean presided as toastmistress and called upon Mrs. George Stoddard and Mrs. Ada K. Smith of La Grande; Mrs. Will Baxter of Union; Mrs. Grant, of Baker; Mrs. Pearl Bultman, of Perry; Mrs. Ruth Westenskow, of Imbler; Mrs. Emma Chadwick of La Grande's first ward and Mrs. Mae Serrine of La Grande's second ward.

Scarlet

A typically smart hat for town wear is this little fulle model in scarlet. The interesting arrangement of scarlet and gold quilts lends a touch of distinction.

Sister Mary Says:

(By Sister Mary)

Breakfast—Baked apples, rolled oats, top milk, scrambled eggs with crisp broiled bacon, whole wheat muffins, marmalade, milk, coffee.

Luncheon—Creamed mushrooms on toast, hearts of celery, jellied fruit pudding with whipped cream, milk tea.

Dinner—Baked fisherman's haddock with oysters, cabbage with pineapples, baked squash, peach cottage pudding, whole wheat bread, milk, coffee.

Marmalade is added to the breakfast menu to furnish a plentiful touch. The apples, cereals, eggs and muffins are such bland foods that the breakfast would be quite insipid without the tang of the marmalade.

Creamed Mushrooms on Toast

One-half pound mushrooms, 2 hard cooked eggs, 2 cup creamed peas, 2 tablespoons butter, 1 tablespoon flour, 1 cup milk, 4 tablespoons cream, 1/2 teaspoon salt, paprika.

Melt butter and add mushrooms cleaned and cut in slices. Sauté over a low fire for five minutes. Sift over flour and stir with a fork until perfectly blended. Add milk and cream and cook, stirring constantly until thickened and smooth. Add peas and eggs cut in neat dice or slices and make very hot. Season with salt and paprika and serve on slices of hot buttered toast.

If top milk is available it can be used in place of the milk and cream.

The Garden

ROTATE VEGETABLE PLANTING

The most successful vegetable growing demands that the crops be rotated much as field crops are rotated. The farm crop rotation after many years of experiment decries that the same crop should not be put back for four seasons to secure the highest production and ideal soil conditions. Vegetable gardens, where there is space available, should be moved from time to time for best results, but this is impractical in the small garden which most citizens have available, as the best one can do in planting his planting is to make it a point to see that the same crops do not occupy the same space in the garden in succeeding seasons.

It may be put down as a settled fact that practically all vegetables dislike being cultivated on the same ground for two successive years. While they will flourish to a certain extent, the deterioration will show if they are grown season after season. Repetition, garden experts tell us, should not be often than every two years.

Where you planted your corn last year try beans this year. Do not plant cabbages and turnips in the same place you grew them last year and expect the best results. Cabbages develop diseases when planted in the same place in successive seasons, such as club root. Onions are a good crop to alternate with early cabbages.

These facts should be kept in mind when you plan the plot for the vegetable garden this year. Last year's plan should be consulted and reversed so far as possible in small gardens, so much that it

is not practicable to do much of anything in the way of crop rotation, extra deep digging will be helpful, bringing up some of the subsoil and liming along with the fertilizer.

If you didn't keep a plan of your garden last year make one this spring and lay it away for reference so you can vary the location of the vegetables another year.

Tom Sawyer's Have New Friend in English Specialist

LONDON (AP)—Beware of the boy of eight whose mother describes him as a perfect "little gentleman," is the warning sounded by Dr. Crichton-Miller.

The boy of eight who has settled hands and refuses to let his mother scrub him up and keep him immaculate is merely showing the independence which is necessary for the proper development of a

man who will shoulder responsibilities and not shrink his fire duties, Dr. Crichton-Miller said.

It is a good psychological sign when a boy cuts loose from his mother's apron-strings and insists on doing things for himself and doing them his own way, even if it is a pretty poor way, in the opinion of the specialist, who urges women not to regard carelessness in a youngster as a sin.
