That Practical Joke About Looking Upward

You can't help yourself. If you see someone standing still in the street, looking upward, you bend your neck backward. You want to see too. You want to know what's going on.

That instinct is perhaps the main reason for newspapers. So you can know what's going on. Going on among your neighbors, among the people in the next state, in other lands. You want to know the news.

And that's what advertising is for, too. So you can know what's going on. So you can know the news about styles in clothing, about theories in foods, about the latest improvements in radio amplifiers or automobile engines or face creams. News! You want to know the news.

The advertising in this newspaper is here to tell you things. It is here to keep you in touch with the things that are going on. Advertisements are interesting. They are useful. They are news.
