MAY PREVENT AUTO THEFTS

The Chrysler corporation and the Peco Number Plate Corporation which manufactures the patented number plate which appears on the instrument board of every Chrysler car, are determined to take every step possible to prevent the theft of Chrysler cars and to prevent the sale of stolen Chrysler

cars, according to L. W. Weeks, local dealer.

The Peco company has retained the William J. Burns International Detective Agency with its thousands of trained investigators and 20 offices throughout the United States and Canada to cooperate with police authorities in making it more difficult to steal Chrysler cars and to sell stolen Chrysler cars. Rewards up to \$5000 are now offered through the Burns agency for information leading to the arrest and conviction of anyone who has stolen a Chrysler car, sold to stolen Chrysler car or purchased a stolen Chrysler.

From all parts of the United States to the Chrysler factory in

Detroit come reports of how the patented number plate on the car has prevented the sale of stolen Chrysler cars. A professional criminal in Richmond Hill, New York—a suburb of New York City—stole a Chrysler roadster, removed the entire instrument board and attempted to sell the car with another board without a plate. The absence of the plate was noticed, an officer called and an arrest made.

Another auto thief in New York found it impossible to change the serial number on the instrument board and found it impossible to make a counterfeit plate. He then tried to disguise the fact that the car had carried a plate. The absence of the plate resulted in his arrest also.

Harold R. King, commanding officer of the detective division of the police department of the county of Nassau, New York, has said that "the receivers of stolen cars, so-called 'fence', will refuse to handle cars bearing these plates because of the danger of detection."

New York's police department uses 27 men on an automobile squad to combat the activities of auto thieves in the city.

Twelve thousand cars were stolen in New York in 1925. In Chicago 5143 cars were stolen last year, an increase of 53 per cent over 1923.

The Greatest January in History!

Announcement of tremendous price reductions and vital improvements was followed by the greatest January in Dodge Brothers history.

Retail sales for the four weeks ending January 31st were 14,943, an increase of 67.4 per cent over the same period of 1925.

Mid-summer business in January!

When the drastic reductions went into effect, Dodge Brothers, Inc. said frankly that they were offering the greatest values in their history.

How well the public realizes that these really ARE the greatest values is proved in a definite and emphatic way by the remarkable record for January.
