

A DISTINCTIVE CAR!

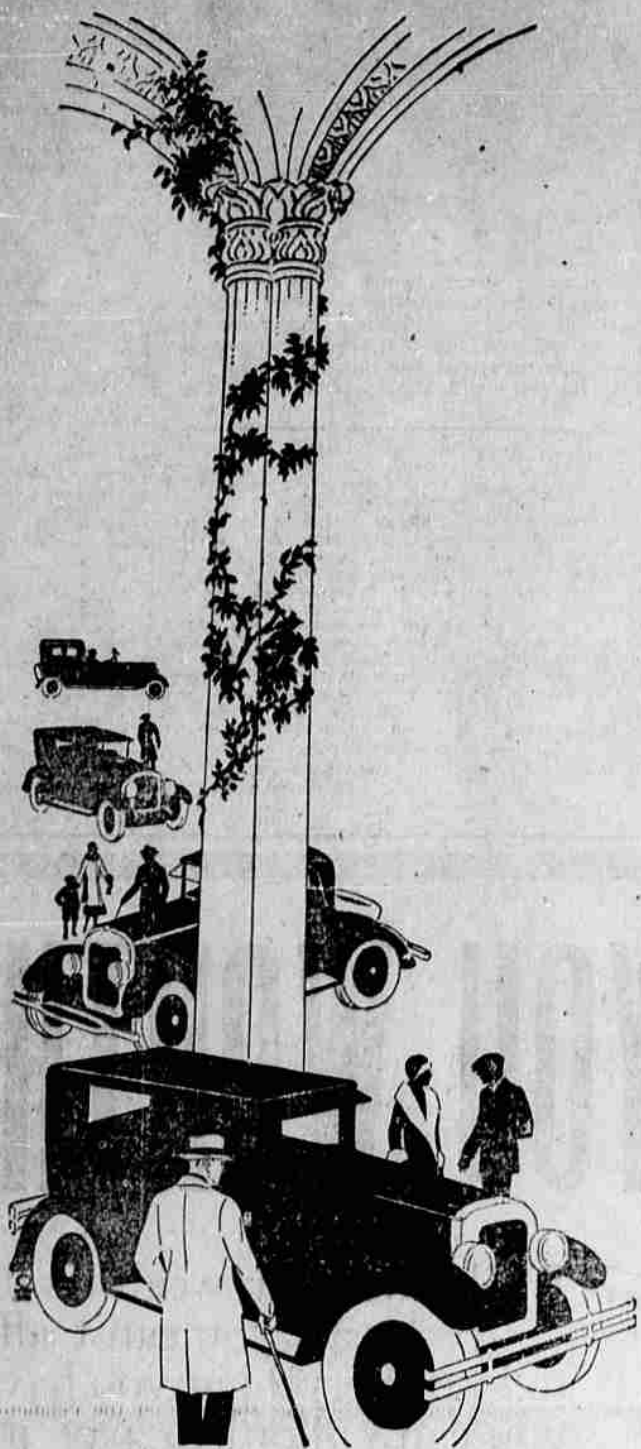

The Choice Of

Discriminating Buyers!

For many years the Franklin has enjoyed the favor of a remarkable number of people in the La Grande territory. It has been a distinctive car for discriminating people—a high-class car for motorists who insisted on owning only a high-class product. The names of a few owners of Franklins is proof enough of the class of people who are satisfied with nothing less than Franklin quality.

Today, with the New Franklin models designed by de Causse gaining the highest pinnacle of popularity in the country, the Franklin is more than ever a distinctive car. Never before has any manufacturer been able to give the custom-built body design that Franklin now offers at such prices. The owner of a new Franklin has the utmost in fine body building for his money—the most exacting finish and equipment that cars of the \$10,000 class possess. It is a remarkable motor car value.

More than this, the owner of the new Franklin has all the quality that has made loyal Franklin owners for so many years—riding comfort that is peculiar to the Franklin, ease of driving that astounds you, and economy of operation that makes ownership easy for anyone of moderate means. It's a beautiful car to see—a wonderful car to drive. Ask us to let you enjoy the experience. Phone or call.
