## Society Installs New Officers

Twenty-five members and guests attended the meeting of the Presbyterian Missionary society at the home of Mrs. W. H. Bohenkamp Jr., yesterday afternoon, March 12. Mrs. H. H. Cleaver, retiring president, presided over the business meeting and Mrs. O. L. MacDowell had the devotional which was "Stewardship."

New officers were installed by Mrs. E. P. Mousman, honorary Presbyterian president of the society. Mrs. O. E. Moran was installed as president; Mrs. Frank Jackson, vice president; Mrs. Phil Thompson, recording secretary; Mrs. G. H. Baker, treasurer; Mrs. J. C. MacPherson, secretary of literature; Mrs. H. R. Hanna, chairman of year-book committee; Mrs. Robert Falkin, secretary of mission study; Mrs. C. E. Anderson, secretary of young people's work; Mrs. W. B. Pickens, stewardship secretary, and Mrs. L. B. Moe, secretary of overseas sewing.

Mrs. H. R. Hanna had charge of the program for the afternoon. "Japan" was the subject. Waldo Stoddard, who visited Japan last summer gave an interesting talk on his observations of the Japanese people. He dwelt upon the characteristics of the people and especially on the progress and the widespread influence of Christianity in Japan.

Vocal numbers were given by Mrs. W. H. Bohenkamp Jr. and Mrs. Floyd Sherwood, accompanied by Mrs. Lynn Wright at the piano. Mrs. Bohenkamp sang "The Grass is on the Green Again" by Willey and "Song of the Robin" by Anna Case. Mrs. Sherwood sang "To a Hill Top" by Ralph Cox and "Life's Paradise" by Mary Helen Brown.

The Bohenkamp home was prettily decorated for the occasion with spring blossoms. The hostess was assisted in serving dainty refreshments by Mrs. A. R. Hunter, Mrs. Stella Ingie and Mrs. A. G. Lane.

of different annuals in different shaped and sized groups arranged with an eye to pleasing color harmonies or contrasts and to give a show of bloom throughout the season. The most practical method is to plant the annuals in rather long narrow irregular bands known as drifts, one overlapping with the other with the taller sorts toward the back and grading in height to colonies of the dwarf bordering annuals at the front, occasionally running a taller group to the front to vary the monotony and relieve too great regularity of planting.

A gardener may please his own taste as to color by having a blue, yellow, pink, or red border as best pleases him, the border for best effect not being confined exclusively to any one of these colors, but with the favorite color the prevailing tone, relieved by similar groups by way of contrast to bring out the tones. An occasional pale yellow or pink group is needed in a blue border. Pale blues and pinks in a white border, and so on.

A very practical plan is to make the border an annual border the first year while a supply of perennials is being grown to make a permanent planting. The perennials can then be transplanted into position in the fall when the annuals are done. Or it can be made a spring bulb border, planting the bulbs in the fall and then setting

## Sister Mary Says:

(By Sister Mary)  
Breakfast — Shredded fresh pineapple, cereal thin cream, creamed dried beef with rice, bran muffins, milk, coffee.  
Luncheon — Lentil soup, toast sticks, cottage cheese sandwiches, stuffed figs, milk, tea.

Dinner — Casserole of smoked salmon, steamed spinach, new cabbage and celery salad, date custard pie, whole wheat bread, milk, coffee.

The woman who must depend on smoked and salted fish will welcome this recipe for smoked salmon. The tude of the cured fish often whets jaded appetites as the mildness of the fresh fish fails to do.

### Casserole of Smoked Salmon

One and one-half pounds smoked salmon, 4 onions, 1 cup canned peas, 1/2 cup sliced cooked carrots, 1 tablespoon lemon juice, 4 medium sized potatoes, 1/2 teaspoon pepper, 2 tablespoons butter, 1/2 cup milk, 1/4 cups dried bread crumbs.

Soak salmon. If very salty put through two or three waters. Cut in pieces to serve and sprinkle with lemon juice. Melt butter and add crumbs. Stir until well coated. Put fish into a well buttered casserole, sprinkle lightly with crumbs and add alternate layers of peas, carrots, potatoes cut in thin slices and crumbs with one onion sliced through each layer of vegetable. Add boiling water to cover and bake slowly for one hour. Add milk and continue the annuals in place between the bulbs in the spring for a succession of bloom and to hide the dying leaves of the bulbs.

Dr. Edward McShane Waitz, president of Texas Christian University as vicer pastor of a Fort Worth (Tex.) church, saved his sermons for 20 years. There were 200 of them and they filled 40 notebooks. ## The Garden

### BORDER PLANTING GROWING POPULAR

Border planting, either of shrubs, perennials, or annuals has taken a firm hold upon popular fancy. It looks easy, much easier than it really is, to be effective, and does away with the task of laying out formal beds and planting color combinations. It likewise relieves the garden of the monotony of all-summer beds of unchanging color.

The annual border consists of a strip of ground planted to colonies

### MINERVA SAYS:

Why some men's feet are much better than others. There is a certain class of people who are particular what kind of shoes they wear. These men yearly pay a good price, get a good fit, and get a good shoe, and get a lot of comfort. We recommend the Just Right Arch Support for comfort and wear. The other fellow who does not care for quality or comfort buys cheaper shoes with poorer fit and less comfort. These people, if your feet are not bad now, surely will be in time.

You can buy good shoes but you cannot buy good feet, so take care of the ones you now have.

## What's back of your bill?

## Bulbs— and the plant you don't see

Here's a curious reversal of nature. Bulbs in plain view, but the plant out of sight—and nearly always out of mind.

You can light your bulbs only because there is an "electric" plant behind them—miles of transmission and distribution lines which connect your place with the generating stations; an equipment of waterwheels and boilers furnishing power for the generators, and men on the job night and day to keep that equipment in good operating order.

The electric plant, like every other plant, needs nourishment—what it needs most and thrives on best is your good will.
