

Builders' Guide

HINTS ON BUILDING

12 NEW HOMES DURING MARCH

Building activity in La Grande for the month of March totaled 12, worth \$1,240,000, which is considered a pretty good record for the third month of the year.

Of this amount 12 were the new homes, or at least of new type home construction in La Grande during March.

April started off in grand style with the opening of a permit to George L. Smith to build a new home on N. 12th and 14th streets. The house will be a two-story affair with a detached garage and a swimming pool. The estimated cost is \$12,000.

PLAYING "BANDON" — M. J. Smith, who has been playing the bandon, was again heard in the city.

Our stock of Appliances will help you. Come in and see us about them.

PREVENT ROT; HOUSE LASTS

(By W. W. Parry)

A well planned duplex, located on a corner lot, which permits a separate entrance for each family with plenty of ground for lawn, trees and shrubs, is the result of a good plan for the foundation.

The house is a two-story affair with a detached garage and a swimming pool. The estimated cost is \$12,000.

As far as the average commercial or dwelling house structure is concerned, dry rot is the only menace. It is caused by the growth of a fungus which is found in all parts of the building. It will be difficult to prevent.

It is important to start with thoroughly seasoned lumber. Good lumber is dry, and also lumber that has been treated with preservatives to resist rot and other decay.

Anti-Rot "Smear" — There are some "smears" to be observed in painting work. They are caused by the growth of a fungus which is found in all parts of the building. It will be difficult to prevent.

Sommer Hotel Bldg.

J & D BARN, ROOF AND BRIDGE PAINT

It is weather and wear insurance because the Sun, Wind, Rain and Snow do more harm to the exposed surface of your unpainted barn, silo, roof and outbuilding than it would cost to have them painted. When decay starts, it never stops! Paint now—don't let it start!

J & D BARN, ROOF AND BRIDGE PAINT is made from the best mineral pigments, ground in the best oil—water-proof and rust-proof. Saves time and is prepared ready for use.
