## WORK DELAYED BY RAIN, SNOW

WALLOWA, Ore. (Special).—Unsettled weather conditions have held sway over this county during much of the past week. A heavy rain fell over much of the county Tuesday night, and has been followed by frequent showers and snowstorms. The higher sections have been white with snow on a number of mornings, while the moisture which fell in the valley section has been mostly rain. The hill section east of here received a fall of three inches of snow Saturday night; however, the snow was soon melted away with the warm sun of Sunday.

The ground has been wet to a considerable depth and practically all lines of farm work has been temporarily delayed. Farmers as a rule are not at all dissatisfied with seeing an abundance of moisture at this time, as the ground being frozen hard during much of the winter season, allowed much of the winter's snow to run off this spring. The ground was not wet to any great depth even in the fields, and the large amount of moisture coming at this time will no doubt soak the ground to an average depth, anyway. The ground has been drying very rapidly and plowing can be resumed at many farms in a short time after the storms are over.

**Delay Not Serious.**—The delay to farm work at this time is not considered a serious matter, due to the early spring. Farmers feel that they will have sufficient time to get their farm work finished in good season. A considerable amount of seeding has been done in various parts of the county, and much remains to be done yet. Some farmers who have had their ground prepared to seed for some little time state they will not seed until they are sure that good weather has come to stay. At a number of times in previous years when extremely early seeding of grain has been done, considerable damage has resulted from part of the seed rotting and from work of wire worms.

**H. G. Musterson was a business visitor in this section the latter part of the week.** He recently returned from Portland, where he went with a shipment of livestock. He reports beautiful weather in the western part of the state while there.

**Dewey Boston, of Troy, was a business visitor here the last of the week.**

**Missionary Society to Meet**—The Missionary society of the Presbyterian church will meet Friday afternoon in the community room of the church with Mrs. Alvah Duryea as hostess. The program subject for the afternoon will be "Negroes." Mrs. Ray Murphy is chairman of the program.

**Steen Has No Broken Bones**—An X-ray examination of Howard Steen, of Fruitdale, yesterday afternoon, revealed no broken bones as a result of his highway accident Sunday afternoon near Island City, according to a report from the hospital today. He is fairly comfortable and will on the way to recovery.

**Took Patient to Hospital**—Dr. E. G. Kirby returned to La Grande this morning from Portland where he spent yesterday. Dr. Kirby took George McDonald, of Summerville, to Portland where he will be examined and treated at the Portland surgical hospital. Mr. McDonald's condition is reported as serious.

**Returned Home Yesterday**—Mrs. Earl Stoddard returned to her home here late yesterday afternoon after a trip by auto to Salt Lake City, Utah, where she visited her parents. Mrs. Stoddard's father has been ill there. She was accompanied on her trip by Mrs. David Stoddard, of Baker. They made the trip by auto making good time they report.

### Medford Family Found After Day, Night Lost

MEDFORD, Ore., Apr. 7. (AP)—Gay W. Connor, local fruit broker, and five children ranging from 9 to 14 years, were found late Tuesday afternoon after spending a day and night in the isolated wilds of the Pilot Rock county in the Steglun mountains.

Credit for the comfort and care of the party during the foggy and rainy night was given by Connor to John Reddy, a boy scout, aged 13 years, who used his knowledge of woodcraft gained in the boys organization to good advantage. Connor says that a mountain storm overtook the party Monday afternoon and that his son John, and John Smith, 13, became separated from the main party. After a search for them, he became confused in directions. The two boys after a night's travel found their way to the Pacific highway.

### PAYS DEAR FOR DEER HUNT

PORTLAND, Ore., Apr. 7. (AP)—A deer hunting expedition near Sheridan cost C. G. McCordle, of Grand Ronde, \$200, according to a report received by the game commission today. Besides this, McCordle, Ivan Langley, Grande Ronde, and Shorty Hampton and Roy Clark, of Sheridan, received 90-day suspended jail sentences. Langley also lost his dogs. McCordle was fined \$150 for hunting deer in closed season and \$50 for hunting without a license and was bound over to the grand jury on a charge of threatening Deputy Game Warden V. F. McFarland, of McMillanville.

## OREGON CITES ISLAND CLAIM

SALEM, Ore., Apr. 7. (AP).—In connection with the protest of Governor Hartley, of Washington, against the Stanford bill providing that the government restore to the state of Oregon title in Sand Island at the mouth of the Columbia river, and his request that the Washington delegation vote against the measure, Attorney General Van Winkle, of Oregon, and two United States supreme court decisions hold that the island is in the state of Oregon.

"This should render void completely the claim of Governor Hartley," said Van Winkle.

The first decision was in the case of Washington against Oregon in the year 1925, brought to determine the boundary line between the two states at the mouth of the Columbia. The second was on a rehearing of the same case.

The opinions of the United States supreme court held that the boundary line is the middle of the channel between Sand Island and the Washington shore, and that as the island gradually moves closer to the Washington shore, the middle of the channel shall continue to be the line, thus leaving the island entirely within the state of Oregon. Should the island in future years move northward enough to connect with the Washington shore, the opinion holds that the point of connection would then mark the boundary line.

The island was ceded by the state of Oregon to the government over 60 years ago on condition that the government use it for military purposes. It has never been used for that purpose, and instead the government has made use of its valuable fishing grounds. Oregon is now trying to get it back, one of the provisions of the Stanford bill being that should the government ever need it for military use it would be returned to the government. The senate public lands commission has reported favorably on the bill.
