Latex, the milky-white liquid that flows from the bark of rubber trees, is the source of all rubber. The United States Rubber Company ships latex from its rubber plantations in the Far East to its tire factories. Special machinery treats the latex in a latex bath and lays them side by side, producing Web Cord. See Below.

A—Latex-treated Web Cord. Notice how each cord is smooth and parallel and absence of cross tie-threads.

B—The old-style cord structure with cross tie-threads and uneven position of cords. Compare with Web Cord.

Here are the Answers to your Questions about Latex-treated Web Cord

Q—What is Latex-treated Web Cord?
A—Web Cord is the special cord structure developed by this Company for Royal Cords and other United States Tires.

Q—How does Latex-treated Web Cord differ from the cord structure used in other makes of tires?
A—Each individual cord from which Web Cord is made is latex-treated by immersing the cords in a latex bath. The cords are then laid side by side and when the liquid dries they become webbed together by pure, natural rubber.

Q—Don't other manufacturers treat their cords?
A—Some do, but not in latex.

Q—What is the object of treating cords with latex?
A—All tire cords must be impregnated with rubber. Using latex impregnates the cords with rubber, without using chemicals.

Q—Why don't other manufacturers use the Latex Process?
A—The Latex Process was developed, patented and is owned by the United States Rubber Company.

Q—What are the advantages of Latex-treated Web Cord?
A—Greater flexibility, strength and longer life in cord fabric. The Latex Process surrounds and protects each cord with rubber and webs it to its neighboring cords with a flexible rubber coating. This does away with the necessity for cross tie-threads.

HEADQUARTERS

The Oregon Hardware

Fishing Licenses
Campfire Permits

how does your friend see your home?

Little beginnings of dilapidation come gradually—they are soon a part of familiar surroundings—not noticed.

But the friends coming in—they see everything. And what do you want them to see?

Cracks, scratches, stains, gapping and rotting woodwork—Or fresh smooth surfaces—trim repair?

Examine your home now.

Then drop into a Rasmussen Paint store for help in choosing colors, and deciding costs.

You make no mistake in selecting Rasmussen Paints and Varnishes. Ready mixed paints of pure white lead and zinc and other tested ingredients, in carefully proved proportions, doubly-ground in pure linseed oil, make smooth, opaque, weather-tight, beautiful surfaces.

Varnishes, clear or stained, made of the best materials in the Northwest's foremost varnish plant.

Whatever your needs, there is a Rasmussen Paint or Varnish for every purpose.
