Sister Mary Says:

(By Sister Mary)

Breakfast—Stewed prunes, cereal, thin cream, French toast, maple syrup, milk, coffee.

Luncheon—Cream of onion soup, toasted crackers, egg sandwiches, fried herring, lemon butter, lattice potatoes, beet greens, stuffed pepper salad, rhubarb, paprika, milk, coffee.

If you are interested in fancy cutters for vegetables you will like the device used to make lattice potatoes. This cutter can be used for salad vegetables as well as potatoes. Potatoes cut "a la lattice" are fried in deep fat and are crispy through as French fried cannot be, but they are not chippy to the state of nothingness that distinguishes Saratoga chips.

Rhubarb Frappe

Two pounds rhubarb, 2 cups sugar, 1 cup water, 1 lemon, 1 egg (white), 2 tablespoons powdered sugar.

Wash rhubarb and peel if necessary. Cut in small pieces and put into baking dish with water and sugar. Bake in slow oven until rhubarb is tender, about forty-five minutes. Rub through a fine sieve and add juice of lemon. When cool fold in the egg white beaten until stiff and dry on a platter with a wire whisk. Beat powdered sugar into white just before combining with rhubarb. Turn into a freezer and let stand two hours packed in three parts of ice to one of rock or ice-cream salt.

Or the frappe can be frozen to a mush with stirring in two parts ice to one of salt and then packed in four parts of ice to one of salt until wanted to use. It will take about ten minutes to freeze "to a mush."

Cattle Supply Reported In Bi-Weekly Broadcast

Reports released by the orderly marketing committee of the Oregon Cattle and Horse Raisers association showing the number of cattle needed in the Portland market and the number bought or contracted are being broadcast each Monday and Friday night at 7:30 from station KOAC, the Oregon Agricultural college, at Corvallis. The Monday night report covers the cattle needed for the next Monday's market on data prepared from statements by the packers. The Friday report shows the number of cars to be loaded or listed for the Monday market. The number of cars ordered and loaded after Friday afternoon is usually small.

Reports are wired to the college department of animal husbandry from Portland around 5 o'clock every Monday and Friday afternoon. This information is of value to the cattle shippers of Oregon, enabling them to know in advance of shipment about what the condition of the market will be. E. L. Foster, professor of animal husbandry at the college, who arranged the service with C. E. Howell, market director at Portland for the Cattle and Horse Raisers association.

Flavor is everything in breakfast oats.

WHEN you find a person, especially a child, who "doesn't like oats," chances are they haven't tried the right kind.

Get Quaker Oats. Once you taste "Quaker" flavor, you are spoiled for ordinary oats.

That rich and tasty Quaker flavor is the result of some 50 years milling experience. No other oats approximate it.

Quaker milling, too, retains much of the "bulk" of oats. Thus those who eat Quaker Oats find laxatives seldom needed. Combines protein, carbohydrates, vitamins and "bulk" in excellent proportions.

Costs the same as ordinary brands. You alone lose when you accept a substitute.

Quick Quaker cooks in 3 to 5 minutes. Your grocer has it; also Quaker Oats as you have always known them.
