## Spring Party Held At Playle Home

One of the loveliest spring parties this year took place yesterday afternoon at the home of Mrs. Charles Playle on Fourth street when Mrs. Playle, Mrs. J. T. Tichenor and Mrs. W. G. Sawyer were hostesses at a prettily appointed luncheon at 1:15 o'clock.

Luncheon was served at nine tables beautifully arranged in the pastel colors. Sweet peas in little pots covered with two shades of lavender crepe paper were used as a centerpiece for each small table. With the dainty place cards which were miniature women dressed for spring, were mixed bouquets of tiny spring flowers arranged in a little pot covered with two shades of green. The bouquet consisted of pansies, grape hyacinths and other small flowers. While the three-course luncheon was being served a subdued lighting effect was used, adding much to the beauty of the rooms.

Bridge was the diversion of the afternoon after luncheon. Mrs. Clyde Middle received high score for the first prize. Mrs. E. B. Appleby won second honors and Mrs. T. A. McDonald received the third prize.

## Sigurd Nilssen, Born At Perry, Visits Baker

BAKER, Ore., Apr. 15.—Sigurd Nilssen, born at the little town of Perry, in Union county and now a famous singer, was in Baker yesterday. While here he made arrangements with K. L. Burk to sing one night at the Clark theater at some date in early May.

Mr. Nilssen recently finished an engagement with the National Opera company of Washington D. C. and has come to the coast after a brief tour of the middle west.

He will sing at Caywood Garden in London in June. Later he will appear on the continent. In the fall he will sing in Vienna. Mr. Nilssen has spent considerable time in Europe since the war. When asked if a singer could make any money singing in a city so impoverished as Vienna he reported to him he said there was little profit in such an appearance, but Vienna is still one of the world's musical capitals and singers are glad to appear there.

Mr. Nilssen was recently featured extensively in the Sunday Oregonian.

Four boiling water to cover over rhubarb. Let stand five minutes and drain. Put rhubarb into a smooth saucepan, add sugar and flour thoroughly mixed, butter and water. Bring to the boiling point, stirring constantly and cook until thick and smooth. Beat one whole egg and one yolk lightly and stir into rhubarb mixture. Turn into a pie dish lined with plain pastry and bake until custard is firm to the touch.

Heat remaining white of egg until stiff and dry on a platter using a wire whisk. Beat in powdered sugar and salt and spread over pie. Return to the oven for eight minutes to bake and color the meringue.

The oven should be hot when the pie is first put in in order to bake the crust. Reduce heat after ten minutes to bake the custard slowly.

The big French, English, and German pansy types, the highest development of the florists' art for the shady or semishaded beds, and the smaller and more floriferous Scotch or tufted pansies for the more sunny spots will give us bloom all summer for the tufted pansy keeps blooming longer than the pansy and gives a fine flash again in the fall when cut back in midsummer.

The tufted pansies do not come true to named types from seed as do the pansies, so it is necessary to propagate by cuttings from the plants to secure a supply of a type. The best liked sorts may be selected from seedlings and the numerous shoots that shoot up in a tuft in midsummer may be taken off and rooted easily in wet sand and planted out in time to become established by fall. They survive the winter readily under a light mulch of straw or leaves and burst into bloom with the first warm days of spring. They are admirable for edgings or for carpeting rose beds. Why is Carnation Milk So Good?

## Carnation Quality Starts With the Cow!

Do you know why the wonderful quality of Carnation Milk never varies day after day and year after year? Because it begins away back at the source of supply. The fresh milk for Carnation is produced on selected farms in selected districts in accordance with strict rules. Carnation is famous among dairy farmers for its extra high standards.

Just fresh, pure, full-cream, dairy-farm milk with part of the natural water removed by evaporation—that's Carnation. Evaporation makes it doubly-rich and then that double portion of cream is blended in so that the last drop is as creamy as the first. Safe, pure and with that finer-than-ever taste, it enriches and improves all cooking. Get the leader. Insist upon Carnation and enjoy the best.
