Andrews Bros.

The utmost in a motor fuel usually comes from a maker that knows how to produce it.

"Union Oil of California" has had an experience of more than forty-three years.

Union Gasoline

Non-detonating

Union Gasoline provides, and always has provided to Western motorists, *the non-detonating feature* which supplies full power to the pistons *throughout their entire stroke and eliminates all explosive "knocking" or "pinging" on the hills or in heavy pulling*—a quality for which Eastern motorists are now buying "special gasolines" and paying 3 cents per gallon in excess of usual prices for them. Yet Union costs no more than other high grade fuels.

Always use Aristo Motor Oil with non-detonating Union Gasoline because this combination *minimizes carbon* to the extent that motors in good condition are run for several years without it.
