### WALLOWA PERSONALS

**WALLOWA, Ore. (Special)**—U. G. Couch and wife, of La Grande, were Sunday visitors at John Couch's farm in Leap.

Ed Bell finished seeding spring grain during the past week. Mr. Bell was also busy a part of the week harrowing his winter wheat crop. A few other farmers in this section of the country have also harrowed their wheat crops recently. The absence of storms over much of the country, together with the drying winds which have blown considerably, have caused the surface of the ground to crust some, especially in fields where the grain is small.

Harrowing at a time when the crust can be pulverized is considered by many to be quite beneficial to crops, as it helps materially in holding the moisture in the soil.

Mrs. John Couch was among the Wallowa visitors the first of the week. Sam and G. C. Meek were Lodi visitors the latter part of the week.

Mrs. L. V. Lathrop and son, Quinten, were in town from their home in Leap the last of the week.

George Cussins finished seeding spring grain during the past week. Mr. Cussins and a number of other farmers in the dry farming sections of this end of the valley have seeded a few acres of sweet clover, each this spring.

Roy Gastin was visiting at the Meek home the last of the week. Ed Bell and wife were Wallowa visitors the last of the week.

Dee Gastin has been working for John Couch, of Leap, the past few days.

John Couch and nephew, Meriton Robertson, of Leap, were visitors here Saturday.

Charles Klinghammer of Leap, was a business visitor here the last of the week.

Many young ground squirrels are appearing at this time. A number of farmers who have been putting out poisoned grain recently, report excellent success in getting the young squirrels, although the old ones are not eating much.

J. R. Williams and wife left Sunday for Kelso, Wash., to bring home Mr. Williams' father and mother, who have been visiting relatives there for the past few weeks.

Mrs. H. C. Hearing completed a successful term of school in district No. 40, about four miles east of here, April 16. A considerable number of people from the surrounding country were on hand the last day with well-filled baskets of good things to eat. Several hours were spent in outdoor games, all reporting a fine time.

Local showers of rain have visited various sections of this country during the past few days. The rain apparently has been going much in streaks, as reports from lower valley Sunday were that a heavy rain fell there, while further east a few miles only a few drops were felt.

Frank Walker, L. V. and Duane Lathrop, Leap farmers, have been busy the past week seeding spring grain.

A number of farmers have commenced plowing their summer-fallow, at this time. The early spring has allowed the soil weeds to become well started and much of it is being killed by the plowing. All the fields are plowing very good at this time; however, the ground appears to be quite solid this spring and should the weather become dry, will no doubt make some very hard plowing for some before they finish.

Sam and G. C. Meek helped Roy Gastin with a paperhanging job the last of the week.

Misses Arletta and Itha Couch went to their home in Leap, Sunday, returning here for school the first of the week.

C. F. Harmon and wife, of Leap, were Enterprise visitors the last of the week. Mr. Harmon is now able to do considerable farm work, having recovered from his serious sick spell of the past winter.

Hurry slowly. Chicago woman running from cops was hit by a taxi.

It never rains but it stops.

### Horse Sense

The careless driver of days gone by had a horse to furnish the sense needed in driving.

A little horse sense nowadays would no doubt be of value not only in driving, but in other matters. The advice of others is sometimes worth the asking.
