PORTLAND, Ore., May 5 (AP)—The egg take at game commission stations has been very large this year, according to the April report of M. L. Ryan, state hatchery superintendent. Twelve million eggs have been taken at three stations alone. Diamond lake and Spencer creek contributed about 5,000,000 each and the Deschutes 2,000,000. The season is about a month ahead but the eggs are in fine condition. Ryan said. About 1,000,000 of the eggs taken at Diamond lake will be hatched there and turned back into the lake. Hatchery eggs have been distributed as follows:

From Diamond lake, 1,025,000 to Rock Creek hatchery; 649,920 to Willamette hatchery. From Spencer creek: 395,900 to Bingham Springs; 438,450 to Hood river; 751,200 to Delphi creek; 1,287,600 to Union; 514,000 to Ft. Klamath. Five hundred thousand will be hatched at Spencer creek for liberation there.

Ice skates fashioned from the bones of cattle were used in the fifth century B. C., each bone being flattened on one side along its length and perforated to admit leather ankle thong.

UPHAM AGAINST DISARMAMENT

"It is no time yet for America to lay aside all forms of military preparedness," Dr. A. H. Upham, president of Idaho university, told the crowd of state clubwomen and La Grande people that nearly filled the auditorium of the L. D. S. Lobernack last evening. In an address that he warned his hearers was made up of convictions he gathered in an unofficial capacity while on a recent tour of Europe, the speaker outlined the Old World conditions that make disarmament in this country seem to him unwise.

France and Germany, he said, look redly toward the coming of another war that they consider inevitable. England has as her reformation slogan, "Enough timber for 10 years of war." Japan is rumored to be beginning a 10-year program of preparedness, while Britshers continue to tell Americans with gusto that this country will have to fight the Japanese. The Balkan states, he went on, are a powder mount. Russia is busy in the colonies of her rivals stirring up ill will. France and Spain are right now engaged in real war with their African possessions. China is in the midst of a civil war.

"So it is hardly time to decide that because we want peace, we will have it; that because we hate war, we may throw away our arms," was his summation of the situation.

England Hardest Hit.
 "In every country in Europe, the radicals and the conservatives are utilizing existing conditions as a titling ground to fight out the world-old battle for supremacy. Fundamentally, England is the hardest hit. The two parties are forcing everybody to be extremists. Conflict allows no middle ground. "Whatever else may be said of fascism, it saved Italy from being a bolshevistic as Russia herself. Mussolini is without question the outstanding figure in Europe today. He holds Italy in the hollow of his hand. And is no small influence in the action of other countries. Italy is not suffering from the dictatorship. The Italians like to be governed. One might say they thrive under bossing."

Europe Looks to U. S.
 The nations of Europe, however indifferent America may be toward the countries abroad, are vitally conscious of the United States, the Idaho educator said. They are desperately interested in what America is doing and never lose sight of her place in the world. There is a challenge of world leadership if the young men of today care to pick it up and use it, he declared.

A. A. Smith, of Baker, a former Oregon legislator, delivered the other address on last night's program. His subject was "Better Legislation—A Challenge to Women." Commending the clubwomen on their humanitarian achievements, he called upon them not to neglect the legislation that makes for the industrial welfare or deterioration of their state. He reviewed the bills that will come up for election in November, and called their attention particularly to the measure that provides for state industrialization and control of electro-hydro plants.

Hand in Concert.
 A concert by the La Grande Municipal band furnished an enlightening overture to the session. Mrs. Sallie Ott-Dunbar, state president, expressed the appreciation of the audience, and complimented the city on its support of so fine a musical organization under so efficient a director.

The Monday Musical chorus made two much-appreciated appearances under the direction of Mrs. Joseph Hoskins. "Lotus Flower" (Schuman) and "Spring" were in the first group; "Trees" (Hanssach) and "Allah's Birthday" (Primi) composed the second.

 team. Salem will send the same number of boys and a drill team and Portland will send 100 boys with a band and two drill teams. There will probably be teams from other cities also. It is expected that between 200 and 300 boys will be in attendance at the convention.

More Cars Needed.
 More courtesy cars are also needed for the two days. If anyone has a car for this purpose they are asked to call Mr. Reynolds.

WHEAT CLIMBS BEFORE CLOSE

CHICAGO, May 5. (AP)—Nervousness over persistent dry weather in the spring wheat belt and abnormal high temperature did a good deal to bring about a late advance in wheat prices today. Predictions of serious crop damage unless rain came soon were current. Besides, indications pointed to liberal export business in progress at Winnipeg.

Wheat closed unsettled 3/4 to 1 1/2c net higher; corn unchanged to 3/4c lower and oats at 3/4 @ 3/4 @ 3/4c advance.

CHICAGO, May 5. (AP)—Although wheat prices started higher today, the market soon turned easier, initial gains ascribed to an upturn in Liverpool quotations, but increased selling here chiefly on the part of houses with southwest connections led to a reaction.

Chicago wheat opening figures 1/4 to 3/4c higher; May, new \$1.59 1/4 @ \$1.59 1/2 and July \$1.59 to \$1.59 1/2, were followed by an irregular decline to well below yesterday's finish.
