BUTTER PRICE REMAINS FIRM

PORTLAND, Ore., May 22. (AP)—No change in print butter prices over the week is hardly likely, according to local creamery men. Production has been heavy during the past week and cooler holdings have mounted steadily. On the exchange cube prices have worked fractionally lower.

Eggs eased off again at the close of the week, losing yesterday's gain. On the dairy exchange firsts are back a cent to 26 cents. Other grades held steady.

Live poultry is in poor demand, especially broilers and the market is trending lower. Receipts are liberal and some stocks will be carried over. Light broilers not wanted. Heavy broilers 20 to 23 cents. Hens unchanged.

Limited offerings of berries for the Saturday demand kept prices firm on the early growers market today. Best Oregon brought \$2 to \$2.25 right from the start but later stocks sold at \$2 to \$2.20 a crate.

PRICES TIGHTER IN WHEAT MARKET CLOSE IS NERVOUS
CHICAGO, May 22. (AP)—With eight cents a bushel margin being demanded on traders in May wheat and five cents margin on spread transactions between May and July, prices tightened up in the wheat market today after an early setback. The margins called for were five cents a bushel more than have recently been the rule, and were generally taken as indicating that the volume of outstanding unsettled accounts in the May delivery was a good deal larger than has been supposed. Crop reports from south of the Canadian boundary regarding spring wheat were apprehensive.

Wheat closed nervous, 1/2 @ 1 1/2 c. higher; corn 1/2 @ 1/2 c. down; oats unchanged to 1/2 @ 1/2 c. up, and provisions varying from 7c decline to 12c advance.
