

TRIAL FLIGHTS MEET SUCCESS

PASCO, Wash., May 28.—Traffic Manager Frank Bell reports that the first day of "deadhead" flying on the Elko-Pasco air mail route was successful. Pilot Joe Taff left the local airport promptly at 6 a. m. Tuesday and flew the first leg of the round trip to Boise. From Boise Pilot Chief Cuddeback with another plane flew the second leg to Elko. At 1:25 p. m. Pilot Price left Elko to return to Boise with the third plane. From Boise Pilot Taff brought the fourth plane into Pasco. Each leg of the round trip was made in almost half an hour less than the mail schedule. Every station was left on time.

WALLOWA PERSONALS

WALLOWA, O. (Special)—The primary election held here May 21 did not appear to attract any great attention from the voters. While a considerable number of voters were on hand to cast their ballot, many did not appear at all. A number of refreshing showers have visited this end of the country during the past few days, keeping the ground wet. The storms have not been severe enough to delay farm work to any great extent, and farmers have been making good progress with their plowing and other farm work. Roy Gastin came home from Enterprise Friday where he has been doing jury duty. He expects to return to court again the first of the week. Some of the early sowed fields of winter wheat are much further advanced than is usual at this season of the year. Some of the wheat is starting to head out, and another two weeks of warm weather will no doubt see many of the fields in full head. Spring crops of all kinds are also making a

rapid growth. James Weaver and wife, of Enterprise, who have been visiting recently at the P. A. Downing home, at Leap, returned home during the past week. H. C. Boggs finished summer-fallowing at the Minor ranch in the hills east of here the last of the week and moved his horses and machinery to his farm in Lower Valley. George Cussins was busy the last of this week branding some of his young cattle and getting them ready to take to the range in the Powawtka section. Grass on the

ranges is said to have been greatly benefited by the recent rains. Land sown with oats has been killed by the thousands where poisoned oats have been well distributed. C. W. Moore, who lives on Bear Creek, has sufficiently recovered from his recent sick spell to be able to get out again. Mr. Moore contracted pneumonia recently and was very sick for a few days. John Couch, of Leap, was a visitor here the last of the week.

New Marion?

Out California they're talking about Ruth Reynolds (above) of Coronado Beach just as Kansas City people are talking about Marion Talley. Miss Reynolds was lifted to stardom when she sang with two Metropolitan Opera stars for the Los Angeles Philharmonic Orchestra. She's now preparing for a concert tour.

THIS WOMAN DRINKS!

CRESTON, B. C. (AP)—Mrs. Nellie Langlois told the judge that she drank 268 bottles of beer and 12 bottles of hard liquor in 29 days, an average of 13 quarts of distilled spirits a day. She was arrested and fined \$300 after records showed she had purchased an unusually large quantity of liquor from a government store and search of home revealed only a small portion of it. Mrs. Langlois denied that she sold the liquor.
