AJAX^{SIX}

will be known as the

NASH

Light Six

Important!

The phenomenal success of the Ajax Six and the great size the business has attained in less than a year, with well over \$27,000,000 worth of cars already shipped, has made advisable a closer consolidation of Nash and Ajax manufacturing operations.

With this in view the Ajax Motors Company, till now a subsidiary of The Nash Motors Company, has been entirely absorbed by the parent company. And in accordance with this procedure

the name of the product, Ajax Six, is herewith changed to Nash Light Six. So that Nash models are now available in 3 Series—differing as to wheelbase but identical in their high standards of workmanship—

—the NEW Light Six series (formerly the Ajax Six); the Special Six series; and Advanced Six series;—embracing 16 different models with a price range from \$865 to \$2090 f. o. b. factory.

This announcement of the change in name from Ajax Six to Nash Light Six also marks the greatest five month period of business in Nash history.

The upward soaring demand during January, February, March, April and May drove total sales and production to a figure approximating 70% of the total sales for the whole of last year.

WILLYS
FINANCE PLAN

Smaller down payments and smaller monthly payments; the lowest credit cost in the industry

FIFTEEN months ago this Overland Six set a new standard in engineering construction. Today, with more than 92,000 in use, it has established a new standard in performance.

In value it is insurmountably the leader in its class—a light six of tremendous power and amazingly long life. In city driving it is without equal in its class for quick "getaway"—over the road at the end of the day's run, it will out-average cars of far greater price—in the mountains it will "out-climb" any other car of its size.

And today, with thousands of owners showing amazingly high mileage figures on their speedometers, it presents a service record never before reached in its class.

You can buy this Overland Six with the certainty that your investment will pay you unequalled returns in satisfaction and convenience—with the knowledge that your dollars are protected by the high value still left in your car after thousands of miles of driving.

And you can buy it on terms that are suited to your own personal requirements.
