## Presbyterian Aid Celebrates Anniversary

A delightful afternoon was spent yesterday in the community room of the First Presbyterian church by the members of the Ladies' Aid society, when a party was sponsored by Mrs. T. A. McKinstry, celebrating the first anniversary of the birthday cake, which was started a year ago by her.

A flower guessing contest was one feature of the afternoon and provided an enjoyable half hour. Mrs. O. E. Silverthorn won first prize and Mrs. Robert Eakin the second.

Mrs. J. P. Richardson, assisted by Mrs. Dick Claycomb, Mrs. G. L. Dutton, Mrs. Lynn Wright, Mrs. Oscar Pearch, Mrs. Head, Mrs. Floyd Sherwood and Misses Boss and Grace Geibel, staged some clever character stunts, which afforded a lot of fun.

After the program the ladies were served a delicious two-course luncheon. The tables were decorated with baskets of pink and lavender sweet peas, roses and snapdragons and yellow, lavender and pink candles in glass candle sticks. Clever little favors, carrying out the pink and lavender color scheme, were candy baskets and flowers.

After the party a vote of thanks was given Mrs. McKinstry.

It was decided during the afternoon that the money for the birthday cake would be used to buy flowers and magazines for the lonesome sick.

## Cravat Scarf

A new scarf seen at Cannes is of plain silk fringed at the edges, long and narrow and worn cravat fashion.

## Delicate Fur

Newer than catfolds with the fur left on is this bag of large proportions made of unborn calf with its delicate fur shades from red brown to soft tan and is trimmed with dark brown suede.

## American Cannot Visit In Irish Free State

DUBLIN, May 25 (AP)—Charles Edward Russell, American socialist, was refused permission to land in England unless he would give a guarantee not to visit the Irish Free State, the secretary of the mirror of justice said today.

The reason for this requirement, the secretary said, was that Russell's name was connected in papers seized on Patrick Garland, a New York man, who was arrested in April as he landed at Queenstown. These papers, the secretary said, stated that Russell was to visit Ireland in May. The papers recommended Russell to the irregulars and indicated that he was coming to Ireland with an unfriendly object toward the Free State, the secretary said.

## HORSE TRAMPLES CHILD

RENO, Nev. (AP)—Edna Altan, 9, of Fallon, northeast of here, was found trampled to death by her father shortly after she had started to lead a horse across a field. The child had tied the halter chain about her waist and was apparently instantly killed when the animal bolted.

With Pilsudski and Wajelchowski fighting around Warsaw it looks like a hard summer on our alphabet.

We've read so much news about the north pole we got mad because the cook didn't have blubber and gumdrops for dinner.

## She's a Winner

Elta Cartwright, winner of the 50 yard dash in a recent girls' track and field meet out on the Pacific coast. Her performance was one of the sensations of the carnival. Elta will probably be seen in the east this summer as a member of the far western aggregation scheduled to compete in a national meet.

## '15,000 and a Job in the Movies

Teddy Winslow, 18, won a beauty contest in Los Angeles. More than a hundred girls competed. And the prize was \$15,000 in cash and a movie contract.

## Sister Mary Says:

Breakfast—Baked rhubarb, cereal, thin cream, crisp broiled bacon, soft cooked eggs, crisp whole wheat toast, milk, coffee.

Luncheon—Cream of onion soup, bread sticks, beet greens with tiny buttered beets, brown bread, vanilla cookies, milk, tea.

Dinner—Broiled hamburger steak, fried potatoes, asparagus in cream, new cabbage salad, cream puffs with strawberry filling, whole wheat bread, milk, coffee.

If the hamburger steak is made into flat little cakes after seasoning and bound with a narrow strip of bacon the dish might well be named mock filet mignon. Then if the "filets" are served on the best platter and garnished with sprigs of parsley the family will respond to the suggestion and everybody will be happy.

**Bread Sticks**  
One-half compressed yeast cake, 1/2 cup lukewarm water, 1 cup scalded milk, 3 cups flour (about), 2 teaspoons sugar, 1/2 teaspoon salt, 1 tablespoon melted butter, 1 egg white.

Soften yeast in water. Scald milk and when lukewarm add softened yeast. Add 1 1/2 cups flour, beating with a large spoon until mixture is smooth. Cover and let stand in a warm place until light. The temperature should be about 75 degrees F. Add sugar, salt and butter, white of egg beaten until light and about 2 cups of flour.

The dough should be as soft as can be handled. Turn onto a well-floured board and knead until elastic. Cover and let rise until double in bulk. Cut off small pieces about the size of an English walnut when rolled into balls.

Roll these balls under the palm of the hand on a well floured board into strips about 1/4 inch thick making them round. Place on a buttered baking sheet and let rise in a warm place until double in size. Bake 15 minutes in a hot oven.—Copyright, 1926, NEA Service, Inc.

## AIRMEN LEAVE NURSES' CARE

MARSHFIELD, Ore., May 25. (AP)—Lieutenant W. M. Dillon and H. L. Volk, mechanic, of plane number 2 of the U. S. naval Alaska mapping expedition, injured yesterday when the plane dived into Coos Bay left the hospital here today and went aboard the aircraft tender Gannet.

A. K. Peterson, chief photographer of the expedition, who suffered a fractured jaw, remained at the hospital here.

Planes one and three will resume their northward flight this afternoon at 1 p. m., hopping off for Seattle. The wrecked plane today was put aboard the tender Gannet which will follow the planes. Plane number three had been taken aboard the Gannet yesterday at Eureka, Cal., for minor repairs.

Lieut. Dillon and mechanic Volk will proceed aboard the tender. Lieut. Dillon was suffering today from a slightly strained back. One of Volk's eyes was badly torn and swollen, but physicians at the hospital here said he would not lose the sight of the eye.

## GET MARRIED

MUIR FIELD—Young man if you want to attain the heights of golfdom, get married. Bobby Jones did not win the American amateur title till he was a husband. Jess Sweetser is now on his honeymoon.

## CHINESE GAMBLER DEAD

NEW YORK—Ah Foon is dead, leaving a fortune amassed from picking them right at the New York and Maryland tracks. So successful was the dapper, Chinese in laying thousands that white men tried to follow his choices.

Canadian government surveyors, exploring the Northwest Territories last summer, came upon a hitherto unknown lake seventy-five miles long and fifty miles wide.

## Sport Waits Upon Beauty

Hollywood girls tired of watching men players, so organized their own baseball team. Everything's great until some girl like the pretty Miss Nita Cavalier wants time off to save her complexion. Catcher Marie Wallace is patient—she'll have her chance later.

## Complexions Feature A Pallor

LONDON, May 23. (AP)—Complexions which give the face a transparent hue and an ivory pallor have come into favor here.

The vogue came up along with the breath of spring, from the Riviera where the evening hour of the toilet is devoted to obliterating the effects of the sun and the sea.

London ballrooms from the tea time forward have become full of pale young women who appear with mysterious shadows around their eyes. The first object of a make-up now is to have the face as striking as possible in a pale interesting way, say the beauty doctors. It must not be beautiful, but it must be arresting. A new powder is of a shade of green, made for fair women—it makes them appear fairer and paler than ever.

For the brunettes there is a powder of orchid color to be used with a little rouge on a deep dull red.

## Prince Views Capital Before Making Speech

WASHINGTON, May 29 (AP).—Leaving his high hat and long coat at the Swedish legation, Crown Prince Gustavus Adolphus swung out unattended today on his program of seeing the sights of Washington.

The crown prince donned a blue business suit and a derby hat for his round of activities prior to his participation in the exercises incident to the dedication of the memorial this afternoon to John Ericsson, inventor of the ironclad ship Monitor.

Crown Princess Louise Alexander decided to abandon the program arranged for the forenoon, and rest in preparation for the dedication.

Gasoline is often used for cleaning purposes, but whatever else it may be used for it still will clean the pocket book.

## PIANO MUST BE SOLD

Will sacrifice high-grade piano in storage near here for immediate sale. Will give easy terms to an established home. For full particulars and where it can be seen, address Portland Music Co., 227 5th St., Portland, Ore.

## KING GEORGE IS FRANK

LONDON—King George is a loyal host, but very frank. Welcoming United States marksmen at Buckingham Palace, he said: "You don't expect me to say I hope you will win. But I do hope the match will be very close."

Fifty thousand Americans, 60,000 Germans and 34,000 Englishmen now reside in France.

## DICK CATCHES COLD

LONDON—Dick Byrd, who didn't even shiver when he flew over the north pole, has caught cold in the hot weather of London.

## SMOKING CIGARS

NEW HAVEN—The boys at Yale are giving up effeminate cigarettes and are smoking cigars.

Minerva Says--- Ill Smelling, Perspiring Feet This condition is not always due to uncleanness of the feet, but usually to a decomposition of the acids and secreted fats which accumulate, making the feet very sensitive and painful, especially on the sole and between the toes.

First bathe the feet well, using Dr. Scholl's Foot Soap (Granulated) to stimulate skin action and circulation and to remove all impurities from the pores of the skin. Then carefully rinse with clean water, dry thoroughly and massage with Dr. Scholl's Foot Balm. This tones up the tissues and muscles and leaves the feet perfectly comfortable and healthy.

In severe cases the above treatment should be used every day. Light, cool, dry shoes should be worn and before putting on the stocking Dr. Scholl's Foot Powder should be carefully rubbed over the foot and shaken into the stocking.

Probably You've Heard This One It Has a Point

Once upon a time, not so many years ago—the directors of a newly organized company held a very important meeting.

They were deciding whether to charge \$1 or \$5 for a patented article which the company was about to put on the market.

All the evidence indicated that they could profitably market the article for \$1.

Nevertheless they set the price at \$5 and maintained it at \$5 until patents expired.

This article undoubtedly saved its cost two or three times a year—and it lasts ten to twenty years. Therefore, men have asserted that the price was fair, that the inventor and investors who made this article available to the public were entitled to a goodly return.

We do not venture to discuss this point—but what we do wish to point out is this—IF THAT COMPANY HAD BEEN A PUBLIC UTILITY, IT COULD NOT HAVE CHARGED \$5.
