Giant Carnivorous lizards, twenty-one feet long, which fight with their tails, so terrorize the natives of the Dutch East Indies, that no live specimens have ever been captured.

When 200,000 acres of grain in the San Joaquin Valley, California, were threatened from lack of rainfall, the growers offered a rainmaker the yield of 600 acres if he could "produce" rain. Immediately thereafter the heaviest rainfall of the season occurred.

Ex-Prisoner Tells of Paying for Freedom

CHICAGO, May 31. (AP. Thomas Sullivan, 24, arrested here on suspicion of being a safe cracker, told the police that while serving a sentence in Joliet prison under the name of Thomas Ivers he was permitted to escape with visitors by the payment of $1,200 through a friend, who arranged the plan.

Sullivan declared that $1,000 was to go to a prison official and $200 to a friend.

Dray horses passing through a big puddle of water in a Boston street suddenly jumped about in lively fashion. Investigation revealed that a short-circuited electric conduit had given the puddle a charge of 120 volts.

Figures compiled by the Federal Reserve Bank of Boston, a short time ago, showed that installment accounts outstanding there were 110 per cent above those of the previous year.

La Grande Theatres

"Social Celebrity" At the Arcade Stars Adolphe

Say what you will, Adolph Menjou in his latest Paramount, "A Social Celebrity," which is showing at the Arcade theater today and Tuesday has a mighty fine supporting cast.

Chester Conklin, that gifted comedian and character actor, is seen as the star's father, an old barber, whose hopes and ambitions are all founded in his son. Louise Brooks, a little girl who suddenly sprank into fame through her dancing in the stage production of "Louie the 14th," and who was awarded a role in "The American Venus" has the second featured role. Miss Brooks is the little manicurist with whom Menjou is in love, but who later becomes a musical comedy star.

The star is seen as a small town barber who goes to New York, and, after many thrills, tribulations and funny adventures finally achieves his dreams—a magnificent beauty parlor.

Malcolm St. Clair who directed Menjou's picture, "The Grand Dutchess and the Waiter," wins new honors because of his masterful direction in this new film. Monte Katterjohn wrote the original screen story. It was adopted to the screen by Pierre Collings.

Also included in the cast are Josephine Drake, formerly a stage player of leading roles, Elsie Lawson, who appeared in "Dancing Mothers," Freeman Wood, Roger Davis and Hugh Huntley.

"Seventh Bandit" With Harry Carey Coming to Star

There have been pictures that contained bigger sets, bigger casts and bigger everything else that they cram into pictures nowadays so that they can call them "bigger and better" pictures, but dramatic moments don't come any bigger or better than one that comes near by end of the very interesting, absorbing and thrilling Harry Carey feature, "The Seventh Bandit" which will be the attraction at the Star theater Tuesday and Wednesday.

Imagine a man who has risked everything—his honor and his life—to track down the cold-blooded slayer of his brother. Imagine him finding him at last, and, while he covers him iwth his six-shooter while someone rides furiously for the sheriff, his sight slowly fades away! Robbed, but his moment of victory, by a relentless Fate! This is a scene that makes you numb with its sheer tensity. How the scene develops should be left for your enjoyment when you go to see "The Seventh Bandit" which you surely must, for it is one of the best Westerns that has flickered across the screen in many months.

Harry Carey is the seventh bandit. He becomes such to get his man, who is not only the proprietor of the "First Chance" saloon and dance hall, but the leader of the bandit gang that has been terrorizing the countryside. Harriett Hammond is very exquisite and womanly as the lady doctor who first thrills to the hero when he drives her stage coach through the barrage of a bandit attack. Trilby Clark is most appealing as the little dancehall girl for whose love the hero's brother sacrificed his life. The brother is sympathetically portrayed by James Morrison, and Walter James is smooth as the villain. Scott Dunlap's direction shows a fine sense of emotional values.

What's in a name? Two army officers were arrested at Fort Crook.

Russell Scores in Fighting Role With Mary Carr

There is something beside acting in the appearance of William Russell as the professional man of the prize ring in his latest picture, "Big Pal," at Sherrys theater. The audience sensed it immediately. Analyzed, this other ingredient becomes naturalness. Russell, you see, was one time amateur light heavyweight champion.

He appears to be at home in the atmosphere of the story at every point, whether in the humble home of his mother (Mary Carr), or in the glare of the lights in the squared circle. Russell gives a more than creditable performance and the work of his colleagues goes for to make "Big Pal" one of the best pictures that has come from the Royal studio this season.

Mary Carr, always remembered for her remarkable work in "Over the Hill," is the same, sweet-tempered old mother in "Big Pal." Others in the cast who give excellent account of themselves are Julanne Johnston, "Mickey" Bennets and William Bailey.

The story tells of a fighter who is tempted by crooked gamblers to throw a fight. They fail on two counts. The inherent honesty that his mother has instilled in the boy leads him to beat temptation and whip his adversary in as realistic a screen battle as ever has been photographed.

"Big Pal" doesn't point a moral. It just tells a darn good story and tells it in a way as to appeal to every square-shooter in the house.

THE SWEETEST SWEET CORN

Cold, backward springs have delayed safe sweet-corn planting for the last two years but all through June is good sweet-corn planting time and the finest quality sweet corn comes from late planting when its entire growth is carried on in warm weather. Sweet corn may be planted at ten-day intervals—until mid-July for a continuous supply. The later it gets the earlier the variety to be planted.

Just now the longer season varieties can be put in with a final planting of Golden Bantam and Mujakoff or other extra early kinds to top off the season and mature before frost sets in. Corn can't have too rich soil. Give it the best you have in the sunniest spot and if no manure supply is handy, pulverized sheep manure can be secured from any seed house or from stock-yard firms to spade in or spread about the roots of the corn to be leached in by rains. It is the handiest and most available modern fertilizer and adds something to the soil which chemical fertilizers do not.

The lesson of planting corn in squares to get fuller ears cannot be too thoroughly emphasized, a common sense discovery of scientific gardeners and experiment station workers. A square planting equalizes the distribution of the pollen or dust from the tassels without which deposited upon the silk there can be no corn. The pollen is sifted over the patch with every shift of the wind. In long narrow plantings half of it is wasted.

Cultivat corn on the surface. Do not hoe deeply as it is a surface rooter and chopping too deeply injures the roots which radiate like spokes of a wheel. Hill up as soon as a foot to give support to the auxiliary roots which start out from the lower joints to anchor the plant and produce extra nourishment. The hilling encourages this growth.

Cats' and Dogs' Burial Ground to Be Secured

SACRAMENTO, Cal., May 31. (AP)—Famous cats and dogs of the films soon will be provided with a cemetery near Hollywood, where, with other pet animals of wealth and prominence, they may enjoy their last sleep amid surroundings in keeping with their station. Such a cemetery is the aim of the pet animal memorial association of Los Angeles, which filed articles of incorporation with the secretary of state today. The concern is capitalized at $25,000.
