

# For Better Homes

## REMODELING WORK BEGINS

In anticipation of the usual increase in enrollment at the high school when the term begins September 6, several rearrangements and slight remodeling are being made that are expected to provide the necessities of building for the next two or three years.

Room No. 15, which the old grads will remember as the original study hall on the second floor, has been divided into two classrooms.

The science office, which has housed the science teacher's desk and supplies, has been connected with the principal's office. Hereafter the two rooms will serve as outer and private offices of E. D. Lewis, principal. Students will report there next year instead of at the general school office across the hall.

Material stored in the old science office has been transferred to what has been used as a jack room workshop. The science department desk has been moved into the laboratory.

One large chemistry table has been taken to the physics laboratory, and the chemistry laboratory has been so arranged that desks there can be used for recitations of that department and others when the place is not in laboratory use.

"With these changes, we will be able to use our facilities to the greatest extent—on the principle that in order to use them efficiently, we must use them all every day of every day in the week," Superintendent J. T. Longfellow sums up the situation.

The remodeling will be completed in a couple of weeks, he estimates. The buildings were given a fairly good cleaning at the close of the term, but the

## Permits

June 1—Permit issued to Otto W. Gerber to alter and repair a home on Seventh street between Pennsylvania and O. work to cost \$2000.

June 4—Permit issued to J. W. Lundy to alter and repair a dwelling on E between Sixth and Seventh street, work to cost \$200.

June 4—Permit issued to August Moser to erect a woodshed on Washington between Spruce and Maple to cost \$100.

**DON'T FORGET WOODLIFT**  
Unless the new house is wired for an electric range and a wood and coal stove will not be used in the kitchen, a woodlift from the basement into the kitchen or a nearby hallway, is almost indispensable. The construction is simple and inexpensive and it pays for itself in saving human labor and energy hundreds of times over.

**UTILIZING SPACE**  
Especially in the smaller homes, every bit of space counts. In the kitchen, compartments under the breakfast nook, provide places to store many articles—from groceries to linens.

**PASTOR SCORES CHURCHMEN**  
NEW YORK (AP)—Dr. John Roach Straton, in his Sunday sermon, said that Earl Carroll's "tenth tub party" was attended "by some well known church people, who were responsible for the whole thing."

thorough renovation will be withheld until just before school begins in the fall.

By opening the autumn term September 6, it will be possible to disband a school a week earlier next spring, for the accommodation of rural pupils, the superintendent explains.

## PERRY PERSONALS

**PERRY (Special)**—Mrs. Leonard Northcott, visited Mrs. Zarah Murray one day last week.

Mrs. L. W. Robertson and daughter, Fern, were shopping in La Grande Wednesday.

**Mrs. H. W. Smith** was a recent visitor to La Grande.

Ole Mathson and wife were business visitors to La Grande Thursday.

Guy Tripp and family made a trip to La Grande one day last week.

Mrs. Walter Martin visited Mrs. Esther Hansen recently.

Mrs. A. Stephenson and daughter were La Grande visitors last Saturday.

Opal Heikel is visiting her sister, Mrs. Dora Murray, this week.

Mrs. Nell Robertson visited her daughter, Milda, Thursday afternoon.

Mrs. George Robertson, Mrs. C. C. Johanson, Robert Turner and family, Guy Tripp and wife, Harvey Larson and family and Mrs. L. W. Robertson and Bertha and Lois Dean, and Mrs. Walter Martin were among the Perry people who attended the plays given by the L. D. S. Relief society at La Grande Wednesday evening.

C. E. Gray was a recent La Grande visitor.

## EASTERN OREGON STUDENTS TO AID UNIVERSITY PLAN

**UNIVERSITY OF OREGON**, Eugene, Ore., June 7. (Special)—Grant, Baker, Willowa, and Union counties, are represented by 12 students on the greater Oregon committee which is to function during the summer in order to attract the more desirable students to the university and to help make the semi-centennial celebration, October 18-23, a state-wide event.

The purpose of the committee, it is stated, is not to get the largest number of students from Grant, Baker, Willowa and Union counties, but to get the best quality, those who will benefit most by university training and are best fitted to take the work. The committee, according to Virgil Earl, director of athletics, who is helping in the organization, opens a new era in the university's effort to bring desirable material to the campus.

"We are striving this year, not so much quantity as quality of the man and woman whom we will visit," he pointed out.

George Hill, of Baker, is general chairman of this district. He will be assisted by Myra Bell Palmer, Clara Ellis, Robert Nelson, Ted Gurney, Garland Meader, Pauline

**ATHENS (AP)**—When you go ahead this summer, take along an extra five dollars. The Greek government is charging that sum to tourists desiring to see the famous Parthenon. Sixty per cent of the visitors are Americans.

## YEP, IT'S HARD TO TEACH 'EM NEW TRICKS

## Here And There

**PORTLAND**—Oregon-Washington Sugar company plans \$1,250,000 refinery here.

**SALEM**—Plans completed for \$450,000 10-story First National bank building.

**BURNS**—More than 100 new homes have been built here in 18 months.

**ALBERTA**—Northwestern Electric company will build \$25,000 substation here.

**BURNS**—Plans being made for new \$85,000 hotel.

**PORTLAND**—Pacific Telephone & Telegraph company will spend \$200,000 on city office building.

**KLAMATH FALLS**—Building permits totalling \$78,800 issued in one week.

**RAINIER**—"Review" newspaper plant moves to its newly-built office.

**SHERIDAN**—Cornerstone laid for Legion memorial building.

**ASTORIA**—Presbyterians will build new \$85,000 church.

**A WELL KEPT LAWN**  
Beautiful surroundings add much to the beauty of the home. A well kept lawn and appropriate shrubbery, placed so as to set off the buildings to the best advantage and to soften sharp lines, not only makes the place more attractive but actually adds to its sale value.

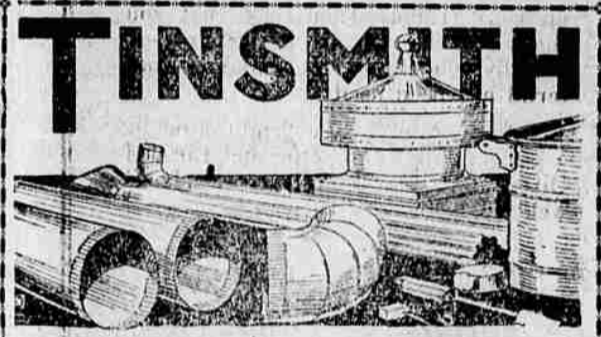

The lawn will not be at its best until the second year but constant care—weeping, correct mowing, and constant sprinkling—will assure one of firm sod by the second season. Shrubbery, too, takes about two years to get well started.

Stewart, Douglas Wilson, Edith Shell, Illus Ames, Thelma Kitchen and Bill Haggerty.
