# HEADACHE JUST NEARLY DROVE HIM DISTRACTED

**Portland Man Also Suffered From Indigestion And a Rundown Condition, But Karnak Soon Put Him on the Road to Recovery Again.**

"Do you know it was just all I could do to drag myself down to the drug store to get my first bottle of Karnak but now since I have taken three bottles of the medicine I have more pep and energy than I have had before in many a day," says Louis Lobner, of 882 E. 7th St., N., Portland, Ore.

"For some time I had been running down hill gradually and about a month ago I gave up altogether and had to stop work," continues Mr. Lobner. "I dieted very carefully, but nothing seemed to agree with me and I felt so miserable I didn't know what to do.

"Sleep was almost out of the question, and I had awful headaches that just seemed to stay with me night and day. I tell you they just almost drove me distracted, and I wasn't able to find anything that seemed to reach my case.

"But since I have been taking Karnak I have been sleeping better than ever and mornings I get up refreshed and good for the day. My appetite has improved wonderfully and I eat most everything on the table now. Those awful headaches are gone, my head is clear as a bell, and I have gained in weight and just feel the good of Karnak all through my body. After suffering like I did it certainly is wonderful to get the remarkable benefits that Karnak has brought me, and I can't say half enough for it."

Karnak is sold in La Grande by the L. & L. Drug Co., and by leading druggists everywhere.

### General Motors Climb To New High Record

NEW YORK, July 6. (AP)—Establishment of a new high record for all time by the present no par commission on stock of the General Motors corporation at 151 1/2 or 4 points above last Friday's close, featured the resumption of trading today after the three day stock market holiday. A strong undertone was apparent throughout the list with steel, motor, chemical and public utility shares giving the best demonstrations of group strength. Trading was not as brisk, however, as in the closing days of last week. The closing was firm total sales approximating 1,250,000 shares.

### Wheat Prices Advance Following Crop Tidings

CHICAGO, July 6. (AP)—Wheat prices showed a sharp advance today largely on account of unfavorable crop reports from the American northwest. Hot dry weather prevailed, and estimates were current that North Dakota would not raise more than 85,000,000 bushels and South Dakota 100,000,000 bushels, totals heavily short of last year's figures. Export sales since Friday amounted to 1,500,000 bushels.

Wheat closed firm, 2 1/2 to 2 3/4c net higher, corn 1/2 to 1 1/2c up, oats at 1/2 to 1/4c gain and provisions unchanged to 2 1/2c down.

### Breach of Promise Judgment Is Quashed

SALEM, Ore., July 6. (AP)—A breach of promise judgment obtained by Adela Vauk of Portland against Dr. Fred V. Patterson of that city, was quashed by the supreme court today in reversing the decree of Judge George Rossman, of the lower court for Multnomah county. The opinion was written by Justice Burnett. The case did not involve any element of seduction. The woman was allowed \$5000 and costs in the lower courts.

A slander judgment of \$20,000 obtained by Dr. H. S. Mount, of Oregon City, against Dr. O. A. Welsh and other physicians of that city is cut to \$5000 in an opinion of the supreme court modifying the decree of Judge Robert G. Morrow, who presided in the lower court for Clackamas county. The case arose out of a protest by the other physicians against the county paying an autopsy fee to Mount. The letter of protest was published and was followed by the slander suit.

## PRODUCTION IS PAST ITS PEAK

PORTLAND, Ore., July 6. (AP)—Production of dairy produce in this territory has passed the peak for this season, according to a statistical report just released by R. L. Ringer, local representative of the department of agriculture.

Figures on last month's dairy receipts in Portland show a declining falling off in butter, eggs and cheese as compared with April and May.

On the other hand local storage holdings have increased in all lines during the month, denoting a falling off in the demand from other sections which in previous months were busy filling their storages from the surplus production here.

The total butter received here during June was \$1,241,536 pounds as compared with 1,289,467 pounds

In May. June showed a slight increase in the receipts of surplus culms from country creameries and a considerable falling off in the "milk" of local country creameries.

Egg production is decidedly on the down grade now. Total receipts for June were 26,661 cases as compared with 35,267 cases in May and 29,535 cases in April.

Cheese production has fallen off also. There was 368,023 pounds of triplets received and 66,807 pounds of American loaf, a total decrease in the two kinds of over 75,000 pounds.

The local butter market is weak and unsettled and a decline in print prices is not far distant. Cubes are unchanged over the holidays but there is no snap to the trade. Storage stocks too, have reached a stage where the rapid accumulations cannot be ignored longer. Board prices today on cubes: extras 37 1/2c; standards 36 1/2c; standards 36 1/2c; prime firsts 35 1/2c firsts 34c; prints 41c; with buying prices of fats ranging from 39c in the country to 41c in Portland.

Egg prices are steady and unchanged with the local market still marking time.

New crop hay is arriving on the local team tracks now in sufficient
