MAKING A STRONG LEADER—The Lord said: "Charge Joshua and encourage him and strengthen him."—Deut. 3:26, 28

18 BODIES TAKEN FROM SUBMARINE; 12 ARE IDENTIFIED

NEW YORK, July 10 (AP)—The mass of tangled, rusted machinery that now is in the interior of the submarine S-51, is giving up the dead bodies of the valiant men who perished when the submarine sunk in collision last September in Long Island Sound. After the identification of 12 of the 18 bodies recovered in the day's exploration of the interior of the craft at the Brooklyn navy yard, further endeavors were suspended to be resumed today. The condition of the machinery will be reported by naval officers to a board of inquiry. Beyond the facts that the ship's apparatus showed that everything had been done to avoid collision with the Rhode Island none of the officers connected with the investigation would comment upon the condition of the vessel's interior. Twelve bodies had been identified this morning.

President Coolidge has made a public statement expressing sympathy with the families of the crew of the vessel.

MOTOR DEATHS.

The total fatalities caused by motor accidents in 78 of the largest cities of the United States reached 549 in the four-week period from May 19 to June 17. Last year the number was 493, so there was a good-sized gain. In some cities, however, where very strong efforts have been made to reduce accidents, the totals have dropped. In Cleveland, for instance, there were 15 automobile deaths in the period as compared with 18 a year ago. Such percentages must be considered, also, in relation to the growth in number of automobiles on the streets. A great many accidents come from the inexperienced driver and his overpacked car. The driver who has been at it a good while and understands the hazards of traffic never fills his car to the brim with chattering joy-riders. He allows plenty of room for manipulating his own gears, and he demands silence on the part of his passengers at points where there are especial difficulties.

BELCHINGS OF VOLCANO DESCRIBED

(Continued from Page 1)

studied and photographed Bogoslov, one of the most remarkable volcanoes in the world, with a record for pushing peaks up out of the sea at regular intervals or swallowing them up. The Westward was cruising along the Aleutian chain when we approached Bogoslov, lying in uncharted waters in the deepest part of Bering sea. The Westward nosed cautiously around the steaming island taking soundings and made her way into a small circular bay on the west side. Her anchor was dropped into a crater where the water was sulphur colored and warm and over this spot we remained uneasily two days and nights. No plant life was to be found on the island but in spite of all the volcanic action we found Bogoslov has probably the largest colony of parrot murr (a sea bird) and the largest iron rockeries in the north.

On two large rock surfaces several acres in extent and several hundred feet high, which remain on each end of Bogoslov, sea birds live about steaming holes in the ground and when disturbed they started up wending showers of rocks and shale over the cameramen who jumped to safety. We found steaming pits and ovens of hot rocks for cooking purposes and a lagoon for hot sulphur baths.

LONG TERM LOOMS FOR M. J. DURKIN

that the fact that Shamshan was a federal agent weighed heavily with them in their decision.

Mrs. Hettie Durkin, the boy's mother, and his sisters, Lucille, 17, and Ann, 14, were stunned by the verdict, and they sobbed on the benches where they had slept all night. The father was not in court.

NO CHANGE IN BUTTER, EGGS

PORTLAND, Ore., July 10. (AP)—No change was made in butter and egg quotations on the local dairy board at the close of the week but the markets are far from steady. Butter especially is weak and in liberal supply with a decline in price pending. Eggs closed fairly steady with a good demand for fancy, fresh stock. Receipts were liberal yesterday at 1960 cases. Butter make, too, is heavy both in the city and at country creameries.

Country dressed meats closed firm and fractionally higher; demand is strong for choice light veal and hogs with top calves moving rapidly at 17c and top hogs at 20c.

Portland millers today announced a general advance in flour prices effective at once. Family patents, graham and whole wheat flours are up 40 cents a barrel. All baker's grades and rye flour advanced 20c a barrel.

The street was bare of heavy hogs and springs today and prices were firm. Light fowls were in more plentiful supply and the market was easier. Heavy hogs quoted at 26 to 27c with heavy springs at 25 to 26c.

Stock Prices Resume Upward Trend Today

NEW YORK, July 10. (AP)—Stock prices resumed their upward movement in today's brief session in spite of earlier attempts of bear traders to unsettle the list by hammering some of the popular industrial and specialties. Trading was relatively light in volume, due to the absence of many professional traders over the week end.

The closing was firm. Total sales approximated 550,000 shares.

FILES NEW RATES

SALEM, Ore., July 10. (AP)—The Southern Pacific company has filed with the public service commission through joint passenger rates with the Oregon California and Eastern from all points on the Southern Pacific and one way fare from Portland to Points on the O. C. and E.

COSHOW ON TRIP

SALEM, Ore., July 10. (AP)—Justice O. P. Coshow, of the supreme court, will leave today for Denver to attend a session of the American Bar association. He will then go to Clinton, Iowa, to visit relatives, returning to Salem by way of Seattle about August 1.

BALE EXAMS SET

SALEM, Ore., July 10. (AP)—The state bar examinations will be held here next Tuesday and Wednesday, with 75 or 80 applicants taking the tests. The examinations will be given in the senate chamber.

New Chain Store Will Be Opened in La Grande

A Spruase-Reitz chain store will soon occupy the part of the Roesch building recently vacated by the Grocceteria. John Mars is at work this week partitioning off the room from the meat market that has adjoined it, and later will remodel the front, installing a section doorway after the style of other entrances in the block.

The Spruase-Reitz company, which has headquarters in Portland, deals in general merchandise articles priced from one to 49 cents.

The new store is expected to be ready for business by the first of August.

WHEAT CLOSES LOWER; TWO FACTORS IN DROP

CHICAGO, July 10. (AP)—Better conditions in the northwest and relative weakness of Liverpool quotations had a bearish effect today on the Chicago wheat market. However, evening up of accounts so as to be ready for any surprise in the government crop report due this afternoon tended to steady wheat near the last. Crop reports from the northwest were generally pessimistic with a tendency shown to reduce estimates on yields.

Wheat closed easy 3/4 to 1c net lower; corn 1/4 to 1/2c down; oats 1/4 to 1/2c off and provisions varying from 15c decline to 7c advance.
