

**Our Service Is  
More Than  
Selling Furniture**

Furniture represents an investment that should last for a life-time of comfort and good looks. It is bought with the idea of a more attractive, more convenient home in mind—and our service goes beyond the mere selling of suites, pieces, rugs, etc.

We are concerned with making your home the pleasant place you wish it to be. In our buying we prefer giving attention to those things that will wear well, that will look best and give the greatest comfort rather than those that will sell most rapidly. Our reputation for Superior Quality, for careful, pleasant service can be depended on regardless of your needs.

**Distinctive Furniture**

**Appropriate  
Rugs**

The secret of many lovely interiors is found in the appropriate, carefully chosen rugs that adorn the floors. The color tones, the variety of design, the wearing quality—these are points that must be given attention in selecting rugs that will set off the rest of the room to the best advantage.

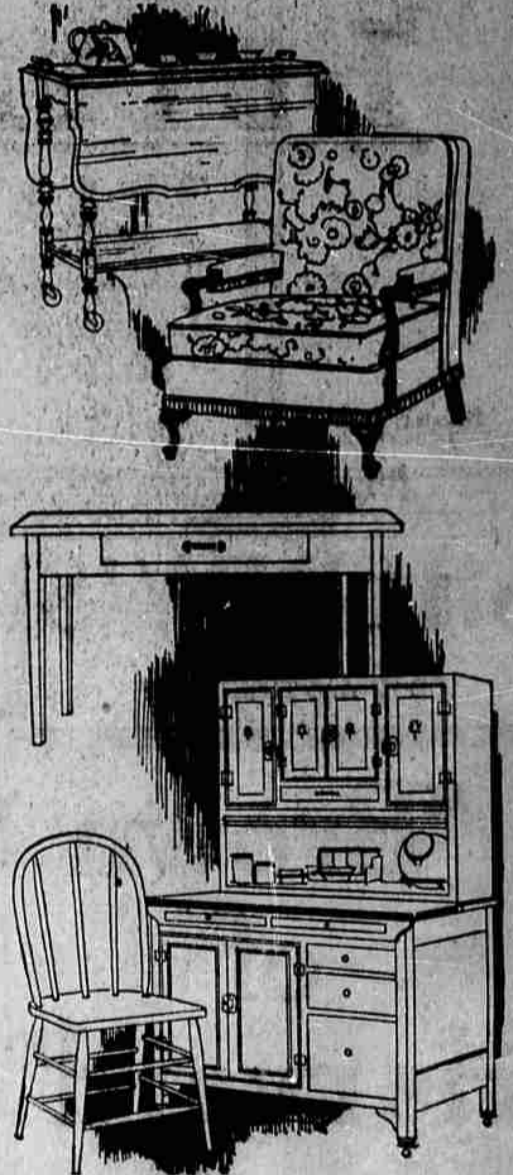

Our rug display now is unusually choice—the work of designers and makers that insure lasting beauty and taste. Plain tones as well as figured designs—and many at very attractive prices.

**Correct Furniture  
The Foundation Of  
Attractive Interiors**

Even the finest, most artistically planned interiors fail to make an attractive, comfortable home without correctly selected furniture to make the effect complete. In his lecture tomorrow at The Observer's Institute Mr. Jakway, expert interior decorator, cannot fail to point out the importance of buying lasting quality and good design whether the pieces be simple and inexpensive or elaborate in detail.

For many years the reputation of Bohnenkamp's Superior Furniture has been recognized and appreciated by women of the La Grande territory who have good taste in home-making and who desire the type of attractive home that will be a source of pride to them—and a source of pleasure to their friends. We are proud, too, and jealous of that reputation.

No matter how modest or how splendid your home may be, you can readily find in our stock the appropriate furnishings needed to satisfy both good taste and carefully planned budgets. Four complete floors are devoted to furniture exclusively—a wide choice of newest American and period designs from nationally known makers. And the convenient terms of purchase makes it both easy and attractive for you to select now. Let us show you at your convenience.

**Occasional  
Pieces**

In following Mr. Jakway's suggestions for better interiors you will often find that the proper effect can be given with one occasional piece of furniture—just the thing needed to complete a group or to provide color harmony.

We have many special pieces that will interest you—odd chairs, occasional tables, lovely mirrors, overstuffed ottomans. The expenditure will be small—and we will be glad to help you with your problem.
