There are thousands of ways in which you can increase the mileage on your tires and your CTC dealer will be glad to check your tires free of charge every few weeks to help you. This you should have done in the interest of simple economy, whether you enter the contest or not.

The principal things to avoid and check against are spring sales and shock mounting of tires which are essential to the life of your tires. Do not drive on front wheels—inner bushings—do not skid—do not drive on rough roads—do not drive at high rates of speed around curves. There are all causes of long tread wear. Also avoid as much as possible hitting with loose rocks, curbs and so on, and lastly keep your tires properly inflated. Your CTC dealer will supply you with one of our charts, showing correct inflation for each type of tire we make and the recommended load per wheel.

"CATERPILLAR" Pledge Fullfiled

When the Caterpillar Tractor Company was organized to succeed the C. L. Best Tractor Company and the Holt Manufacturing Company a promise was made that better "Caterpillar" Tractors would be built and the prices would be reduced.

The late model "Caterpillars" represent the most efficient unit possible in the light of present engineering knowledge and the recent price reductions tend to further enhance "Caterpillar" value.
