

RADIO STRIKE CALL ISSUED

CHICAGO, July 24, (AP)—A nation-wide radio "strike" call against what is termed "unfair" stations, now known as air pirates, was issued today by the Broadcasters' association of America. Receiver owners were advised not to listen to stations which jump their wave lengths or increase their power.

The announcement stated that the action was taken as a result of the relinquishment of control over broadcast radio by the department of commerce. It urged R. L. A. members "in all parts of the United States to go on strike immediately against all unfair stations by refusing to listen to them, any time under any circumstances. Unfair stations are the ones now known as air pirates—the station that jumps its waveband originally allotted or which increased their power granted it."

The association stated that the strikers would be furnished with a list of "unfair" stations. A previous strike conducted through the organization a year ago brought agreement by all Chicago-area broadcasters to observe "silent night" by remaining off the air each Monday night.

"LIKE RED SHREDDED WHEAT"

These shot iron storehouses at the Point Army Arsenal piled full of heavy shells, were twisted and warped by the exploding ammunition dumps until they looked, observers said, like red shredded wheat. Beyond to the right, can be seen the smoking hounds that once was the naval reservation and where every minute or so a shell still was exploding as the photograph was made.

This picture shows what remains of one of the ammunition storehouses at the army arsenal, Point Army, N. J., after it had been bombarded by shells from the naval arsenal at Lake Denmark, several miles away. The naval arsenal, fired by a bolt of lightning, showered huge shells over many miles of territory, causing \$75,000,000 damage and taking many lives.
