Billy Evans Says:

AN ODD SITUATION
Not in the last 20 years has there been an easier one to win a major league pennant than the present season.

With the two leagues nearing 100-mark in games played, a glance at the percentage column of the American and National Leagues reveal a most unusual situation.

Only one of the 16 clubs, the New York Yankees, boasts a mark of better than .600. I cannot recall a similar state of affairs during my 21 years' connection with the American League.

The National League race is a thriller with six clubs having a chance and promises to continue that way until the very end of the season.

In the American League, the Yankees are coasting along with a comfortable lead, made possible by two winning streaks of eight and 16 games. The next five clubs are stumbling over each other for the possession of second place.

Recently Manager McGraw of the New York Giants made the statement that there wasn't a great team in either league and that any club capable of playing good baseball could win.

It seems that Manager McGraw said a mouthful.

What a "drag" will do

A DRAG on your jimmy-pipe, loaded to the guards with Prince Albert, will give you an entirely new idea of how good a pipe can taste when you put it on the proper diet. It will revise all your notions about the grand old pastime of pipe-smoking. Make the test!

When you open the tin, the aroma that greets you is richly fragrant . . . the breath of real, honest-to-goodness tobacco. An aromatic promise of the smoke-pleasure to come. You'll never forget that taste when you light up. Nothing else is like it anywhere.

This very day, get yourself a tidy red tin of P. A. and tuck a load into the business end of your pipe. Light up and pull that wonderful smoke up the stem. Notice how cool it tastes, whether you feed it fast or slow. Notice how sweet and mellow it is. Good old P. A.!

No matter how satisfied you think you are, give P. A. a whirl in your jimmy-pipe. Millions of smoke-happy men will tell you that P. A. will give you more pleasure to the cubic inch than any tobacco you ever smoked. There's a P. A. sunshine-shop just across the way!

P. A. is sold everywhere in tidy red tins, pound and half-pound tin humidors, and pound crystal-glass humidors with sponge-moistener top. And always with every bit of kink and patch removed by the Prince Albert process.

CHARGES WITH PERJURY
PORTLAND, Ore., July 29. (AP)—Oscar Lund, who was acquitted in a trial in federal court recently on a charge of possession and sale of liquor, largely on his own testimony denying the charges, was arrested yesterday on charges of perjury. The government alleges that he gave false testimony in the trial. He was held under \$7,500 bond and was given until Monday to enter a plea.

HEALTH

THE STRENUOUS WEEK-END

By Dr. Frederick Stricker
This is the season when on Friday nights or on Saturday noon one sees the roads filled with motor cars, and trains and buses packed with happy people all going away from town for the week-end. On Sunday night or Monday morning the same people come trooping back to the town, many of them haggard and worn. The "evil of the week" is irresistible to most people and is one which all of us who are enslaved by our desks in the cities, can well afford to heed for a day or two each week. But why not be sensible about it? Just because you are going to the seashore or to the woods, is no reason for overdoing it.

Although exposure to the sun is recognized as a measure of great value in treating some diseases, going to the beach and lying on the sand for the main purpose of getting sunburned is foolhardy. The effects of sunburn, aside from disabling a person, at times results in conditions dangerous to health. Acquire your sunburn and tan gradually and by the end of the summer you will be just as brown and will not have been laid up for a few days with a severe burn nor will you have run any risks to your general health.

Many people take long trips over the week-end, camping out at night. This may be a recreation, but often it is hard work. If you are soft, don't try to do too much. If you intend to camp out at night, be sure to provide the necessary equipment. Don't carry a lot of needless truck. After you have discarded everything that isn't essential, go over your pack again and thoroughly check the necessary articles.

At all times be careful of the water you drink. Remember that clear, sparkling, running water is not always safe. Often it is dangerous. The safest policy is to boil all drinking water unless you know it is of good sanitary quality.

Many of us city-living individuals are unable to stand the strenuous life of the open air and sunshine until we have become a little accustomed to it. A hot-home plant cannot survive the ordeal to which nature puts the hardy perennial. Most of us are too soft to warrant exertion of a strenuous week-end until we have

gone through a gradual hardening process. Use up your reserve by getting the most out of your week-end. Sleeping out of doors, moderate hiking and roughness, will do much to improve your general health and make life worth while.

Administration and World Court
MADISON, Wis., July 29. (AP)—President Coolidge's administration and the World Court face another test in the Wisconsin primary election Sept. 7.

U. S. Senator Irvine L. Lenroot, one of the administration leaders in the upper house, and the senator for American adherence to the World Court, holds the seat which is at stake. He is opposed for reelection by Gov. John J. Blaine.

Cars Damaged Although Drivers Escape Injury

COVE, July 29. (AP)—An automobile accident occurred just below town Sunday afternoon when two cars came together damaging both. The drivers only received a few minor scratches.

The accident was caused by a mistake in signals. Mr. Allen started to turn off of the highway to enter his place when Stewart French, the other driver, thought that Mr. Allen was giving him the right of way and started to pass and the collision resulted.

How a Thoroughbred Takes the Hurdles

These two photos show just how a well-trained horse takes the hurdles. In the first picture the horse is shown just leaving the ground, taking a final shove with its hind legs. In the second, it is sailing over the cross bar as gracefully as you please. The horse is Princess Pat, ridden by B. J. Sumerski, and the pictures were taken at the Owensville horse show at Lake Forest, Ill.
