St. Louis	51	71	.418
Houston	42	82	.339

WASHINGTON (AP)—A wild pitch by Marberry and poor defensive play by the Senators in the eighth inning enabled St. Louis to score four runs to break a tie and win Monday's game, 8 to 4. The Senators had knotted the count in the seventh after the Browns had crossed the plate four times in the third inning.

WHEN WE THINK THE OTHER FELLOW KNOWS
Some people would be far better off if they used their own judgment rather than placing so much confidence in the judgment of the other fellow. The lack of self confidence has cost many a man a considerable sum. If we were able to think as fast as the other fellow can talk, likely our judgment would save us money.

Billy Evans Says:
BIG LEAGUE RACES
It looks very much as if a percentage of less than .600 might be bulky enough to win a pennant in both major leagues this year.

Such a situation is almost a certainty in the National. Since the opening of the season, six clubs have fluctuated between the .500 and .600 mark.
With the exception of the Yankees five clubs in the American league have been able to play only .500 or better ball since the start of the 1926 race.

Enjoying a nine-game lead with only 40 games to play, the Yankees are in the most enviable position.
For the New York Americans to finish below the .600 mark and win, the club would have to play a trifle less than .50-50 for the rest of the season. That is hardly probable, yet possible.

LOOKING INTO DOPE
Since a mark of less than .600 is almost certain to win the National league flag, it is interesting to review the averages and see how often the trick has been turned with so small a winning percentage.

Last season the National league celebrated its 50th anniversary. Only once during those half hundred years has a club won the pennant with a mark of less than .600.

In 1915, the late Pat Moran, then manager of the Philadelphia Nationals, won the championship with .592.
With the 1926 National League race more than two thirds finished, no club boasts a mark so good, so it seems as if a thin winning percentage would cap the titular honors this season.

FOUR TURN TRICK
It so happened that the season of 1925 was the 25th anniversary of the American league, the junior organization having been in the field just half as long. Lower winning figures have been more common.

During that time, four American league clubs have won a pennant with a percentage of less than .600. Washington capped in 1924 with a mark of .597 and the same year won the world championship from the Giants.

Delving into the figures reveals the fact that the American league races on the whole have been more bitterly contested. In only a few years have there been outstanding teams. As a rule there have been four or five of equal merit.
Not once has an American league champion finished .700 or better, while 11 clubs in the National league have done so, the last one being Pittsburg in 1907.

IN SAME CLASS
Not in years in the two major leagues has there been so many teams of the same class which might be referred to as good but not great.

Outstanding clubs have been a decided exception this season. Pittsburg which figured to show the way in the National from the start has been pressed all the way. Its close is the struggle in the National that it wouldn't surprise if the issue was in doubt until the last week, perhaps the very last day. Such things have happened more than once in both leagues.

This year would have been a soft spot for an outstanding club that could go the route in both the American and National, an easy year for such a club to win a pennant.
With the possible exception of the Yankees, there hasn't been a consistent team in the majors.

BIG MUNN WINS FROM DUGUID IN PENDLETON TILT

PENDLETON, Ore., Aug. 24 (AP)—Wayno "Big" Munn, 275 pound Nebraska wrestler, easily defeated Wallace Duguid, 255 pounds, of the Canadian province, here last night. Munn won the first fall in 24 minutes when he slammed Duguid to the mat with a body hold after lifting him high in the air. Duguid was stunned by the fall and after an additional five minute rest period had been granted him, was unable to continue. Referee Harold Cantonwin gave the fall to Munn.

NEW YORK—Mrs. Peaches Browning is under a physician's care from arduous social duties. She has been ordered to curtail her shopping tours and to retire early.

OREGON'S GRID COACH ON HAND FOR FALL WORK

EUGENE, Ore., Aug. 24 (AP)—Captain John J. McEwan, former U. S. military academy football coach, but this year head coach of football at the University of Oregon, arrived in Eugene this morning after a brief vacation and will start at once with preparations for the coming football season. It will be Captain McEwan's first year as coach on the Pacific coast and his team will face one of the toughest football schedules ever to be listed by an Oregon eleven.

Less than two weeks after the opening of the university, the University of Washington will be met at Portland. The date is October 9. Stanford university is next on the list, the Cardinals to play Oregon in Eugene on October 23. The following Saturday, October 29, the Webfooters will meet California at Berkeley. Washington State college will be met at Pullman on November 12 and O. A. C. at Corvallis on November 26.

Seattle Ends Series With 7 to 6 Victory

PACIFIC COAST LEAGUE

To Risk Life in Parachute Test

At the left is E. Carl Oelze, civilian aviator of San Diego who will risk his life at Ingleswood, Calif., within a few days to determine whether the mammoth parachute, shown above, will allow a plane to land safely when its motor fails. The parachute, which is 50 feet in diameter and made out of 275 yards of silk, will be carried in a box on the tail of the plane, with cords attached to the framework. It will be dropped out, the motor killed, and Oelze will float down to earth without damage. If the test is a success, the idea will greatly decrease aviation death toll.

Seattle baseball club of the Pacific coast league will not play any more games in Vancouver, B. C., this season, President Charles L. Lockard of the Indians, announced here today.

Arrangements completed a month ago called for a game in Vancouver each Wednesday Seattle was scheduled at home. Two games were played.

Lockard said a guarantee offered by Vancouver was not sufficient.

Reverend Nelson Knight

The Lumber-Jack Preacher

Hear Knight Tonight.
Soul-stirring Singing.
Let's Go!

The Scriptures Are Being Fulfilled At Lightning Speed

Jesus is soon coming back to Judge this wicked world.
Speaking of the sign of the end of the world, Jesus tells us that "Many be offended and shall betray one another and shall hate one another." Is not this God's honest truth? Who is your friend today? The one who may speak soft words to your face may be the one that is stabbing you in the back with their cruel words. God pity this careless, pleasure-loving world. You cannot afford to miss a single sermon. Hear this man of God, bringing soul-thrilling messages that stir people from head to foot. He speaks fearlessly and forcibly. He does not believe in rubbing on soft soap or white-washing people. But he uses the old pruning hook and rip saw. People love to hear the unvarnished truth made clear and plain. Hear Knight tonight. Church of God Chapel, corner X and Spruce. Meeting every night this week. Tell your friends and bring your neighbor. Out-of-town people are invited to drive in.

ALKALI WATER KILLING DUCKS

SALEM, Ore., Aug. 24 (AP)—Excessive drinking and contact with alkali charged water, bringing about a form of alkali poisoning, appears to be the cause of the so-called duck disease of Malheur lake in Harney county, according to Dr. W. H. Lytle, state veterinarian. Several features are yet to be considered before a positive statement can be made. The disease was present in the Tule lake district of Southern Klamath county last year.

An estimate of the fatalities made last year by a member of the U. S. biological survey places the loss at 100,000 ducks in the Tule lake district and 60,000 in the Malheur lake section. The latter lake is one of the greatest game refuges in the county. At present the disease has been greatly reduced apparently through a discontinuance of irrigation in the Blitzen river district which is a heavily alkaline region and drains into Malheur lake.

Recover in Pure Water
A majority of the dead ducks found in Malheur lake have harbored a number of water lice in the upper air passages and local investigators ascribe this duck trouble to the invasion of the parasites, giving rise to the statement that practically all sick ducks recover when in contact with pure running water. Dr. Lytle's statement reads:
Specimens of the sick ducks

Tilden Continues to Set Pace in Newport

NEWPORT, R. I., Aug. 24 (AP)—William T. Tilden, national champion, battered down the defense of Henry L. Johnson, of Waban, Mass., to gain the fourth round of the Newport invitation tennis tournament today, 6-1, 6-2. William M. Johnston, of California, number two in the national ranking, kept pace with Tilden by defeating Hugh G. M. Keller, of New York, in his third round match, 6-2, 6-2; coming to the net for dazzling block volleys to break up the clever back court driving of the metropolitan player. Lane Caden, of Leland Stanford university, gained his fourth round bracket by an easy victory over Vernon Lindolf, invincible English racket man, 6-0, 6-3.

PINKY MUST FIGHT
MILWAUKEE, Wis., Aug. 24 (AP)—Pinky Mitchell, junior welterweight champion, has been ordered to defend his title before October 1 by the state boxing commission or forfeit the belt, which he holds, automatically to the title, to the commission.

THINK OF THE CONFUSION--

if advertised products followed this Soviet law

Recently the Soviet Government passed a law that anyone over 21 could change his name as often as he pleased. Old friends you have known for years as Smith, Brown and Green, might be called Orloski, Potoski and Obovitch overnight.

Think of the confusion!

Even suppose your favorite foods, drug sundries, furniture, automobiles and phonographs suddenly had their names changed! Would you not feel almost a stranger in a grocery, drug or dry-goods store that was stripped of the familiar faces of advertised products?

Like an old friend—you have confidence in the trustworthiness of an advertised product. Years of frank publicity have made its name a synonym for full value. You and thousands of other people are proving this value every day.

The well-known names of advertised products are your best guide to wise purchases. Read the advertisements to see when and where to get them.

To know what is advertised is to know what is best in the market place
