

SOCIETY NEWS

Social Affairs Honor Boylens

Mr. and Mrs. William Boylens and Miss Caroline Boylens, who have been visiting in the city from their home in Indiana at the home of Mr. and Mrs. E. H. Hosten, have been the inspiration for many delightful social affairs while here. On Friday evening Mr. and Mrs. E. H. Hosten entertained at a delightful party in their honor at their home on Greenwood street.

Seven tables were arranged for bridge during the evening with Mrs. W. C. Cross winning high score among the ladies. T. H. Maxwell was first prize winner among the men. Consolation prizes were awarded to Mrs. L. H. Hiramwell and C. L. Mackey. Mr. and Mrs. Boylens were presented with guest prizes.

Yellow and white was the color scheme used in decorating the home and formed a pretty background for the evening's play. A delicious luncheon was served after the games.

On Sunday another affair was given in their honor with Mr. and Mrs. T. H. Maxwell as host and hostess. This was a swimming party at the Cove swimming pool. The guests were Mr. and Mrs. E. H. Hosten, Mr. and Mrs. William Boylens and Caroline Hiramwell and her mother, Mr. and Mrs. Ralph Anderson, and Tom Hinesell. After several hours swimming the guests returned to La Grande where dinner was served at the Maxwell home.

Mr. and Mrs. Boylens and Caroline will leave sometime this week for their home in Indiana.

Fifty Attend Annual Picnic

About 50 members of the Grand International Auxiliary to the Brotherhood of Locomotive Engineers enjoyed the annual picnic of the auxiliary held at the Pine Cone picnic grounds last Friday afternoon. Each year since the organization of the auxiliary August 27, 1907, the members have held a picnic. Yesterday the people began to gather at the picnic grounds at about 1 o'clock in the afternoon. Many of them enjoyed a swim in the tank there while others spent the time visiting.

At 6 o'clock a picnic dinner

For Sportswoman

This swaggar sport set is intended to display your favorite legs, as depicted in fur on the woolsen and on the mannish felt hat.

First Meeting Will Be Tomorrow

St. Peter's Episcopal Guild will meet for the first time this season tomorrow afternoon at Honan hall. The guild meetings were discontinued during the vacation months and the meeting tomorrow will be to outline the work of the organization for the coming year. It is reported that all members be there.

In addition to an important business meeting a delightful social time is being planned. Mrs. L. H. Russell heads the committee in charge of this feature. Other members are Mrs. Tuserson, Mrs. Ernest Gray and Mrs. Frank Cleavin.

Sunday School Picnic Successful

Cove (Special)—The Methodist Episcopal Sunday school picnic held at Riverside park was very successful. About 75 persons attended and after a delicious picnic lunch the afternoon was enjoyed in games, races and various other contests.

Announcements

Social announcements may be printed in this column free of charge. Any announcements pertaining to any functions such as cooked food sales, etc., will be refused. Announcements to be printed the same day, must be in society editor's hands by 9:00 o'clock. —News editor's note.

The Riverside Ladies' Aid will meet Thursday afternoon, Sept. 2, at the home of Mrs. Vernon Jensen, at the corner of Lake and Walnut.

The Parkdale club will meet tomorrow afternoon at the home of Mrs. Charles Gump. Mrs. Francis Carbine and Mrs. Thomas Standley will be assistant hostesses.

The Missionary society of the Christian church will meet tomorrow afternoon at the home of Mrs. J. J. Kitchen, 1307 O avenue. Mrs. Chloé and Mrs. Ida French will be hostesses.

The Ladies' Aid society of the First Presbyterian church will meet tomorrow afternoon in the community room of the church. This is the first meeting of the society this season and all members are urged to be there.

A golf ball has been invented for indoor practice that will travel only a few feet. Most of us have been playing with that kind of ball for years.

This Flavor alone will satisfy you in quick cooking oats "Quaker" flavor

IN QUICK QUAKER—the world's fastest hot breakfast—the famous Quaker Oats has been retained.

That, to you, is important; for flavor is the big point, after all, in food. No other brand has that flavor. It took Quaker Oats experts years to attain it, and, at the same time, give you 3 to 5 minute cooking.

Quaker milling, too, retains much of the "bulk" of oats. And that makes Quaker less often needed. Protein, carbohydrates, and vitamins and his "bulk" are thus combined in making Quaker Oats an excellently balanced food.

That is why, in quick cooking oats, it is the regular, the important point is millions to see the picture of a Quaker on the package of Oats that they buy.

Quick Quaker

Sister Mary Says:

(By Sister Mary)

Breakfast—Baked apples, cereal, thin cream, crisp broiled bacon, potatoes hashed in milk, bean muffins, milk, coffee.

Luncheon—Cream of spinach soup, croquettes, watercress and cottage cheese, sandwiches, peach cobbler, milk, tea.

Dinner—Jambon souffle, baked tomatoes stuffed with rice, apple celery-cabbage salad, Keosauke pudding, whole wheat bread, milk, coffee.

This dinner menu is planned without meat. The meal is well balanced and nourishing and ideal for hot weather. The souffle is suitable for quite young children since the beans are put through a sieve which of course removes the thick covering.

Lima Bean Souffle
One cup cooked sieved lima beans, 3 eggs, 4 tablespoons flour, 2 tablespoons butter, 2 tablespoons bacon drippings, 1/2 teaspoon salt, 1/4 teaspoon pepper, 1 cup milk, 1/2 teaspoon onion juice.

Melt butter and bacon fat and stir in flour, season with salt, pepper and onion juice and slowly add milk, stirring constantly, bring to the boiling point and remove from the fire. Add yolks of eggs and blend thoroughly. Add beans and fold in the whites of the eggs beaten until stiff. Turn into a buttered baking pan of hot water in a moderate oven for twenty-five minutes or until the souffle is well puffed and firm to the touch. Serve at once.

Fashion Notes

COCKTAIL FROCKS

A cocktail frock is one that is good any time and is equally good for young things and grandmothers. The house of Nicole Groult sponsors it and Miss Groult wore one at the recent winter openings. It was made of gray net silk and was described by the designer of the house as "what Americans would call an all-the-way-round dress."

MUSSOLINI COAT

One of the dress sensations at the Goodwood races was a powder blue cloak, much the same color that Italian officers wear in their dress uniforms. It was worn by an exquisitely dressed woman who was a stranger to London society, but rumor has it that the coat was made by Mussolini's own tailor and modelers who have imitated the coat are calling at the Mussolini coat and predict it will be a popular garment this autumn.

HEALTH

HAY FEVER

By Aaron Brown, M. D., New York City

Member Gorges Memorial Institute

At this season of the year more than a million people in the United States are sneezing and suffering with itching eyes, blocking and running of the nose and a tickling sensation in nose and throat. Hay fever thus is in full swing. Hay fever is an inflammation of the membranes which line the nose, throat and eyes. The cause is irritation to these mucous membranes from fine particles floating in the air, affecting people who happen to be sensitive to them.

In the seasonal variety of hay fever, the sort prevalent just now, the pollen of plants is the exciting agent. Hay weed is one of the big causes. This pollen of course is wind borne and under proper conditions may travel for several miles.

There are two varieties of seasonal hay fever, early and late. Early hay fever, or loose cold, is due to the pollen of grasses and is current from May 15 to July 15. The late type, from the middle of August to frost time, is due to the pollen of weeds, almost exclusively to rag weeds.

In the "all year round" type of hay fever, the causative agent must be dust, animal danders, feathers, face powder, insect powder, tobacco, etc.

The easiest method to escape from hay fever for those susceptible to the rag weed pollen is removal to a section of the country in which the pollen is not present. Of course it is necessary to remain there until frost has come "back home." But this method of escape is unfortunately open to but few. Not many of us can arrange to be away from business for the necessary length of time.

Many hay fever patients therefore resort to treatment beginning several months prior to the expected onset of symptoms, and a big majority of patients, though not all, are helped by the treatment. After the cause of the hay fever is determined, the patient receives injections of the solution of the substance to which he is sensitive.

More people than ever before are finding relief in this method, administered by their family physician. Under no circumstances should the sufferer attempt self medication. Most so called "cures" contain habit forming drugs.

WASHINGTON, Aug. 29. (AP)—In the fact of cooperative efforts to lower grade crossing accidents 55 more persons were killed and 465 more were injured during the first five months of 1926 than for the same period last year. Accidents increased by 307.

Interstate commerce commission figures announced show grade crossing accidents to have totalled 2292 during the five months, as against 1895. The number killed was 859 as against 771 and the injured 2466 as against 2198.

OFFICE CAT
TRADE MARK REG.
By Junius

Bill Smith, a country sleepkeeper, went to the city to buy goods. They were sent immediately and reached home before he did. When the boxes were delivered Mrs. Smith, who was keeping the shop, uttered a scream seized a hatchet, and began frantically to open the largest one.

"What's the matter, Sarah?" asked one of the bystanders, who had watched her in amusement. Pale and faint, Mrs. Smith pointed to an inscription on the box.

It read: "Bill inside."

Hugh: Are you the girl I kissed between dances?

Irene: Which dances?

Many girls often brag about making a monkey of some boy, but isn't it miraculous what they can make out of themselves with a little rouge, powder and lipstick?

The Girl's Father—Young man, the lights in this house go out at 11 o'clock.

Young man—That suits me.

If you don't want to go where it is hotter than it is here you had better start being good.

THE WAY TO GET THE BEST OF AN ARGUMENT IS NOT TO TAKE PART IN IT.

The dumbest guy on earth is the fellow who thinks that Ah Gator is a Turkish prince.

"Where to?" said Bill Tye to his "date."

"An amusement park!" she glowed.

So he drove out in the country. And parked beside the road.

The beerless saloon having failed to take the suggestion now is to try saloonless beer.

Roses are red; Violets are blue; But they're much too expensive

For a girl like you.

Don't let the child walk too soon; If he gets how-legged, he'll play hunder doing the Charleston.

"A woman will go shopping whether she needs to or not," says a critic.

"And come home with a very flimsy excuse done up in a parcel."

CATHERINE CREEK PERSONALS

CATHERINE CREEK (Special)—A band of about 20 Umatilla Indians passed through here on horseback last week on their way to the Forks o the creek where they will fish, hunt and pick huckleberries.

Mrs. S. E. Cusick returned to her home last week from La Grande where she has been visiting relatives for several days.

Mrs. William Turner and children, who have been visiting at the home of her father, Al Stone, returned to her home at Irion, Idaho last week.

Miss Elma Cusick has accepted a position as teacher in Woodruff school district for the coming year.

Mr. and Mrs. J. E. DeVore made a trip to The Park last Saturday evening to visit her brother, Frank Wigglesworth and family.

Ed Gillespie has sent his ranch to William Shively, who will move his family here. The Gillespie family will move to Union. Miss Sylvia Hughes, of Union, is visiting at the home of her uncle, W. R. Phillips, this week.

Harry Feather and Charles Green were Sunday visitors at the Ed Miles home.

Mr. and Mrs. R. H. Bonney and family left Sunday for a week's outing and fishing on Eagle creek.

Mr. and Mrs. Arthur Mowdy are the proud parents of a baby son, born to them last week. Both mother and baby are doing nicely.

PROMISE PERSONALS

PROMISE (Special)—Mr. and Mrs. H. P. Shields, Mrs. Paole and her mother, Mrs. Alfred, of Wallowa, have been camping in the woods near here, for the past four days. Mr. Shields is pastor of the Presbyterian church at Wallowa. He preached two sermons at the Promise school house Sunday.

Roy Carper and Clyde Taylor and Mrs. John Carper, Lora Carper and Reuben Barton were calling at the C. P. Carper home Sunday.

Mevin Rice, of Enterprise, was demonstrating the Maytag washing machine here last week.

Cha Paulson went to Wallowa the first of the week. He was accompanied by Thessa Smith, who will stay with her aunt, Mrs. Clint Lemmen, there.

Mrs. Nancy Bennett, of Wallowa was visiting her son, Elmer, the first of the week.

Pire broke out again on the low-

PARK PERSONALS

THE PARK (Special)—J. H. Hunter and children were La Grande visitors Wednesday.

F. L. Wigglesworth is hoping George Melow stork grain this week.

Mrs. Bob Wanker and daughters were guests at the Clarence Vanderhorst home Sunday.

Miss Oella Vandevanter was at Medical Springs on business last week.

Mrs. J. C. Lay and baby, and Mr. and Mrs. Fred Lay and baby were guests of Mrs. Frank Wigglesworth Sunday.

Henry Miller has returned to his home at High Valley after a month's visit here with his niece, Mrs. A. J. Vandevanter.

Clarence Vanderhorst and Frank Wigglesworth went to Union Sunday evening.

Mrs. Titus, of Union, is visiting relatives at The Park this week.

Mr. and Mrs. James DeVore were guests of Mrs. Frank Wigglesworth recently.

Rudolph's Remains May Repose in Film Capital

NEW YORK, Aug. 31. (AP)—Plans to ship the body of Rudolph Valentino to Hollywood were assuming concrete form today, although decision rests with the seven stock's brother, Alberto Gullielmi, who arrives from Europe tomorrow on the liner Homeric.

R. George Ullman, Valentino's manager, said that a special car already had been engaged for the trip. He and Mrs. Ullman and Pola Negri, the Polish actress who announced her engagement to the "great lover" of the films, and who came here from Los Angeles to attend the funeral services yesterday will accompany the body.

Military investigators at the bedside here are baffled by the death early yesterday of Lucien Appligante, a young private in troop 17, 11th Cavalry.

The soldier was shot through the back of the head while making his sentry rounds. Investigators have unearthed no motive for an attack upon him, and the lack of powder wounds near the wound indicated that he did not commit suicide.

The young man had been in the army only a short time. He enlisted at Klamath Falls, Ore.

A United States Rubber Company Plant in Sumatra for the production of Sprayed Rubber

Scientific rubber growing on a United States Rubber Company Plantation

United States Tube Factory at Indianapolis—The largest tube factory in the world

Some Questions and Answers about United States Water-Cured Tubes

Question—What is the Water-Cure Process?

Answer—The Water-Cure Process is a new method of curing or vulcanizing automobile tubes now in use in the United States Rubber Company tube factories.

Question—How does it differ from the old process?

Answer—During vulcanization heat and pressure must be applied to the tube. The old method used steam to supply this pressure and heat. The new method uses water under high pressure and at steam temperature.

Question—Why does this make a better tube?

Answer—In the old steam method the pressure could not be applied evenly. Small air bubbles were formed in the tube, each of which became a source of weakness.

The new Water-Cure Process eliminates the possibility of such bubbles by its heavy, even pressure. It also insures better union between the tube and the valve-base, and at the same time gives the rubber itself a finer, longer-wearing, more age-resisting texture.

Question—Can water-curing alone make a good tube?

Answer—No. A good tube demands good rubber, proper construction and proper splicing as well.

Question—How are these provided in United States Tubes?

Answer—The rubber used is Sprayed Rubber, the purest and most uniform rubber known. It is made from rubber latex from the United States Rubber Company's own plantations, by a process developed and patented by the Company.

United States Tubes are constructed of four plies of rubber. Most other tubes are made of one or at most two.

Splicing is done by a specially developed method, which not only assures uniformly strong splices but also limits the pressure and heat to the splice itself and does not tend to weaken the rest of the tube.
