TO GET MORE PAY

BOISE, Sept. 1. — After a series of three sessions Tuesday, the third ending at 10:15 o'clock, Tuesday night, Boise's city council agreed on the distribution of the \$11,000.25 for increasing the salaries of city employees.

Results
of Time

The results that Chiropedic adjustments have produced in the human family are results that have withstood the test of time. Not momentary results that make the patient feel better for the time being, and which is then headed as a cure-all and for a short season flourishes, until time proves its fallacy. Chiropedic has come through, the mild, permanent way of standing solely on its merit as a successful health science. The longer time Chiropedic is given to prove its claims, the stronger and farther following it will have.

MARKETING OF
CATTLE SLOW

PORTLAND, Ore., Sept. 1. (AP) — A decrease of about 7 per cent in the fall marketings of cattle from the 17 western states in 1925 from the fall marketings of 1924 is indicated by reports to the United States department of agriculture.

The computed marketings in the fall of 1925 were about 6,250,000 head and the estimated marketings this fall 5,850,000 head. Of the number marketed last fall 5,410,000 head were from the 10 states east of the continental divide and 4,100,000 from the seven states west of the divide.

Since the indicated marketings although smaller than last year, are larger than the annual production in these states further decreases in basic cattle numbers will result.

Pastures Not So Good.
While range and pasture conditions over a large part of the region are lower than last year, the condition over the region as a whole is higher due to the marked improvement in the southwest. The reported condition of ranges of 1925 for the whole region was 57, compared with 53 in August 1925 and 70 in 1924. Production of feed crops for the whole region will probably be somewhat smaller than last year and in limited areas will be very short.

The shortage of feed supplies in many states due to drought will tend to increase marketings this fall over what it would have been had feed conditions been more favorable. Current prices for western cattle are disappointingly low. In some states this is resulting in increased marketings because of the necessity of raising money and of the selling out by cattlemen, who have been holding in hope of better prices this year. In others, where producers are better situated it may tend to reduce the movement, many preferring to hold their cattle than to sell at present prices. On the whole it will tend to increase rather than decrease shipments.

PORTLAND PRODUCE
PORTLAND, Ore., Sept. 1. (AP) — Eggs 1 to 2 cents higher. Current receipts 32; fresh medium 31c; fresh standard firsts 35c; fresh standard extras 37c; undersized 15c.
