

To meet the overwhelming demand for Maytag Washers we buy another trainload - the second solid trainload of Maytags in 30 days!

The Greatest Demand Ever Known

The cry of the Pacific Northwest is for More and More MAYTAGS! Two whole trainloads ordered within a single month! One trainload already sold—another one here. A million dollars' worth of MAYTAGS in 30 days!

Never before in the history of the washing machine industry has such a thing been heard of—never before has there been such a record demand for washers!

It leads the demand of the whole nation for so many of these wonder washers that now nearly half of all the washing machines sold are Maytags.

Women try the Maytag—and then they buy, because after a demonstration of the pleasant Maytag "wash-hour" they cannot go back to the long, tiresome washday. They want the advantages the Maytag gives that no other washers possess.

Advantages No Other Washer Has

Just think! With the Maytag big tubfuls of clothes are washed in 3 to 7 minutes! A whole washing—50 pounds of clothes (dry weight) is done in one short hour!

Even collar and cuff edges are washed spotlessly clean without hand-rubbing! Grimy rompers and greasy overalls are washed clean as new in 10 minutes!

Remember the Maytag is the ONLY washer with a cast-aluminum tub. A tub that cannot corrode, rust, rot, split or break. A tub that is heat-retaining. A tub that cleans itself in 30 seconds after the washing is done.

Phone the nearest Maytag dealer. Use a Maytag next washday in your own home. There is no expense nor obligation of any kind. Compare the Maytag with other washers you have seen—then if it doesn't sell itself to you, don't keep it.

THE MAYTAG SHOP
