Imblerites Get Deer After 2-Week Hunt

IMBLER, Ore., Sept. 24 (Special)—After nearly two weeks spent in the mountains, hunting the elusive deer, the Keown Brothers landed a two-point buck and returned home.

Their relatives and friends had been to think that a search for them would be necessary but Archie said he had orders not to return home until he shot a deer, so they didn't turn homeward until they bagged one. They carried the animal on their backs for four miles. Joe said he didn't know what it weighed but that it was quite heavy before they reached camp.

Many Indians feared to have their portraits drawn or painted, because they believed that the artist must take some of the life force of the sitter in reproducing his image.

When George Stephenson, pioneer railroad builder, declared that 15 miles an hour was a practical speed for travel, his sanity was questioned.

The Norsemen established a colony in Greenland which flourished for several centuries and then mysteriously collapsed in the fifteenth century.

Tunney Unchanged; No Immediate Plans

PHILADELPHIA, Sept. 24 (AP)—Gene Tunney, the champion, was unchanged from Tunney, the challenger, except in one particular today.

He was up until the early hours of the morning. For months he had gone to bed nightly before 10 o'clock.

The new champion sat for hours in a big chair in an unpretentious two-room suite of a small hotel, owned by a boxer and his manager.

He was as calm after his victory as he was during his training at Speculator, N. Y., and Stroudsburg, Pa., or as he was in the ring during his successful quest for the highest honor pugilism has to give.

He has no immediate plans, except to go home to New York shortly.

Tunney said he was convinced that he won his big bout in the first round "The right I landed on the jaw soon after the first bell didn't do Jack any good," he smiled.

HIT THE BALL!

CHICAGO—If anybody seeks Charley Schwab's advice as to how to improve his business the reply would be a paraphrase of what a caddy told Charley to improve his golf: "You big slob, keep your eye on the ball!"

NEW YORK—The mayor is to have a nice new suit of gray homespun made by North Carolina mountaineers. It is to be presented by citizens of Asheville, who are coming here on a special train to boost the "land of the sky."

It is probable that there are thousands of different kinds of cotton being cultivated by primitive tribes in tropical regions.

Seeding of Wheat Progressing Nicely

WALLOWA, Ore., Sept. 24 (Special)—Seeding of winter wheat crops in this end of the county has progressed rapidly of late. The ground has been in excellent condition for working. A number of farmers have finished seeding while many other are getting nicely started. Grain which has been in the ground a few days is starting to come up and prospects are that wheat which is sown any time this month will get

a nice start before cold weather sets in. This is the opinion of many farmers, greatly enhanced by the chance for a good crop next year. Osborn & English, who are farming the large hill ranches of J. H. Haun in the Leap section east of here, have been busy the past week cleaning seed grain and working part of the fields on which the weeds were starting. They expect to seed around 500 acres of summer-fallow this fall.

UP TO GLENNA

ARDMORE, Pa.—If Hagen is beaten it will be up to Queen Glenna Collett to be the only successful late summer defender of a sport throne. The women's nation golf tournament starts at Merion Monday.
